Report of Committee Fixing April 6 as Date Rejected by Nearly Unanimous Vote.

SCHOOL FOR DEAF BILL IS OUT

(From a Staff Correspondent.) LINCOLN, Neb., March 23.—(Special Telegram.)—When the committee on adjournment reported this morning in the senate a discussion was started, led by Senator Kohl, against adjournment as early as April 6, resulting in the report being voted down, almost unanimously.

Sandall, Busbee and Howell joined with Kohl against such early adjournment when the appropriation bills had not all been sent over from the house, Howell charging that it was a scheme on the part of the house to shift responsibility from the house to the senate.

BLAIR COMPANY INSPECTED BY LIEUTENANT STOWE

BLAIR, Neb., March 23.—(Special.)—First Lieutenant W. C. Stowe of the regular army came up from Lincoln yesterday and last night held a special inspection of Company F, Fourth Infantry Nebraska National Guard at the armory quarters. Upon the result of this inspection depends the transfer of the Blair company from infantry to a cavalry troop. The officers and members of the company have been working hard to have this change made and are receiving the support of the Commercial club and the citizens in general. Today all equipment of the company will be checked up and Lieutenant Stowe is making full inquiries regarding the obtaining of horses, the prospect of the building of substantial armory quarters and a vigorous examination of the entire membership of the company. Private parties have had plans prepared for the erection of an armory building to cost not less than \$10,000, and the site for the building is a prominent corner one block from the passenger depot. The plans have been approved by the state and government authorities and the government will guarantee the leasing of the building for ten years. The present company has about 100 enlisted members, with Fred Abbott, captain; Reed O'Hanlon, first lieutenant, and Paul Kelley, second lieutenant.

YORK WANTS NINETY-EIGHT-GAME SCHEDULE

BEATRICE, Neb., March 23.—(Special.)—York refuses to enter the Nebraska State Base Ball league unless a ninety-eight-game schedule is arranged. President Miles Monday night telephoned to the directors of the Beatrice team to get their opinion and they stated they were opposed to such a deal. It is understood Fairbury does not favor such a move. A meeting has been called at Grand Island for next Thursday night, at which the question will be disposed of one way or another by the representatives of the various clubs in the league.

The Culbertson irrigation district claims the water by virtue of prior filing right. The array of legal talent presages a stiff fight in the court.

Why Not?

If the jail feeding graft is such a good thing why not extend it? Why should our sheriff be alone favored with the privilege of collecting 40 cents a day for feeding prisoners in his charge and putting more than half of the money down in his jeans, in addition to his \$4,000 salary and perquisites? Why not give the superintendent of the county hospital 40 cents a day for each inmate and let him line his pockets? Why not give the head of the Riverview home 40 cents a day for each of the hungry children there, so he can get rich quick, too? Why not give the chief of police of Omaha 40 cents a day for each prisoner in the city jail now being fed at the rate of 9 cents a meal? Why not? P. S.—Why do not the other Omaha newspapers join The Bee to help head off this outrageous steal with which the sheriff and his hired lobbyist are threatening our taxpayers?

SCHOOL CODE BILL TRIMMED

Huge Document Cut to Provide Merely for Rural High Schools.

EVEN REMNANT MAY NOT PASS

(From a Staff Correspondent.) LINCOLN, March 23.—(Special.)—S. P. 107, the bulky school law code revision of the senate standing committee this afternoon, but in such shape that its dearest friends would fail to recognize. Just three pages are left out of the 100 odd that composed the original measure. These three pages provide for the maintenance and establishment of rural high schools. All the rest of the commission's strenuous labors, covering two years, go into the discard.

With 107 came out S. P. 108, a companion bill, providing for vocational training in high schools. Chances that even this remnant will pass are extremely slim at this late hour.

Free-flowing power

Not mere BRUTE power—power just for power's sake. That's a simple thing for any engineer to build into any car merely by using a heavier motor with bigger cylinders. And incidentally, it's a costly thing because it burns up gasoline for power that you never need.

But free-flowing power that's fitted to the weight of the car with the scientific accuracy that gears are designed to mesh—power enough for all your needs, to take you uphill and down, thro' mud and sand and over any roads you'll ever travel—WITHOUT running up your fuel bills—that's what you get in this Studebaker FOUR.

And when you come to study the motor you'll find little improvements in design, better balance of moving parts, weight cut from here and there and scores of other refinements that make it one of the most wonderful pieces of engineering you ever laid eyes on.

But the best test is to ride back of it and we'll be delighted to demonstrate the car at any time—to have you study not only the motor but the balance of this FOUR that makes for EASY-riding and EASY-driving and, more important, LOW UPKEEP, the grace of design and elegance of finish, and all the comfort and the little conveniences that you get in this car at \$985
