

PARKS NEED MORE MONEY

Dr. Stimson, Playground Expert, So Advises After Examination.

EXPERT HELP IS NEEDED

Unless Trees and Shrubbery Are Looked After by Graduate Foresters Physical Success Is Not Assured.

"More money."
This is the need of the Omaha park system, says Dr. Cyrus F. Stimson, field secretary of the Playground and Recreation Association of America, who has been employed to investigate and report "plans and needs."
"The most evident need, aside from large additions to funds for extension and completion of the park and boulevard system was projected," says Dr. Stimson, "is a need of supervision by trained workers of the recreation work of the parks and bathing centers."
Dr. Stimson praises Park Commissioner J. B. Hummel for the work he has done on "short funds," but continues:

Need Expert Foresters.
"The standard park systems, large or small, recognize that the trees and shrubs need the care of the expert in forestry and horticulture; the physical care of the parks requires also the expert to handle problems of drainage, grading, laying of walks and pavements; and quite as certainly the planning and care for the organization of recreation, the supervision of plays and games, installation and care of apparatus and supplies, cannot properly be left to park foremen and matrons and caretakers not trained for this work. To expect this work to be done by untrained persons is as absurd as to expect the janitor to fulfill the function of a teacher in our schools."

Need More Playgrounds.

"Further Dr. Stimson finds there is a glaring lack of 'inside playfields and neighborhood playgrounds, easily accessible to the children and youth of the city.'
"The need exists and every year will grow more insistent for conveniently accessible areas and facilities for recreation. Every year Omaha postpones provision for these facilities enormously adds to the ultimate cost."
Speaking of the neighborhood playground, Dr. Stimson says:
"The neighborhood playground for children of both sexes under 12 years of age in centers with a maximum radius of one-half mile, and for larger playfields for the older youth for such games as baseball, foot ball, track athletics, basket ball, volley ball, tennis and the like, with swimming pools, ultimately, and facilities for ice skating in winter on the flooded playfields, in centers with a maximum radius of a mile or more and a half, are the minimum requirements in city planning based upon unquestionable experience."

Funds Are Imperative.

In conclusion Dr. Stimson declares:
"Without large additions to the budget or the issue of bonds it will be impossible for Omaha to follow lines proved efficacious in other cities in very largely increasing the wholesome uses of priceless leisure hours for not only its children but for all the people, since normal folk require recreation, and under conditions of city life only community action and municipal policy can insure these recreation facilities at a minimum cost. This line of work cannot rest upon private groups, nor upon the efforts of individuals. It is as much a necessity of municipal administration as a water system, a sewer system or a fire department."

War Relief Gifts Are to Be Carried Free by Railroads

The Western Trunk Line association, including all roads west of Chicago, and co-operating with the Central and the Eastern Trunk Line associations, has issued instructions to agents and all other persons, notifying them that until further notice they will haul free of charge all contributions of foodstuffs and clothing destined for the war zone of Europe.
Notice of the action of the western roads has been received by C. T. Chisam, assistant general freight agent of the Great Western. The only condition relative to shipment is that goods to be sent shall be securely packed into boxes, or tied into bundles and marked "War Relief Donation."
From Omaha the contributions will be carried on any and all through freight trains to Chicago. There the articles will be made into car lots and sent east to be delivered at the Manhattan and New Jersey coast warehouses in the vicinity of New York. Agents everywhere are instructed to bill the shipments on account of charity.

Two Arrested While Robbing Boxcar Are Held and Bound Over

Following a desperate struggle H. C. Hubbard, a foreman in the Burlington yards, assisted by police officers, arrested George Smith, 119 Martha street, and William Robertson, 715 Leavenworth street, when the latter two men were discovered robbing a box car in the yards at Second and Pierce streets Thursday night. Robertson, who was armed with a knife, was knocked out by Police Sergeant Harry Roberts before he would submit to arrest. Both men were charged at police headquarters with breaking and entering, and in police court were bound over in the sum of \$750 each.

Women Suffer Terribly from Kidney Trouble.

Around on her feet all day—no wonder a woman has backache, headache, stiff swollen joints, weariness, poor sleep and kidney trouble. Foley Kidney Pills give quick relief for these troubles. For sale by all dealers everywhere. Advertisement.

DURUM WHEAT BRINGS MORE

Four More Cars Arrive and Price Still Goes Up.

WHEAT PRICES KEEPING UP

Corn Sells for Sixty-Eight Cents—The Durum is Bought by Milling Companies at Duluth.

Durum wheat continues to be one of the big features of the Omaha grain market and while not enough of the cereal is offered to supply the demand, it is expected that the quality will increase, as it is known that last season considerable was raised in Nebraska, Wyoming and South Dakota, as well as a limited amount in western Iowa.
Four cars of durum were offered on the Omaha exchange and it was quickly sold at \$1.12 1/2 per bushel, the high price of the year. The wheat was bought for Duluth, Minn., mills.
Omaha grain receipts were: Wheat, seventy-three cars; corn, twenty-five cars, and oats, twenty-five cars. Wheat sold between \$1.04 and \$1.07, and corn from 65 cents to 88 cents per bushel. Chicago was paying \$1.15 to \$1.16 for December and \$1.21 to \$1.22 for May wheat.

Manufacturers Use Adulterations to Satisfy Demands

Miss Helen Lee Davis, lead of the Domestic arts department of the University of Nebraska, spoke on "Adulteration of Textiles" at the extension course in domestic science that is being held at the St. Mary's Avenue Congregational church, Thursday afternoon.
Miss Davis said that manufacturers were not to blame for the adulteration of textiles, that they only supplied the demand of the great body of women. She said that manufacturers were forced to charge exorbitant prices for materials that were in scarce because of the special machinery required to produce new textiles and because women were such slaves to style that it was impossible to dispose of materials that were no longer in fashion.
"Women should be educated to demand only the best materials and to be willing to pay a reasonable price for them. In all cases the shopper gets materials in conformity with her standards."
Miss Davis said that it was almost impossible to obtain a good piece of silk because they were so heavily weighted. She said that was the reason that silks cracked so easily.

Mrs. Emma K. Davison of Lincoln, spoke on "The Care and Feeding of Children." She warned mothers against feeding children pastries and fried foods and told them to be sure that the food they gave their children was well-balanced as to food units, so that they would be properly developed.

PILES CURED IN 6 TO 14 DAYS.

Druggists refund money if Pazo Ointment fails to cure itching, blood, bleeding or protruding piles. First application gives relief. 50 cents.

Frederick H. Marode Denied Citizenship as a Law Violator

Because it was testified that he had sold liquor after hours in his saloon at Millard, Frederick Henry Marode was not allowed to become a citizen of the United States, after being questioned by a government examiner before District Judge A. L. Sutton Thursday. It was decided by the examiner and judge that Marode was not a law-abiding member of the community, and therefore not entitled to become naturalized under the law. His application for second naturalization papers was dismissed, with prejudice to a reapplication within five years.
Dr. William Henry Walker, who has lived and voted in Omaha for fifteen years, was among those admitted to full citizenship. He was born in Canada, and took out his first papers in the United States many years ago, without ever prosecuting his application for citizenship any further. Now he plans to go abroad and study within a year or two, so he thinks it wise to become a full-fledged American citizen.
"Why do you want to become a citizen of the United States?" Examiner Garnett asked Leib Graceman.
"Because every man in this country is a gentleman," the applicant declared. He was admitted to citizenship.

When You Need a Laxative

Whether for a Man, Woman, Child or Baby, or for an Expectant or Nursing Mother, **STEWART'S FRUIT VIGOR** will give you more satisfaction in absolute purity, pleasant taste, natural action, and freedom from ill-effects than any physic, pill or mineral water. Moreover, its tonical, corrective and upbuilding power is as great as its laxative value. A high grade preparation, positively without an equal.
