HOGS—Another generous run showed up this morning, about 25 cars, or 15,400 head, comprising the day's supply. The total for the first half of the week is something like Si,156 head, being over 7,500 smaller than last week, but about 1,500 inreer than for the corresponding period of last year.

Advices from other points were anything but encouraging, and both packers and shippers' early offers were very bearted being made at figures that were fully a dime lower than yesterday. As the shipping hogs are selling at so much of a premium over the killers, outside buyers had no trouble in buying all the hogs they wanted at the decline named, in fact some of the sales were made after the first rounds were quoted as more than a dime lower. Most of the shipping sales were at 8,5006.00, with a sprinkling as high as 36.56. One piece of a load reached 26.70, the day's highest figure.

was late before anything like a clear-was made, but in the end the big of the offerinas soid at figures that about a dime lower. Shipping pur-ta were not so heavy this morning, for that reason prices averaged more a dime lower. On the other hand-ers drows did not show quite the lacking on paper, but it was the gen-opinion that their droves today were ther quality than was the case yeswith of the utiling hope soid at \$6.650 to AB was stated above the most the shippeys went at \$6.5005.00, with a as bigh at \$6.65.

"The run was light, estimated and hand, essentiating for the of lambs. There were only twones of agod shoop in eale at-

responsible for the better feeling in the general market.

There was more shipping demand than in several days and more offerings changed hands on feeding and shearing account. Lambs that sold to feed and to shoor ranged at \$5.5000.20. The clearance was seasonable.
