

EARL HAMILTON CAN'T HOLD TIGERS

Detroit Defeats St. Louis After Being Blanked Four Innings by Southpaw.

FINAL SCORE IS FIVE TO TWO

DETROIT, April 29.—Earl Hamilton, who was severely injured in an automobile accident last year, pitched his first game of the season for St. Louis today and Detroit beat him by 5 to 2. The southpaw blanked the Tigers for four innings, but he was found for three hits in the fifth, which produced two runs, tying the score. The game was won in the sixth when Crawford walked, stole second and came home on Veach's double.

Scoreboard for Earl Hamilton game: ST. LOUIS AB. R. O. A. E. Detroit AB. R. O. A. E.

WINNER OF THE BIG OKLAHOMA AUTO RACE.

TIP TOPS DEFEAT BALFEDS

Hammer Three Pitchers Hard While Seaton Holds Visitors Safe.

ANDERSON IS HIT ON HEAD

BROOKLYN, April 29.—Brooklyn hammered three Baltimore pitchers hard today, while Seaton held the visitors safe. The score was 11 to 1, an error by Myers preventing a shutout. Magee and Evans batted hard, the latter driving the ball over the right field wall for a home run.

Scoreboard for Tip Tops vs Balfeds: BROOKLYN AB. R. O. A. E. BALTIMORE AB. R. O. A. E.

McNally out because of coacher's interference. Batted for Ruth in seventh. Batted for Cady in seventh. Batted for Leonard in seventh. Batted for Wagner in seventh. Batted for Collins in ninth.

Bob Burman Wins The Southern Race

OKLAHOMA CITY, Okla., April 29.—Bob Burman this afternoon won the 200-mile southwest sweepstakes automobile road race for a purse of \$5,000. His time was 2:50:08. Dave Lewis was second and John Rainey third.

FAIRBURY TRIMS REDS IN SECOND DAY'S GAME

FAIRBURY, Neb., April 29.—(Special Telegram.)—Thrilling for revenge over the trimming administered by the Hastings team yesterday, "Dad" Shaner and his bunch of State leaguers entered the second exhibition game this afternoon determined to reverse the score of yesterday, and when the ninth inning closed Fairbury had annexed a victory, 2 to 1.

Railroad Men Are Opposed to Nagel As Wage Mediator

WASHINGTON, April 29.—Federal Judge Martin H. Knapp, chairman of the board of mediation and conciliation, now handling the western railway wage dispute, conferred with President Wilson today over a protest which the railway employes have made against Charles Nagel, former secretary of commerce and labor and a member of the arbitration board. The protest is based on the fact that Mr. Nagel is a trustee of the Bush estate of St. Louis, which is said to be a large holder of railway securities.

4 GERMAN PLANES LOST IN AIR FIGHT

French Fliers Score Victory in Battle with Enemy Machines in Sky.

ZEPELIN BASE IS BOMBARDED

PARIS, April 29.—The following official statement was issued by the war office tonight: "During the course of the day of April 27, our aviators launched thirty-two shells on the station at Bollweller (seven miles northwest of Muelhausen) and sixty shells on the station at Chamblay, where they set fire to a depot of munitions. "The station off Arnayville (on the Lorraine frontier) and the junction of the railways of Chamblay and Thiaucourt have been bombarded at night.

Drop Bombs on Hungars. "On April 29 one of the aeroplanes dropped six projectiles on the hangars of the dirigibles at Friedrichshafen. The aviator observed clouds of smoke rising from the roof of one hangar. Twenty-one shells have been dropped on the station, the bridges and factory at Leopoldsdorf (Baden). During this bombardment one of our aeroplanes fell within the German lines.

During the course of the day four German machines were pursued and reached by our aviators. One fell ablaze within the lines of the enemy near Brimont. Two others came to the front near our trenches—one in Champagne and the other in the region of Ancre—and were destroyed by our artillery.

Taken Prisoners. "The fourth fell within our lines at Mulson, west of Rheims. The two German aviators, who were not wounded, were taken prisoners. A dispatch to the Havas agency from Romanshorn, Switzerland, says: "An aeroplane, flying at a great height, dropped six bombs on the Zeppelin establishment at Friedrichshafen. Despite a violent shrapnel and machine gun fire it remained in the vicinity of the balloon works for half an hour and then retired safely, after accomplishing its object. The extent of the damage done by the aeroplane is not known."

Raid Zeppelin Base. BERNE, Switzerland (via Paris) April 29.—The military station at Romanshorn this morning reported the appearance of a squadron of allied aviators making for Friedrichshafen, where the headquarters of the Zeppelin dirigible balloons is located. Soon afterwards a lively cannonade, lasting half an hour, was heard. Six machines are said to have been over Friedrichshafen. Details of the raid are lacking.

Frank Howell's Auto Turns Turtle, but He Escapes Any Injury

United States District Attorney Frank Howell had a thrilling experience and a narrow escape today at Cedar Rapids when his auto upset. Howell started yesterday to drive his machine from Omaha to Chicago, where he is to appear in court Friday.

At Cedar Rapids he met with a most peculiar and lucky accident. In rounding a sharp turn in the road Howell's machine turned over. Howell had presence of mind enough to crouch down, so that he had the protection of the back of the seat, so that although the car turned a complete somersault, Howell came out of the mishap without injury. It did not take the machinists of Cedar Rapids long to straighten out the front axle of the machine and Howell again started on his journey to Chicago.

Doctor Calls Upon Patient in Plane

SIOUX CITY, Ia., April 29.—To answer an emergency call to an accident by aeroplane was the experience of Dr. Pearl E. Somers of Grinnell, Ia., yesterday. Somers received a telephone call from a farm home, eleven miles southeast of Grinnell, where a man had been terribly injured in a runaway accident. Aviator W. C. Robinson of Grinnell was near the doctor's office when the call came, and learning of Somers' mission, volunteered to take the doctor to the scene of the accident in his aeroplane. The start was made within a few minutes and the eleven miles were traversed in six minutes, at the rate of 110 miles an hour. Somers dressed the man's injuries, was again seated in the aeroplane and was driven by Robinson to Grinnell at the speed of seventy-three miles an hour, or nine minutes. The twenty-two-mile trip was covered in fifteen minutes, or an average of ninety miles an hour.

Paul Weimer Elected Noonday Club Head

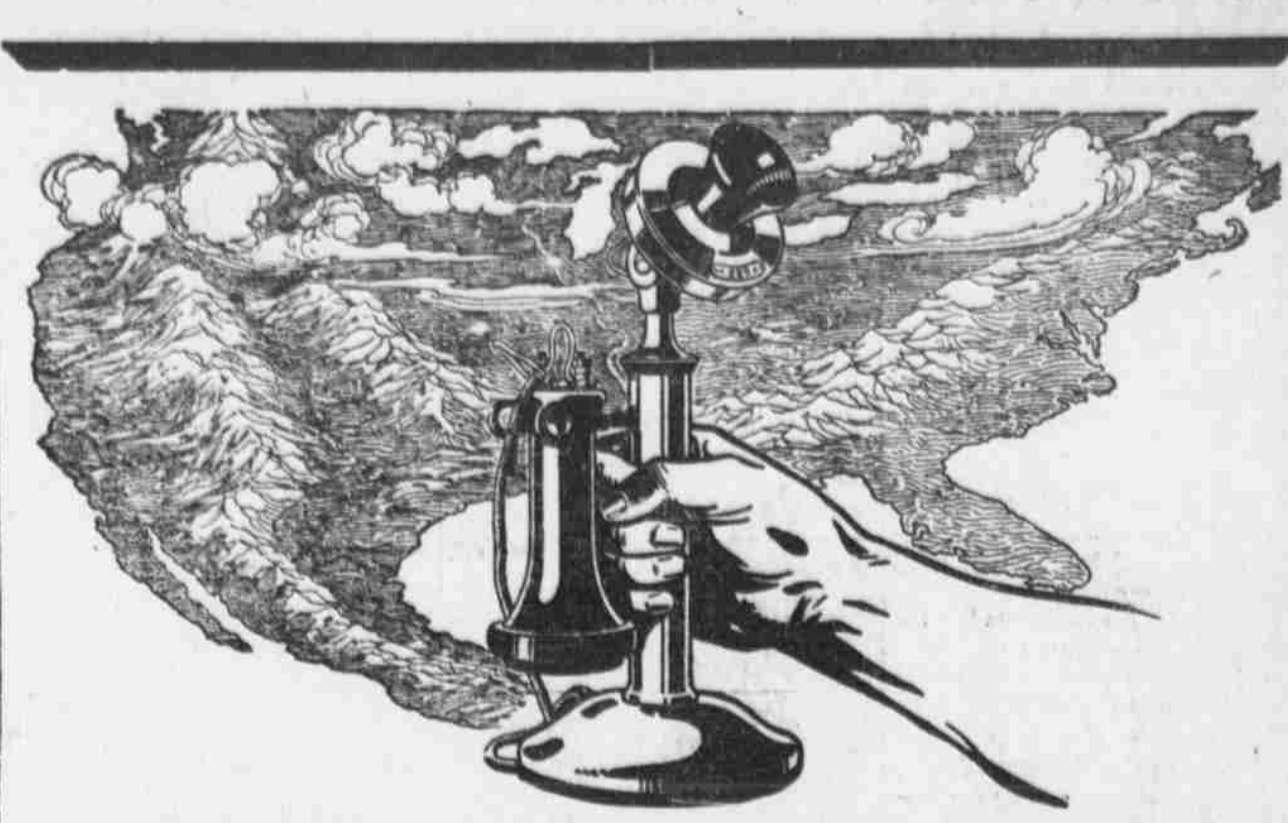

Paul Weimer was last night elected president of the Noonday club at the Commercial club rooms. P. A. Eliquist was elected vice president. Arthur Palmer was elected secretary and Dr. A. Johnson, treasurer. The time for the arbitration of the wage dispute expires when the board itself has power to make an extension.

MISS GRACE STEWART IS VICTIM OF DIPHTHERIA

(From a Staff Correspondent.) LINCOLN, April 29.—(Special.)—Miss Grace Stewart, who has been employed as a stenographer in the blue-sky department of the State Railway commission, died this morning of diphtheria at the home of her mother at Bethany. She formerly lived at Hebron.

Pape's Diapepsin for Indigestion or Bad Stomach

Sour, gassy, upset stomach, indigestion, heartburn, dyspepsia; when the food you eat ferments into gases and stubborn lumps, your head aches and you feel sick and miserable, that's when you realize the merit in Pape's Diapepsin. It makes all stomach misery vanish in five minutes. If your stomach is in a continuous revolt—if you can't get it regulated, please, for your sake, try Pape's Diapepsin. It's so needless to have a bad stomach—make your next meal a favorite food meal, then take a little Diapepsin. There will not be any distress—eat without fear. It's because Pape's Diapepsin "really does" regulate weak, out-of-order stomachs that gives it its millions of sales annually. Get a large fifty-cent case of Pape's Diapepsin from any drug store. It is the quickest, surest stomach relief and cure known. It acts almost like magic—it is a scientific, harmless and pleasant stomach preparation which truly belongs in every home.—Advertisement.

ABOUT TELEPHONE RATES

Bell Telephone rates are based on what it costs to give efficient service, plus a very reasonable profit on the investment in property upon which absolutely no "watered stock" has ever been issued, as has been certified to and confirmed by thousands of impartial examinations and investigations by commissions and governing bodies.

For many years the Bell Company has not paid more than an 8 per cent dividend, and in Nebraska our dividends have been less than that.

The rates in this country are graded to suit users desiring various kinds of service, but in Europe this is not the plan. In Paris for instance, there is only one rate for business and residence, the cost being \$77.20 a year. Paris has 96,000 telephones; Philadelphia has over 133,000 telephones and the rates paid for 90 per cent of these are under the Paris price.

Chicago has more than 300,000 telephones and 80 per cent cost less than the Paris rate; Budapest has 24,567 telephones, which cost just \$60 a year each for residence or business; Omaha has 32,000 telephones which cost a maximum of \$72 and a minimum rate of \$24, and 85 per cent of the telephones in use in Omaha cost less than the lowest rate of Budapest.

In connection with European telephone rates, which are in many respects actually higher than those of the United States, we must not forget wages, which are a large part of the cost of operating a telephone plant. The following tables give the weekly wages of telephone operators (in the large towns only), in the countries named:

Table of weekly wages for telephone operators: Austria \$3.00, Belgium 2.60, France 4.10, German Empire 4.60, Great Britain 2.65.

The above are for a minimum wage, the maximum averaging about 10 per cent more. The average telephone wages in general in United States are about three times higher than the average in Europe.

Here is a table that gives the average exchange revenue per telephone per year in terms of equivalent American dollars in several countries equated on the basis of operators' wages:

Table of average exchange revenue per telephone per year: Austria \$75.60, German Empire \$49.40, Belgium \$114.50, Great Britain \$9.80, France \$6.60, United States (Bell) \$20.95.

The latest reports show that out of 13,570,874 telephones in use in the world the United States has 8,729,592, and out of 33,261,934 miles of wire the United States has 20,248,326.

The states of Iowa, Nebraska, Minnesota and the Dakotas have more telephones than all Great Britain.

The city of New York has more telephones than all of France. Greater Omaha has as many telephones as all of Spain.

Iowa or Minnesota each have more telephones than all of Russia. Chicago has more telephones than all of Austria.

In the United States we have but 6 per cent of the world's population, yet we have 65 per cent of all the world's telephones.

The service rendered the public by the Bell System is the result of the policy of building up an efficient organization for nearly four decades. In the organization every member holding a responsible position has had years of training in his particular duties. Each individual is trained as an essential and important part of the whole, recognizing his obligatory relations towards all other parts and his accountability and responsibility to the organization of which he is a part.

Nearly one person in every thousand in this country is a stockholder in the Bell System. Within the organization one employee in every five is a stockholder, including operators, stenographers, linemen and clerks, as well as hundreds of minor officials.

It is our policy to have every employee proud of the Company, proud to serve it and its patrons and jealous of their own and the Company's good name.

We give the best telephone service that American brains can produce; charge the lowest rates consistent with prompt and dependable service; endeavor to treat every one fairly and courteously, and aim to merit a reputation for integrity, efficiency and decency.

To this policy belongs the credit of making the Bell System what it is—in reasonableness of rates and efficiency of service, the premier telephone system of the world and the model after which every other comprehensive telephone system throughout the world is copied.
