

GRAIN AND PRODUCE MARKET

Holdings of December Wheat Are Believed to Be Concentrated. GRAINS ARE SOMEWHAT HIGHER. Wheat makes advances from one to two cents, corn to one-half cent higher and oats one-quarter up.

While the open interest in December wheat is not believed to be large, the holdings are concentrated. This fact means a great deal, in addition to the concentration of the future, the holders of December are also holders of the cash article. It is suggested by some that much more wheat will be sold in this month. It is also expected that in case of a sensational market in December wheat there will be a likelihood of the May future trading on and advancing also. There was no lot up in the cash business on export account. Receipts at the port amounted to 670,000 bushels, and all of this is to be shipped. In addition to these shipments there were other sales in the southwest. A round lot of flour sold for export at Minneapolis, and there were reports of flour at Chicago yesterday at advanced prices.

Advances were shown of 1/4c in the cash market yesterday and rising spots were shown at the best prices of the season.

Oats ruled heavy at the opening, but advanced late and closed 1/4c higher. The selling in the May came largely from hedge, and the cash closed 1/4c higher. Cash sales there were 200,000 bushels for export.

Wheat was the best buyers of our products yesterday and their purchases were mainly of ribs and hard. There was further selling by the packers and buyers, and was considerable realizing by local loans, which was led by John and Charles Roberts, Cash, Trade and Merchants Bank, rather slow.

Corn was unchanged to 1/2c higher. Oats were 1/4c higher. Wheat and four sold at 74.00 bushels; corn, 77.00 bushels; oats, 28.00 bushels. Liverpool closed nominal; wheat, 3d higher; corn 4d higher.

NEW YORK STOCK MARKET

Issues Move Contrarily, Bonds Evincing Greater Heaviness. ROCK ISLAND SHARES BETTER. Committee in Charge of Exchange Says Plans to Resume Open Dealings Not Gone Beyond Tentative Stage.

NEW YORK, Dec. 5.—Bonds and stocks moved contrarily today, the former evincing greater heaviness, while the latter stock prices were buoyant after the close of the session indicated a firmer tendency. The only pronounced exception to the general rule was the case of the Rock Island, which rose from 1 to 1 1/2 points, the latter measure being the main in the market.

Locking in bonds, while relatively larger in volume than in the two preceding days, involved a smaller number of the issues, many of the speculative stock buyers being in evidence. There were many lots of more than moderate size and the average transaction was in two to five bonds.

And asked prices of stocks indicated not only a rising tendency, but a broader inquiry; more stocks being added to the already formidable list. Today's business in stocks, while not discussed, was reported to have increased for the two hours over the same period of the early days of the week.

Contrary to the opinion of the special committee in charge of the stock exchange, it was reported that plans to effect a resumption of open trading in the market had not yet gone beyond the tentative stage. Pending more definite developments, which may be made in the near future, the attitude of the London exchange, there will be no departure from existing restrictions.

The only feature to foreign exchange was the increased strength of Reichsmark, which has advanced to 89.75, the highest point since the outbreak of the war and the first comprehensive report of its kind since the new federal reserve system became operative. Actual cash loss of \$10,750,000 was much less than the \$10,000,000 while the loan expansion of about \$10,000,000 were ascribed to various syndicate operations.

Actual quotations of bonds today were as follows: U. S. 4 1/2 per cent, 99 1/2; U. S. 4 per cent, 99; U. S. 3 1/2 per cent, 98 1/2; U. S. 3 per cent, 98; U. S. 2 1/2 per cent, 97 1/2; U.
