Labor Would Have Compensation Acts Handled by States

PHILADELPHIA, Nov. 16.—The American Federation of Labor today adopted a number of resolutions with regard to workmen's compensation laws. The federation went on record as favoring a minimum of 66 2/3 per cent of wages as the rate to be protected to relatives of workmen who have been killed at their employment. It also declared that compensation should be paid to a widow during the widowhood and to children under 15 years of age; that workmen's compensation laws should be administered by state commissions, and that employers' liability insurance companies be eliminated from the scheme of workmen's compensation.

The federation urged that efforts be made by its membership to have state laws amended that employers can no longer be self insured, thus doing away with physical examination of applicants for work by the various kinds of insurance concerns in which employers insure. The action of the convention with regard to physical examination was taken to cover a resolution introduced by a delegate from Schenectady, N. Y., which stated that employers in New York state are taking advantage of physical examinations of applicants for work to discriminate against trade unionists. The resolutions committee made it plain that its recommendations against physical examination in connection with workmen's compensation did not apply to the usual physical tests required in hazardous occupations.

October Imports Show an Increase

WASHINGTON, Nov. 16.—Complete returns of October trade announced today by the Department of Commerce indicate a continuation of the improvement in general conditions. OFFICER IS LIKELY TO DIE

Lincoln Policeman Shot by Footpads May Not Recover.

LITTLE GIRL FURNISHES CLUE

Two Suspects Arrested When Child Tells Story Implicating Them—Brown Now Lincoln's New Postmaster.

(From a Staff Correspondent.) LINCOLN, Neb., Nov. 16.—(Special)—There is little hope for the recovery of Police Officer Frank A. Rock, shot by burglars last night just after the latter had robbed a Lincoln grocery store in the residence portion of the city. He was operated upon by physicians this morning and seven bullet holes in his intestines sewed up. Rock's parents live at Pawnee City and his father J. P. Rock, was at once notified of his son's condition.

Officer E. C. Hanning, also shot by the burglars, is suffering great pain from a bullet wound through the lower part of the body.

One Inesperado Wounded. Officer Hanning believes that he wounded one of the burglars, as in the interchange of shots he fired point blank at the man who shot him, and bloody footprints leading from the scene confirm the belief of the officer that one of the burglars must be wounded.

Little Girl's Accusation. Six persons were brought to the police station in connection with the shooting. Harry Ward, who was later let go as it was believed he had no connection with the shooting; Tom Carr, a man who gave his name as Conan, and two women said to be the wives of the two men. A little girl, daughter of one of the women, was prevailed upon to tell of the shooting and she did so, implicating Carr and Conan, but was unable to tell which one of them shot the officers as she thought was so rapid she was confused. She exonerated Ward from any part in the shooting.

Further than this the police are unable to go, but efforts are being made to gather in others who might have been connected with the gang.

Farmers have been busy the last month hauling their corn crop and the quality will be fair and yield from twenty-five to forty bushels. Stock feeders in this locality are feeding 20,000 sheep this winter, which, together with a number of yards of cattle, will make a good market for the large crop of alfalfa hay raised here. About 10,000 corn was raised to supply the local demand and none will be shipped out.

ERUPTION ON BABY ITCHED AND BURNED

Something Terrible, Whole Body Affected, Almost Impossible to Sleep, Disfigured Face, Cuticura Soap and Ointment Healed.

Silverwood, Mich.—"My baby was about six months old when he first began to break out with little pimples on his head and face. Then they would run water and keep getting worse until his head was a regular sore eruption and water would run and stream from it and his face also. His whole body was affected. They were little white pimples which itched and burned something terrible. His clothing seemed to irritate him and it was almost impossible for him to sleep at night. They also disfigured him as they were on his face.

"We tried medicine but without success. The trouble must have lasted three or four weeks when I thought I would try the Cuticura Soap and Ointment. I would bathe him with warm water as warm as he could stand and Cuticura Soap, then apply the Cuticura Ointment. The very first time that I did this it seemed to relieve him as he slept well and inside of two weeks he was completely healed. He is fifteen months old now and never has had any more trouble." (Signed) Mrs. L. White, Jan. 29, 1914.

Samples Free by Mail. A single cake of Cuticura Soap (25c.) and box of Cuticura Ointment (50c.) are often sufficient when all else has failed. Sold throughout the world. Sample of each now and never has had any more trouble. Address post-card "Cuticura, Dept. T, Boston."

MORRISSEY REED'S DEPUTY

Attorney General-Elect Appoints Morehead's Secretary.

GOVERNOR'S PLURALITY 19,197

Head of Progressive Ticket Does Not Reach Ten Per Cent of Democratic Vote on Chief Executive in Election.

(From a Staff Correspondent.) LINCOLN, Nov. 16.—(Special Telegram)—Andrew M. Morrissey today announced that he had accepted the offer of Attorney General-elect Willis E. Reed to be his deputy for the next two years. It was also announced that Mr. Reed would retain the present deputy, George Ayres, for a while and that Miss Josephine Murphy, who has been in the office several years, would also be retained, possibly permanently, as she is an expert in the line of work she has been doing.

State Treasurer-elect George Hall also gave out that he would retain Bookkeeper W. B. Dooz and also two others of the present office force in the treasurer's office, at least until after the legislature adjourns.

Nineteen Thousand Plurality. All counties have reported on the vote at the last election and as soon as totaled up will be available for publication. However, the vote on governor on the two leading candidates shows that Governor Morehead received 19,197 votes more than Mr. Howell, the vote standing: Morehead, 132,296; Howell, 101,109. Sackett's total vote on the progressive ticket was 9,955. Porter, socialist candidate for governor, received a total of 5,742 votes, and Wilson, the prohibitionist, received 2,771 votes in the state.

Vote on Suffrage. The suffrage amendment lost out by 10,558, the vote standing: For suffrage, 30,281; against, 19,723. This vote indicates that 63,109 voters did not express any preference, the total vote being 266,215. A few counties did not report the total vote cast and the above figures are based on the vote on governor in those counties.

What They Are Out on Race. Candidates who spent money to get elected to office still continue to send in

their statements, among the most important being the following: Frank J. Taylor, democratic candidate for congress in the Sixth district, spent \$15, W. T. Willis, candidate for attorney general on the bull moose ticket, spent \$9,38; P. M. Whitehead, democratic candidate for state superintendent, spent \$22,50; and W. L. Minor, republican candidate for auditor, spent \$64. All of the above are in the "also ran" class.

Poles Complain Germans Are Using Them as a Shield

LONDON, Nov. 16.—A Times dispatch from Copenhagen says: "Advices from Posen indicate that there is much disaffection among the Poles in the eastern provinces of Ger-

many. The Poles complain that the Germans are neglecting the frontier because most of the inhabitants are Slavs. They declare that the Germans themselves are laying the frontier to waste in order to delay the Russians. They protest that Poles are put in the front of the battle line as cannon fodder. The Germans, on the other hand, accuse the Poles of helping the Russians by espionage. "The Germans are concentrating great armies at Thorn and Posen and plan to fight desperately the Russian occupation of important parts of Posen and Poland. Only the utmost need will persuade the Germans to send many troops back to the western front at present."
