BERLIN POLICE ARE BUSY AFTER SPIES

Subjects of English Nationality or Affiliations Are Arrested by German Authorities.

TWO PROMINENT BRITONS HELD Third, Who Admits He Entered Country Under False Passports as an American, Believed to Have Been Shot.

(Copyright, 1914, by Press Publishing Co.) BY HERBERT B. SWOPE. LONDON, Oct. 29.—(Special Cablegram to New York World and Omaha Bee.)—There has been a vivid recrudescence of the spy mania throughout the German empire, those suspected being English or of English affiliations, being arrested and in some cases shot. Here in Berlin two Englishmen of prominence, attached to the American embassy, have been taken into custody, while a third, who was seized with false papers, has disappeared, after being made a prisoner and seemingly well-grounded fear is expressed that he has been shot.

Claimed to Be Correspondent. He is, or was, Nathaniel Pike, 25 years old, a graduate of Cambridge university, and is believed to have been the correspondent of the Reuters agency, but the military authorities hold he came here as a spy.

From admissions he made personally to Ambassador Gerard, he entered this country from Denmark under false papers. He represented himself as being Frank Engleton, an American newspaper man, and showed passports with this name. He also had a birth certificate that showed the bearer to have been born in Brooklyn. He said he had lived in England since childhood as an explanation of his marked English accent.

No Rights to Papers. Under pressure he admitted he had no right to the American papers, which he said he had bought, and confessed he was English, giving his name as Pike. He was at once taken secretly to prison and the announcement was made that he would be shot as a spy. Ambassador Gerard interested himself in his behalf, but cannot obtain any news of Pike's whereabouts or what happened to him. The report has been circulated, although it lacks confirmation, that he has been executed.

Arrested at Outbreak of War. The two Englishmen taken from the American embassy and lodged in jail Thursday, October 8, were John Herbert Spottiswood, a member of a wealthy and well known English family, and James C. Weston, an English civil engineer, who had been employed by the Turkish government in its navy department. Both were in Germany at the outbreak of the war and both were at once arrested, later being released to the custody of Ambassador Gerard, who put them to work in the embassy's English department.

Spottiswood is a man of independent means, interested in a sporting way in aeroplanes. He is a friend of Commander Forde, who was to have flown the Wainwright biplane across the Atlantic. Spottiswood was recognized by a German officer as having been in Germany last summer in connection with the purchase of aeroplanes. That caused him to be regarded with suspicion. Then came the aeroplane flight over Dusseldorf, in which bombs were dropped on a Zeppelin hangar. As it was known to be few that a Zeppelin was at Dusseldorf, the police associated Spottiswood's name with the occurrence. He was arrested and not allowed to communicate with anybody.

Had Turkish Naval Plans. Weston's rooms were searched and he was found to have so-called secret plans of the Turkish navy. He explained these by saying he was working for the Turkish government. At first this statement was accepted, but later, as Turkey became more and more a possible ally of Germany, he was taken into custody. The military police descended upon the rooms where he was working and arrested him, at the same time seizing papers belonging to the American embassy. The police made an effort to search the private office, but Roland Harvey, second secretary of the embassy, who happened to be there at the time, looked the doors and denied the police admittance in the name of the United States.

They did not press the matter and the papers taken from the American embassy have been returned with apologies. American Surgeon Arrested. Yesterday word reached Berlin that Dr. Frederick Warren Peart, American surgeon, who was a major in the Spanish-American war, had been arrested at Stettin. He is a brother-in-law of Stuart Duncan of Newport. He is accused of being a British spy. The ambassador has taken steps to have him released.

UNCONDITIONAL DELIVERY OF PRISONERS ASKED BY ITALY

ROME, Oct. 29.—The Giornale d'Italia declares today "If Emperor Nicholas will deliver unconditionally to Italy the Austrians of Italian nationality captured by Russia from the Italian frontiers, we have virtually decided to accept the offer made by his majesty."

On October 24 the Russian ambassador at Rome notified the Italian government that Emperor Nicholas, desiring to give Italy further proof of his friendship, was ready to send to Italy all Austrian prisoners of Italian nationality taken by Russian troops in Galicia, on condition that the government did not return them to Austria-Hungary. The prisoners that the Russian emperor has proposed to transfer to Italy are said to number 1,000, and belong to the districts of Trent, Trieste, Gorz, Pola and Dalmatia.

KAISER RUSHING 200,000 TROOPS INTO FLANDERS

(Continued from Page One.)

to repeat their furious attempts to break through and reach the coast of France. All dispatches seem to agree that there was a temporary lull yesterday in the fighting between Nieuport and Ypres, but the reports are far from unanimous as to whether this was due to an armistice to bury the dead and remove the wounded, which covered the field, or whether it was caused by the exhaustion of the contending forces, or the German lack of ammunition.

The London press hazards all three guesses, and contends at any rate that the position of the allies is satisfactory. The public is warned, however, that the struggle in this quarter is not yet over, for the Germans, if they find the northern route to Dunkirk and Calais impassable, may shift to the south, with Boulogne as an objective.

It was at Boulogne that Napoleon waited in vain for his troops to embark for England, and the taking of this city by the Germans would stir the German people as nothing else could.

British Warships Busy. Berlin claims that there has been no recent progress in the struggle in Flanders, and, as if explaining this, says sixteen British warships are operating on the coast. This number never has been confirmed from British sources, but a dispatch from Dover reports that a battleship equipped with twelve-inch guns has gone to the assistance of the British monitors which have been shelling the Germans on shore. Other reports speak of heavy firing in the North sea, as if a big naval engagement had taken place, but the admiralty here is silent. Taken as a whole, the English interpretation of the news this morning was cheerful.

From South Africa came a statement that General Botha had inflicted a sharp defeat upon General Beyer, the latest recapture of the revolutionary movement in the union of South Africa.

In the eastern arena of the war in Europe, the Russians appear to have driven in the German right wing, as a fortnight ago they shattered the left before Warsaw. In confirmation of this is the German official admission that their troops, together with the Austrians, had retreated in Poland.

British Court in Mourning. Beginning today, the British court goes into mourning for three weeks for Prince Maurice of Battenberg, the first member of the royal family to be sacrificed in King George's war. The prince was a cousin of King George and a son of Prince Henry of Battenberg. He held a commission in the King's Royal Rifle corps, and died of wounds received in battle. Royal condolences already have been sent to his sister, the queen of Spain, who but a few days ago gave birth to a son. The London papers today devote considerable space to the death of Prince Maurice, saying that although a mere boy, he was a gallant sportsman. There are recurring reports that the Germans are constructing sheds on the Belgian coast for the housing of Zeppelin airships. A local newspaper is offering its subscribers free insurance against Zeppelins.

There is no official confirmation of the reported German invasion of Portuguese West Africa. Holland is still on edge as regards a possible violation of its neutrality. The first boat load of food for Belgium under American supervision left London today.

Banker Convicted the Driver for Warden On Automobile Trips OSBORN, N. Y., Oct. 29.—T. J. McCormick, warden of Sing Sing prison, under suspension, admitted today that David A. Sullivan, who is serving a sentence for the part he played in wrecking the Union bank of Brooklyn, had frequently been outside of the prison on automobile rides. Mr. McCormick's admission was made on the witness stand before Stephen C. Baldwin of Brooklyn, Governor Glynn's special commissioner. McCormick testified that Sullivan had been detailed to drive the automobile and that this was in line with the policy of having all work possible done by prisoners.

McCormick testified that Sullivan had driven him to New York and Yonkers, and had been left at times alone in the car. "The reason I selected Sullivan," McCormick said, "was because he had the appearance of a gentleman and I considered it necessary to have such a person driving a passenger car."

Further questioning elicited the reply that although Sullivan was sentenced to two years' imprisonment at hard labor, the hardest work he had done had been writing shorthand and driving an automobile.

McCormick testified that so far as he knew, Sullivan had never transacted any personal business while absent from prison on an automobile trip.

See Want Ads Are Famous as Result-Getters. Alderman Glimman Acquitted. DETROIT, Mich., Oct. 29.—Alderman Thomas E. Glimman, former councilman and one of several Detroit aldermen arrested in a sensational alleged graft exposure in July, 1913, was acquitted today on a technicality.

Glimman was the only alderman to reach trial and his acquittal, it is said, will end the cases against the other officials.

Gary Says Nation Winning War Loses Trade Supremacy

BIRMINGHAM, Ala., Oct. 29.—If the European war is maintained with its present violence for eighteen months the loss of life will be 4,000,000 and the property loss \$25,000,000,000, E. H. Gary, president of the American Steel and Iron institute, said today in addressing the annual meeting of that organization.

Mr. Gary admitted the present depressed state of the steel trade, but was optimistic of the future. "Without particularizing, it would seem safe to predict that in many important respects business conditions in the United States for the next three months at least will be better than they have been for the last three months," he declared. "I do not hesitate to say, with emphasis, that the opportunity for success and progress in this country is greater than ever before."

"Paradoxical as it may seem," added Mr. Gary, "the nation which is successful in this war will surely lose. The struggle for commercial supremacy was the underlying cause of the war and many believe that if representatives of the different nations previously had met in friendly spirit to settle the financial interests involved, all trouble would have been averted.

"Undoubtedly it would be to the best interests of all the nations engaged in the present war, and to the world at large, if the integrity and geographical lines of each of those nations could be substantially preserved."

WILMA MC'CLOY IS BEST BABY IN SHENANDOAH

SHENANDOAH, Va., Oct. 29.—(Special.)—Wilma McCloy, the 23-month-old daughter of Mr. and Mrs. James P. McCloy, won the honor of being the most perfect baby in Shenandoah in the better baby contest held by Dr. Velura E. Powell of Red Oak and Dr. Jeanette Throckmorton of Chariton, women physicians, in connection with the meeting of the Eighth district Federation of Women's Clubs. The child's score was 97.5. Mrs. Benjamin Clark of Red Oak, state president of the Federated clubs, addressed the delegates and visitors last night at a reception. The convention closed today.

British Steamer Seized. BORDEAUX, France, Oct. 29.—(Via Paris.)—The port authorities today seized the steamer Colonia on suspicion that it was a German vessel. The Colonia arrived at Bordeaux flying the British flag, but when in port a few months ago it gave its nationality as German. A prize court will decide whether its transfer from German to British ownership is valid.

BE SURE TO GET REAL RESINOL If you want to get rid of eczema, pimples, or other distressing skin eruptions, you will accept no "substitute" for Resinol. Ointments similar in name or appearance are NOT "just the same as Resinol." Although a FEW unscrupulous dealers may offer them AS OR FOR Resinol, they are often crudely made, of little healing power, and some may even be dangerous to use. Every druggist keeps genuine Resinol, because doctors prescribe it regularly; so if you buy in the original BLUE package you will be safe from substitution. For sample free, write to Dept. 41-R, Resinol, Baltimore, Md.—Advertisement.

GOOD-BYE INDIGESTION! Rheumatism Brings Quick Relief Indigestion is beaten! The misery of poor health due to poor digestion is over—for those who know Rheumatism, the wonderful effervescent drink.

No more sour stomach, gripping pains, rumbling of bowels and trembling limbs—nothing but a desire to eat what you want when you want it—without any "kick back."

Your health depends largely upon what you eat and how it is digested. Undigested, fermenting, putrifying food is one of the greatest handicaps your body has. And it is all unnecessary, if you let Rheumatism help you.

If you are bothered with indigestion, ask your druggist for about five ounces of Rheumatism; take two teaspoonfuls in a glass of water before breakfast each morning and in a few days you will be able to digest your food in a perfect manner. Rheumatism is very inexpensive. It does not cause nausea. It is delicious to take and is delightfully effervescent. Rheumatism is prepared by the famous Rheumatism Company, Minneapolis, Minn.

PROTECTION OR PLEASURE. A man was almost convinced to buy a \$500 policy on his life. He hesitated because he was also thinking of buying an automobile. He finally bought the auto. This man had a wife and three small children. He was a country merchant in very moderate circumstances. He carried no life insurance but always intended to. He simply kept putting it off. There were so many other places for his money.

Some months later this man lost control of his car and in the accident which resulted, also lost his life. Auto and life insurance each have their place, but the auto should follow and not precede the insurance. One protects the family, the other only adds to its pleasure.

ceived of the detention of the Italian vessels from American Consul Sprague at Gibraltar, who yesterday reported the seizure of the American steamer Kroonland, also laden with copper for Naples and Greek ports. Before taking official notice of the seizure of these three vessels, State department officials will await full report of the circumstances under which they are detained.

As the Italian vessels bear American cargoes, even though conditional contracts, bonded for neutral ports, the State department will take every measure to protect the rights of the American shippers.

It is also understood that British warships held up the Norwegian steamer Prosper III, from New York to Copenhagen, and took it to a port in North Scotland.
