

WILSON TALKS TO TRADE UNIONISTS

Cabinet Member Makes Address to American Federation of Labor Convention.

WORK OF HIS DEPARTMENT

Says It Has Handled Scores of Trade Disputes and Settled All but Three—Two Questions of Jurisdiction Decided.

PHILADELPHIA, Nov. 20.—"There can be no permanent industrial peace that is not based on industrial justice," declared William B. Wilson, secretary of the Federal Department of Labor, today to the delegates of the American Federation of Labor.

Introduced to the convention by President Gompers as "our Bill" and addressing the delegates as "fellow trade unionists," Secretary Wilson said that he had been criticized for certain statements he had made at the federation's convention at Seattle last year, and declared that he reaffirmed what he said there.

The secretary said he also had been accused of partisanship in conducting his department. "If securing justice to those who earn their living by the sweat of their face is partisanship," he exclaimed, "then count me a partisan on the side of the man that labors."

Mr. Wilson in telling of the work of his department said that the last year and a half it had handled scores of trade disputes, and that they have been settled with the exception of a Pere Marquette strike and the strikes at Calumet and in Colorado. The department, he added, takes the stand that the employer and the employe have mutual interest in creating a greater amount of production with a given amount of labor. They differ only as to the share that should go to each and under the method it should be produced. When the employer and the employe reach this stage, he said,

then it is the proper thing to sit down and solve the problem.

Question of Jurisdiction.
Jurisdictional disputes again held the attention of the delegates today. The controversy between the blacksmiths' union and the tunnel and subway contractors' organization over the question whether tool dressers should come under the jurisdiction of the blacksmiths or the subway contractors was decided in favor of the blacksmiths.

The jurisdictional fight between the electrical workers and the theatrical stage employes' union over the control of moving picture operators, was won by the stage employes.

Schmitz Will Run for Mayor Again

SAN FRANCISCO, Nov. 20.—Former Mayor Eugene E. Schmitz, central figure with Abraham Ruef in a series of graft prosecutions following the earthquake and fire of 1906, is homeward bound from New York with the definite intention of entering upon an active campaign for election as mayor next year. This announcement was made today by a brother of Schmitz, who said the former mayor would "seek vindication" at the polls.

"My brother is an innocent man suffering under a great burden," said Herbert Schmitz, adding that the former mayor had been victimized by Ruef, who conducted grafting operations without his knowledge.

Twenty-seven indictments found against Schmitz after he was thrown out of office have since been dismissed.

Hack! Hack! Hack!
With raw tickling throat, tight chest, sore lungs, you need Foley's Honey and Tar Compound, and quickly. The first dose helps, it gives a soothing, healing coating as it glides down your throat, you feel better at once. S. Martin, Bassett, Neb., writes: "I had a severe cough and cold and was almost past going. I got a bottle of Foley's Honey and Tar and am glad to say it cured my cough entirely and my cold soon disappeared. Every user a friend. For sale by all dealers everywhere.—Advertisement."

Berg's Clothing Co.

Be Sure You GET Pure Milk

Many epidemics of disease in cities are daily being traced to the milk supply. Germs thrive in milk. They thrive in milk that has been pasteurized as well as in unpasteurized milk.

Chicago Health Bulletin No. 8 says that ten cases of typhoid fever were traced to one milk-wagon driver who stayed at work after he felt sick. This driver wiped the top of each milk bottle with a piece of cheesecloth and so spread the disease.

It's not enough to have milk start pure for your kitchen. For you to be protected it must be pure when it reaches you.

Pasteurization of milk on the dairy farm is good so far as it goes, but all dangers in milk are not overcome by that process. There are still the exposures to contamination in bottling, handling and delivering the milk.

Your surest protection from the dangers of impure milk lies in

Cottage Milk is perfectly sterilized, and delivered to you in germ-proof packages. It isn't exposed from the time it is packed under the most sanitary conditions until you open it in your own kitchen.

And it is as good in every way and for every purpose as bottle milk. It has more than twice the food value of bottle milk. Cottage Milk is the richest milk from the best dairying regions of the country, with nothing added and with nothing taken out except water.

It is more economical, more convenient and more uniform than raw milk, as well as more sanitary. Cottage Milk solves every problem connected with milk supply. Get some today and see how superior it is.

The Milk Without the Cooked Taste In Two Sizes—5 and 10 Cents At All Good Dealers
