OMAHA. Dec. 30, 1914.

December deliveries yesterday were 29,000 but of wheat and 100,000 but of corn. Traders who were builtsh last night called attention to the action of the wheat market and said the break of more than four cents from the high point and the reappearance of export buying showed the temper of the export trade on all good declines. They regard the supply and demand situation as becoming more favorable to wheat. Corn built said when December is out of the way they expect cash corn will work nearer the May. The big discount of December under May cuts no figure among those who regard the corn as sedling at too wide a discount under wheat. They say that if the country is wise it will hold its corn back until the consumption trade increases and stocks are cut down.

Demand for ocean room for oats from Atlantic ports to France is active with 14½c per busbel paid. Vessel agents are asking about 15½c per busbel. Room to the United Kingdom was taken at 14½ cents. Eight steamers arrived at Galveston yesterday to load wheat. As yet the British government has released very few of the vessels used as army transports.

Smallest Amount of Business for Full Session for Many Years.

MOVEMENT NARROW

Total Sales Come to Barely Fifty Thousand Shares and This Small Output Largely Limited to Favorites.

NEW YURK, Dec. 20.—Operations on the stock exchange today were marked by the smallest amount of business for a full assaion since February of 1888. Total sales amounted to barsly 50,000 shares and this small output was largely limited to about a score of so-called favorites, the more obscure issues being almost completely neglected.

The movement was narrow throughout with a lowering trend, leaders yielding as much as a point at the outset, but making general recoveries on settlement of short contracts. The list drifted aimlessly to an apathetic but firm close.

Of all the important atocks 2t. Paul failed to regain its decline, the weakness being associated with rumors of an impending bond or note issue. These same rumors applied to other railroads as well as industrial companies whose pressing financial requiremnts were matters of general knowledge.

dividend.

A slight advance in the prices of certein finished products was halled as an indication of betterment in the steel trade. On the other hand, there were no signs that the railroads were likely to buy beyond their pressing needs. Other lines of business showed further indications of recovery, chiefly as a result of war contracts.

The local bond market was fregula, with renewed weakness in low grade issues. Total saies, par value, aggregated \$1.60,000.

NEW YORK, Dec. 30.—COFFEE—A further decline of 11-16d in the rate of Rio exchange on London and continued talk of an easier coat and freight situation seemed responsible for some further liquidation in the coffee market today, but after opening at a decline of 3 to 1 points the market steaded on covering or trade buying, and closed net unchanged to 6 points lower. CHICAGO, Dec. 30.—Uneasiness in resard to the export outlook carried wheat values to a lower level. The market closed nervous at 7sc to 1% net decline. Corn finished %c to 1% one decline. Corn finished %c to 1% ones as unchanged to %c off. In provisions, the outcome was the same as last night to a setback of 7%c.

Bearish foeling as to wheat hinged to a considerable extent on cables felling of a special meeting of British high officials this afternoon to consider the note from Washington about interference with neutral commerce. The absence of any sign that the American protest would bring about a material change of British policy had a disuleting effect on holders, and was also taken advantage of by short mellers. At least one prominent export house here became conspicuously active on the bear side. It was said foreign demand had again to a large extent flattened out, partly because of vague peace rumors.

Smallness of farm reserves, especially in the Dakotas and Minnesota, exercised for a time something of a steadying influence on the wheat market, but the effect wore off.

Corn gave way with wheat. Merchandlaing conditions were unsatisfactory, domestic as well as fereign call being slow. Gossip that European governments were bidding for round lots of oats put temporary firmness into that cereal. No ilberai sales, however, were

Lower prices for hogs weakened provisions. The bulk of the business was in the May deliveries.
