MYERS-DILLON GET

Clearance Sale of \$75,000 Stock to Commence on Saturday, May 1.

Here, indeed, is the most startling drug store news of a genera-

The Meyers-Dillon Drug Co., at 16th and Farnam streets, has received notice to vacate the building July 2d.

And, without the "Myers-Dil-lon" Drug Store to meet at, trade at and see sights from, an army of Omahans will feel lonesomealmost lost.

For twenty-one years all that is good in drugs and the like has been dispensed from "Myers-Dillon's"-it has proved a standbya source of reliability. If ever a "Myers-Dillon" customer became dissatisfied the "Myers-Dillon" people were just as anxious to right matters as was the customer to have matters rectified.

Few drug stores in the entire United States have made so lasting and favorable an impression upon the public as this concern, and much genuine regret will be heard now that a vacate notice

has been served. But enough of reminiscences now to business.

The Myers-Dillon Drug Company on Saturday, May 1st, drops a thunderbolt into the drug world. It must rid itself of every grain, ounce, pound, barrel or package of bulk drugs, all patent medicines, toflet goods, drug sundries, stationery, candies, fountain pens, cutlery, paints, toys, novelties and the other tens of thousands of items usually carby a drug house of Myers-Dillon's size and prestige.
The Myers-Diljon Drug Com-

pany has a \$75,000 stock within the walls of its 16th and Farnam retail quarters and in its Harney street warehouses. Enough stock is on hand right at this moment to stock a half a dozen good sized drug stores. But this very large quantity of goods makes the clear-ance sale even more urgent. Every dollar's worth of goods in

the Myers-Dillon Drug Company stock must be sold and sold in a hurry at the "quickest low price" it will bring. There isn't an article but that will be sold at wholesale cost; many thousands of items are offered at less than wholesale cost; there are thousands upon thousands of items that will go for less than cost to manufacture. The stock is far cleaner than that of the usual drug house and Myers-Dillon prices, even in the regular way, are far lower than those of usual druggists, because this concern is what is known in the trade as "large handlers" and own the goods in the first place for far less money than the little drug stores scattered here and there. What do you think, then, of hav-ing this merchandise offered you at prices that are reduced to even greatly less than the usual Myers-Dillon figures? Watch Friday's papers for large

announcements containing speci-men instances of underpriced items to be offered Saturday, dur-ing the first day of the "Notice To Vacate Sale." But stop to realize that the stock here is too collossal to be listed in its entirety in a single announcement. The stock will have to be taken. up in sections and advertised from day to day in a series of sales. If you don't see what you want in the first advertisement come to the store Saturday anyway, for the store Saturday anyway, for the article you have in mind will surely be here at a typical sale price. Then keep watching the papers by all means; they will keep you posted in regard to the daily happenings of the greatest drug store event ever offered to

drug store event ever offered to Omahans or Nebraskans.

Mind you, it is a genuine sale, brought about by unforeseen circumstances. With a "Notice to Vacate" staring it in the face, no drug store on earth wants to be possessed of a dollar's worth of stock. It's a case of must sell and sell quickly. Turning goods into money in this instance will be far more gratifying than carrying the

money in this instance will be far more gratifying than carrying the stock anticipating the future. Remember, read Friday evening papers! The Myers-Dillon Drug Company's "Notice to Vacate Sale" starts Saturday, May 1.
