HEARD a good story the other day which is very much apropos to all this talk of cotton going about.

The place was a celebrated cotton affair held in Washington and sponsored by Mrs. Clarke and daughter, Genevieve, where everybody was wearing a cotton dress, and the chatter highly recommended the advantages of this homey product. Everyone insisted that cotton was just the prettiest fabric ever, and always made just the sweetest sort of a gown imaginable, don't you know. (You know the lingo.)

This was too much for a certain solon's wife, who suddenly ducked and, too flabbergasted for words, tore madly to her modiste, who was in the midst of fitting her out in a winter wardrobe of silks and imported materials, with not a trace of cotton in them, and countermanded her entire order.

But why go to Washington for cotton talk when we are in the midst of a young cotton industry here? Dr. Liggett and his son, Mr. Guy Liggett, have twenty cotton plants which they planted last spring in their garden, and now any number of the bulbs have blossomed. This is one of the prettiest sights Omaha has seen in some time.

CHICAGOAN TO ADDRESS AD CLUB NEXT TUESDAY

A Chicago advertising man is to be in Omaha Tuesday evening to talk to the Omaha Ad club on street car and bill

board advertising. The occasion is to be the monthly dinner of the Ad club at 6:15. The talk is to begin at 7:15. On these occasions some member of the Ad club acts as chairman, handles the arrangements for the speaker to suit himself and gets who he pleases and on what

subject appeals to him. Robert Manley is to be the chairman of this meeting, and it is Manley who has selected the Chicagoan man to give the talk.

method that Omaha people have for getting in instant touch with such opportunities.

Everybody reads Bee Want Ads

Thomas A. Edison

When Edison says: "I have found what I have been looking for since 1877," will you take the trouble to find out what it is? The things Edison spends 37 years hunting for are worth knowing about. The

NEW EDISON DIAMOND DISC

is an entirely new sound-reproducing instrument that reproduces music just as it sounded when the music was recorded. The machine tone has been entirely eliminated.

You Should Hear this New Edison Invention

If Edison can afford to devote 37 years making—you can afford to spend 15 minutes' time listening to the greatest instrument the world has ever known.

There is only one place in Omaha where you can hear and get the real tone producing qualities of the new Edison. A place where you are courteously treated. Come soon as you can—stay as long as you wish.
