

BRITISH SUBSEA BOAT E-15 LOST

Submarine While on Scout Work in Straits Goes Aground and 24 Men Captured.

SEVEN OF CREW ARE MISSING

LONDON, April 19.—The British, as an offset to their success in destroying a Turkish torpedo boat which attacked the transport Manitou off Chios yesterday, lost the submarine E-15, which, while carrying on scouting work in the Dardanelles mine field, ran aground on Kephez point, twenty-four officers and men being made prisoners. According to the Turkish report, seven of the crew are missing.

An official statement from the British admiralty issued late last night gives the substance of a further report concerning the loss of life aboard the Manitou.

Transport Not Harmed. The report shows that twenty-four men were drowned, instead of 100 as at first reported, and that twenty-seven others are missing. The transport itself was not damaged.

The loss of life was due to the capsizing of one boat in the water and another while being lowered, owing to the breaking of a davit.

In Egypt British airmen have been dropping bombs on the Turkish encampment near the border, while a French cruiser, the fire of which was directed by a seaplane, has been throwing shells on the Turks near El Arish, where the army for the invasion of Egypt has its headquarters.

Majestic Driven Back. CONSTANTINOPLE, April 18.—(Via Wireless to Berlin and London.)—The following Turkish official statement regarding recent operations at the Dardanelles was given out here tonight: "On the afternoon of April 14 the English battleship Majestic bombarded a land position near Gaba Tepeh, on Saros bay. The fire was returned and the Majestic was forced to retire.

"On the following afternoon the Majestic attacked our advanced batteries, but was struck three times. The warship retired and was replaced by the British battleship Swiftsure, which continued the bombardment without result.

Are Easily Repulsed. "On the nights between the 13th and 15th of April enemy torpedo boats tried to penetrate the Dardanelles. They were easily repulsed. German aviators dropped bombs, which struck and exploded on an enemy coal steamer.

Main headquarters reported that yesterday an enemy hydro-aeroplane was damaged by Turkish fire and fell into the sea. A second hydro-aeroplane attempted to save it and it was sunk by our fire.

"An English armored cruiser, which lugged away the damaged machine, was struck by our shells. The cruiser, with the hydro-aeroplane, withdrew."

Planes Drop Bombs. CAIRO (Via London), April 18.—The following official communication was issued today: "On the 13th three aeroplanes made a flight from the canal to El Sirr, some twenty-five miles south of El Arish, dropping bombs, which were effective. From 100 to 200 tents were seen. The distance flown was more than 170 miles.

"No other enemy troops were seen this side of El Sirr, though one or two small posts of about twenty men are known to exist.

Bombard Camp. "On the same date a French cruiser bombarded a camp near El Arish, a seaplane directing the fire. No large number of troops were seen, though enemy guns opened fire both on the cruiser and the seaplane. Neither was hit, however.

"On the 15th a French cruiser, again assisted by a seaplane, bombarded the enemy's camp well to the south of Gazaeh (some forty miles southwest of Jerusalem). Considerable damage was done."

Making Good Work Possible.

As long as one is on his feet, he can work after a fashion, no matter how badly he feels. But you cannot do good work—have ambition and energy, feel that life is worth living—with slushy bowels or torpid liver. Foley Cathartic Tablets do away with that drowsy, dull, tired feeling. They never gripe or cause nausea. They're wholesome, cleansing and beautiful. Most satisfactory for stout persons. Sold everywhere.—Advertisement.

CROP STATUS FLATTERING

Burlington's Weekly Report Shows West Far Ahead of the Normal Condition.

MORE ACRES OF SUGAR BEETS

The Burlington's weekly crop and soil report, taking into consideration conditions up to last Saturday, indicates a most flattering outlook for Nebraska, Kansas and Wyoming, according to General Superintendent Young, who has secured the data.

While the rainfall last week was light, the weather was warm and vegetation was pushed forward at a rapid pace, being at this time fully up to, if not ahead of the normal.

Estimating the condition of winter wheat at a percentage of 100 for ten years, Superintendent Young places the condition at this time at: Omaha division, 101 per cent. Lincoln division, 102 per cent. Winmore division, 102 per cent. McCook division, 107 per cent.

Spring wheat, oats and other grains are about all in, with an acreage fully up to that of previous years.

With the ground in the best possible condition, plowing for corn and potatoes has been pushed and is pretty well along. In the sugar beet growing districts, while no seed has been planted, it is estimated that the increased acreage will be 15 per cent over last year.

FORTY-EIGHT WAGONS START AFTER RUBBISH

The city street maintenance department started forty-eight wagons out over eighteen districts of the city, with instructions to gather up all heaps of refuse which citizens have placed in front and rear of their places.

Many requests have been received at the city hall. An effort is being made to cover the entire city. Each district has a foreman, who will be held responsible for his assignment.

WORK BEING PUSHED ON LOCUST STREET VIADUCT

The Missouri Pacific has increased its forces and has put a large number of men at work on the construction of the Locust street viaduct, over the railroad and street car tracks. The information is given out that the work will be pushed and that the viaduct will be completed by July 1.

Work on the Thirty-first avenue viaduct is moving along rapidly and within thirty days it will be open to traffic. At this point the Missouri Pacific is elevating its tracks, thus leaving Thirty-first avenue at grade. The railroad tracks are carried over the street on a steel viaduct that rests upon solid rock wings at either end.
