

ROTARIANS GIVE REAL PARTY

Moorehead Is Fined Quarter as Part of Evening Fun.

USE THE HALLOWE'EN IDEA

Rathskeller at the Henshaw Is Decorated in Autumn Shades—Bob Manley Is the Orator—Maid Telle a Story.

It cost Election Commissioner Harry Moorehead 25 cents to find himself unable to recognize and name J. S. Wood of the Bradstreet agency, notwithstanding the fact that he is supposed to have in his office a complete Bertillon description of him, including height, weight, appearance and color of eyes and hair.

This was one of the stunts pulled off at the big annual Halloween dinner of the Rotary club, for which the Henshaw rathskeller was fantastically decorated with colored lanterns, broom-wielding witches, cats and other weird animals.

Called on as a visitor, Willis McBride, the Elgin (Neb.) banker, told a story that made a hit, and "Billy" Lawrence put on an imitation Harry Lander act in Scotch costume that would have made the real Harry pinch himself to see which was which.

The Omaha Rotarians are organizing to sweep down by special train on their Lincoln brethren on November 11, when the latter entertain the national officers.

Want More Action. "What people demand nowadays is more action and less deliberation," was the burden of a talk delivered by Robert H. Manley, commissioner of the Commercial club.

Ten years ago, said Manley, "men wanted after-dinner speeches; nowadays they want something more lively, as the cabaret. Ten years ago the cities were governed by a deliberative body, the city council; today many of them are tending toward the city manager plan."

"We used to have deliberative committees that debated and deliberated over a matter for an interminable length of time before they could decide to take any action."

Have Committees Now. "Now we have committees that are active and get things done, whether right or not. They have the feeling that if it is not exactly right they can fix it up afterward, but the spirit is to get it done somehow. The trouble with the deliberative method was that 75 per cent of the energy of the committee was used up in the deliberation, and when it came time for actual action there was but 25 per cent of the spirit, energy and enthusiasm left for the real work."

Citizens' Ticket Suggested for the City Commission

The United Improvement club endorsed the citizens' ticket for the school board in its entirety at a meeting which was held Wednesday evening at the city hall, at which time six clubs were represented.

The club also went on record by means of resolutions as a citizens' committee on candidates to name seven men for a citizens' ticket for city commissioners for the spring election.

This committee, which is to be made up from representatives from the various civic and commercial organizations of the city, is also to draft a platform on which the citizens' ticket is to stand.

W. L. Ames Brands This Locality as God's Own Country

"You may be mighty thankful, as we are, that you are in God's country," said W. L. Ames of Oregon, Wis., president of the National Farm Congress, when talking of the bountiful crops and the apparent prosperity of the middle west and Omaha in particular.

"I have just made a long trip throughout the south," he continued, "and I tell you the contrast is great. The people down there depend so entirely on their cotton crop, and now that they cannot market it, they are in actual want. People there are actually looking forward to hunger this winter. They like to stick to the cotton crop, but the day will come when they will have to go to raising a variety of crops."

Wilson and Roosevelt Agree on the principle of the Nebraska Workmen's Compensation Law

Father of New Jersey's compensation law—the first and most successful in the United States—on which this Nebraska law is patterned.

Endorsed also by La Follette, Bryan, Taft, Gompers, Mitchell and every "Big Man" of the day; Pledged by all National Party Platforms

Champion, as President of the United States and in the "Outlook," of Workmen's Compensation laws for every state in the Union.

"Workmen's compensation is a measure of humanity, right and justice. I hope to see the principle established in every state."—Woodrow Wilson.

"No injured man should be obliged to sue his employer for damages. The employer should be his best friend in time of disability—and workmen's compensation brings this about by providing automatic relief for every injury."—Theodore Roosevelt.

As showing that both organized labor and the owners of our mills and factories (the only ones affected) wish to accord the new system a fair trial, read these resolutions:

RESOLVED—That this convention urge the members of Trades Unions and friends of the wage earners to vote for the Workmen's Compensation Law of 1913 to the end that Nebraska may enact into law the principle of compensation, and be in the van of progressive states in eliminating a vast economic waste which falls wholly under the present system on the wage earner, the one who can least afford to carry the burden.

Recognizing the unfairness of the present Employer's Liability Law and the necessity for a system which will award fixed and prompt payments for all injuries to employes, without litigation or deduction of attorney's fees or court expenses, and believing further that such a system will tend to reduce the number of accidents in our mills and factories, be it RESOLVED, That this Association urges the voters of Nebraska to vote "YES" on the Workmen's Compensation Law at the General Election to be held November 3d. NEBRASKA MANUFACTURER'S ASS'N.

The Compensation Law does not apply to employers having less than five employees to householders, to farmers—nor to the employes of any of them.

Every voter—whether affected by the law or not—is urged to Vote "YES" on the Workmen's Compensation Law at the General Election, November 3d
