

DRAKE AND MISSOURI PLAY

Rest of Missouri Valley Teams Meet Minor Aggregations.

HUSKERS FACE MORNINGSIDES

With Craig Out of Game, Kansas Eleven Further Crippled for Its Clash with Washburn at Topeka Today.

KANSAS CITY, Mo., Nov. 6.—The University of Missouri and Drake university are the only Missouri valley conference teams that meet tomorrow. Most of the other members of the conference play minor games. Interest for followers of the valley sport therefore centers at Des Moines. The Missouri eleven has shown improvement during the last two weeks and is being pointed for the Kansas game on November 23. Drake, by virtue of a 7-0 tie with Washington university last Saturday, is regarded as being out of the race for the championship.

His heavier opponents on line backing Johnson made long runs, starting for Wesleyan and Washburn and Randolph played well for the Normal.

Lineup for Wesleyan vs. Normal game, listing players like Kearney, Wesleyan, and Normal.

Cotner Wins from Doane by 13 to 0 On Cotner Field

LINCOLN, Neb., 6.—(Special Telegram.)—Cotner university was defeated by Doane here this afternoon, 13 to 0, on Cotner field. Outweighed heavily, Cotner played desperately, but the weight was too great.

All of Doane's scoring was done in the second quarter. Marsh opened with a pretty field goal from the forty-yard line. Doane scored a touchdown when Medlar broke away on a delayed pass and ran fifteen yards. Marsh kicked goal. Marsh rounded out Doane's score to 13 by his second field goal during the quarter.

Dan Tipple May Hop to Federal Circuit

Dan Tipple, star hurler for the Bourke last year, is holding out on Jim McGill, owner of the Indianapolis club, for more salary. McGill declares he will not tender Tipple another such lucrative contract, but will cut his original one in case Dan offers to sign.

York and Beatrice Play Game to a Tie

YORK, Neb., Nov. 6.—(Special Telegram.)—York and Beatrice played to a tie score of 0 to 0 this afternoon. Cox and the entire team played a good game for York. They played Beatrice clear off their feet in entire game. Cox easily outplayed the Beatrice man, going forty-five yards each punt. Scamehorn's tackling was the best witnessed in this city.

Pa Rourke in Market For Several Players

Pa Rourke, owner of the Omaha club, is in the market for half a dozen athletes for next year's team. Pa is ready in need of pitchers and a couple of outfielders. Rourke may pick up a few players at the minor league convention here if he is offered some bargains, or he may wait until spring. However, Pa declares he intends to obtain real ball players next year and not uncertain quantities.

WESLEYAN DEFEATS KEARNEY NORMAL TEAM

KEARNEY, Neb., Nov. 6.—(Special Telegram.)—Wesleyan university defeated the Normal school team here this afternoon by the score of 6 to 7. Normal making its touchdown in the last few minutes of play. Forward passes were worked beautifully on several occasions by the Wesleyan aggregation. Kearney made some sensational gains, but was unable to go through the visitors' line, the greater part of its gains being made by end runs or forward passes. Normal fumbles in the first half and failure to tackle on long runs put Wesleyan twenty to the good before the Normal got on its feet. The Normal played better ball than the visitors, but was unable to hold

If you are smoking heavy cigars, you have probably noticed how much better your first cigar of the day tastes than the last. The reason is plain. One heavy cigar after another is bound to dull your keenest sense of taste.

RECUENSEN Wins

IOWA FALLS, Ia., Nov. 6.—(Special Telegram.)—The Recuensen high school team defeated the Nebraska Military academy team of Lincoln in a foot ball game here today by the score of 21 to 0.

Victory for McCook

MC-COOK, Neb., Nov. 6.—(Special Telegram.)—McCook high school scored its fifth consecutive victory in foot ball this afternoon by defeating Oxford by the conclusive score of 42 to 7.

OMAHA PACKERS FEEL FEEL FORCE OF CHICAGO CLOSE

maintaining cattle and prevent, if possible, their being contaminated. The state live stock commissioner said it would be unwise to remove the prize cattle before it had been definitely established that they were uninfected. The herd is valued at several million dollars.

Regarding the milk supply, Dr. O. E. Dyson, state veterinarian, said: "The supply of milk to the large cities may be curtailed, but not seriously. The ordinary precautions taken by municipal authorities in the regulation of milk will prevent any danger in the milk supply."

Four more prize winners at the recent dairy show were taken sick and isolated for observation. The international live stock exposition was called off. It was to be held the week of November 23.

Those with a liking for hunting were granted permission to shoot pigeons, which fly about the yards, attracted by scattered grain. At Sugar Grove, a hamlet near Aurora, Ill., farmers were reported shooting straggle dogs, cats and chickens, which, while they are immune to the disease, can easily carry it. Such measures have not been ordered by the sanitarians fighting the epidemic, but Dr. Dyson said that they were excellent precautions to take.

continued a suspected case exists at Como, Miss., where it is reported a herd owner himself has contracted the disease. The federal authorities are advising state officials to impose stringent quarantine against infected sections and even to prevent children from leaving the farms to attend school.

New Cases Discovered. Hope was expressed today, on receipt of reports of no new cases in Indiana and Michigan, that the epidemic there had been placed under control. On the other hand, new cases were found in Lancaster county, Pennsylvania, and in three more counties in Illinois.

The spread of the disease makes certain an increased cost of putting down the epidemic. It would not surprise officials if the cost would be nearer the \$200,000 expended by the German government to eradicate the disease from among its cattle, a few years ago, than the \$200,000 spent by the American government in fighting the 1908 outbreak of the disease. The expense of having inspectors trace the various shipments from infected centers will be very large. Ten new in-

spectors were rushed today to Wisconsin, Iowa and Massachusetts, each for duty in the respective states. Department officials have suggested to the promoters of the Royal Cattle show, to be held at Kansas City, Mo., this fall, that the event should be postponed.

Says Only One County Quarantined. DES MOINES, Ia., Nov. 6.—Dr. James I. Gibson, state veterinarian, declared today that the federal quarantine in Iowa would be only against the county in which Parnell is located and where foot and mouth disease was discovered in cattle shipped from Chicago.

packing plants will throw about 10,000 men out of work. The packers have a large quantity of dressed meat in storage, but after exhausting this reserve supply an increased price of meat is expected.

Not Affected. ST. LOUIS, Mo., Nov. 6.—The packing houses in St. Louis, Mo., will not be affected by the quarantine of the stock yards at East St. Louis, Ill., except in so far as they have been getting stock from these yards. The St. Louis houses will buy in western markets and continue running at usual.

Buy State Stops Shipments. BOSTON, Mass., Nov. 6.—An indefinite suspension of shipments of cattle in and out of Massachusetts was ordered today by Fred Walker, commissioner of animal industries, on account of the prevalence of foot and mouth disease.

Free Grazing Men Idle. EAST ST. LOUIS, Ill., Nov. 6.—There are enough cattle in the yards to keep the local packing houses running until Monday or Tuesday. After the stock now on hand is killed, the packing plants will close. The closing of the yards and

mouth disease has been discovered in a specimen in charge of the federal bureau of animal inspection, announced that a score of additional inspectors would be sent out to assist the fifteen previously assigned to the work.

It was estimated that New York City has about one week's supply of beef on hand. Increased prices were predicted unless western packing centers where the quarantine is not in effect come to the relief of the local market, which always has drawn largely from Chicago for its supply.

Colorado Puts Up Bars. DENVER, Nov. 6.—Governor Ammons late yesterday issued a proclamation quarantining any movement of cattle, sheep or swine from the territory east of the Missouri river and including all stock yards at Missouri river points into the state of Colorado, and further ordered that no cattle, sheep or swine be admitted into the state of Colorado for any purpose whatsoever.

Under the proclamation the State Board of Stock Inspection Commissioners is instructed to make such regulations in

regard to the movement and transportation of live stock as will insure the enforcement of the proclamation. The action is taken in view of the widespread epidemic of the hoof and mouth disease in central and eastern states.

Stop Shipment of Glass. PITTSBURGH, Nov. 6.—Many thousands of dollars' worth of manufactured glass is being held in Pittsburgh warehouses because of the quarantine imposed by the federal government against the foot and mouth disease. Glass is packed for shipment in hay or straw, and as these are included in the quarantine regulations, manufacturers are unable to pack glassware. Even window glass and plate glass are affected.

Jones & Baker, 20 South La Salle street, Chicago, have issued a complete detailed report and map on Nipissing Mines company, which they will be glad to send to investors free. The Want Ad Columns of The Bee Are Read Daily by People in Search of Advertised Opportunities.
