HUSKERS SHOULD PLAY HERE

Attendance at Games in Lincoln Has Always Been Poor.

WOULD BE FINANCIAL SUCCESS

Missouri and Kansas, Realizing Former Folly, Go Back to Kansas City to Play Annual Battles Starting This Year.

For some time Omahans who are interested in football and the University of Nebraska alumni in this city have been pondering as to why Nebraska should persist in holding all football games at Lincoln or at the campus of the opposing school.

Not since the Minnesota-Nebraska fray has a game been scheduled here. All of the big games have occurred at Lincoln. And every time the crowds at Lincoln have been worse than bad.

Would Draw Big. Football games of the calibre exhibited by Nebraska should draw far more than 5,000 or even 7,500. In Omaha there is absolutely no question but what a football game between Nebraska and Ames would draw 10,000 to 12,000 or even more.

Alumni to Pull for Game. Omaha alumni of the University of Nebraska are planning to exert their influence for a game here and they should have the backing and support of all Omahans.

CHRISTEN AUTO SPEEDWAY

Mayor Dahman Breaks Bottle of Champagne Over New Structure.

GOOD OMEN ATTENDS PROGRAM

Old Cent Piece is Found Near Where Two Men Toss Up Coin for Possession of Cork from Cherished Bottle.

A good luck "omen" marked the very first ceremony incident to the establishment of Omaha as one of the principal motor racing centers of this continent yesterday afternoon.

Mayor James C. Dahman had just smashed a bottle of rare wine upon the first stake driven into the 150-acre plot and had completed an address calculated to encourage the promoters of the Stadium and hearten Omahans, when a dozen persons scrambled forward to seize the cork from the shattered bottle.

TWO HOLD CORK

E. R. McLean, a representative of a Pittsburgh steel corporation, and a local newspaper reporter had hold of the cork. "Let's flip a coin for it," suggested the scribbler.

When the dollar came down, McLean won the souvenir, but close to the spot where the dollar hit, a tarnished old American 5-cent piece was found. The old coin had been unearthed by a workman's spade.

APPRECIATION OF PRIZES

The words were an appreciation of Jack Prince and Mory Bernstein, builders of the speedway and the motordrome. "This is going to be a bigger thing than the people of Omaha realize," prophesied the mayor.

HEALS NOT BY HYPNOTISM

Christian Science Cures by Other Means, Says C. C. Eaton.

SPEAKS AT LOCAL CHURCH

Visitor from Boston Calls Attention to the Mind Being in Control of the Body at All Times.

That Christian Science does not heal by hypnotic suggestion, was brought out forcibly in a lecture at the Christian Science church Sunday afternoon at 3 o'clock by Clarence C. Eaton of another church in Boston.

He emphasized the importance of right thinking and declared that "the changes wrought in consciousness, and which result in the healing of the sick according to the practice of Christian Science, are in no sense due to the use of hypnotism, or suggestive therapeutics. The dominion of a submissive mentality or consciousness by an imperative one, is recognized as a dangerous practice, the maximum of results therefrom being evil rather than good.

Right Thinking Important. Going further the speaker pointed out that the simplicity of the mode of healing wrought through spiritual means of the truth is fully appreciated when one realizes that thought is responsible for the appearance of disease. Jesus re-

garded evil thinking as the source of all disorders. He indicates in words which appear in two of the gospels—Matthew and Mark—that the defilement or contamination of the body was due to "evil thoughts," or the habit of wrong thinking. He thus taught that an exceedingly close intimacy exists between consciousness and its lower substratum—the body of embodiment. We might designate their relationship under normal conditions as that of master and servant. Following the teaching of Christian Science, and by educating consciousness in the way of righteousness and peace, many thousands have found to their great astonishment and joy that it is possible to obtain an improved mentality or consciousness which in turn exerts a corrective influence over the body. This experience has repeatedly operated advantageously to the body's recovery from discords, which seemed to appear wherever and whenever the normal relationship of consciousness and body—that of servant and master—was not well defined or understood.

EXPECT FALL OF TSING-TAU

Peking Telegram to London Says German Fort About to Succumb.

ATTACK BY LAND AND SEA

Japanese and British Warships Are Shelling Stronghold, While Land Forces Are Pressing Forward.

LONDON, Nov. 1.—A dispatch from Peking to the Exchange Telegraph company, dated Saturday night, says: "The fall of Tsing-Tau is expected momentarily. The allies expected to enter today, but were impeded by the bad weather. Bombardment continued strenuously all day, both from sea and land."

REPORT DEEPENED BATTLE

TOKIO, Nov. 1.—Official advices show that a desperate battle is being waged at Tsing-Tau. For miles the sea is red with the flames from the burning shipyards, gas reservoirs and houses that had been set afire by shells from the Japanese and British warships and land artillery, which are covering the rushes of infantry. The Germans, strongly entrenched, are resisting fiercely. Fort Itlis has been damaged.
