The New Baby is World's Wonder Knights of Pythias Hold Annual

Every tiny infant makes life's perspective wider and brighter. And what-ever there is to enhance its arrival and to ease and comfort the expectant mother should be given attention. Among the real helpful things is an external abdominal application known as "Mother's Friend." There is scarcely a community out what has its enthusiastic admirer of this splendid embrocation. It is so well thought of by women who know that most drug stores throughout the United States carry "Mother's Friend" as one of their staple and reliable remedies. It is applied to the abdominal muscles to relieve the

strain on ligaments and tendons, Those who have used it refer to the ease and comfort experienced during the period of expectancy; they particularly refer to the absence of nausea, often so prevalent as a result of the hatural expansion. In a little book are described expansion. In a little book are described more fully the many reasons why "Mother's Friend" has been a friend indeed to women with timely bints, suggestions and helps for ready reference. It should be in all homes. "Mother's Friend" may be had of almost any druggist, but if you fail to find it write us direct and also write for book to Bendfield Regulator Co., 403 Lamar Bidg., Atlanta, Ga.

Receding Gums From Microbes and Acids

So much of beauty and health depends upon the condition of your teeth that their care and preservation should be a matter of great concern to you. The mouth is the gateway of nutrition. It should be clean. WONDERFULLY POPULAR CAR

THE HUDSON Light Six-40 Convertible Roadster—or Cabriolet—was introduced during the season of 1914. Its instant popularity proved that it satisfyingly filled a public demand. The combination of a coupe with the open roadster at once caught the fancy of motorists. In the 1915 model—as was to be expected—the Hudson engineers have found ways to improve even the remarkably perfect 1914 model. The new "staggered" seating arrangement provides wonderfully luxurious and convenient seating capacity for three. The driver's seat is excellently placed. It furnishes a very easy and comfortable driving position. Yet it does not in any way obstruct the seats for the other occupants.

> This attractive model has many other desirable features. Come in, see them and let us tell you about them.
