The Bee: Omaha, Thursday, April 29,

In Fairness to Simon.

Vote-hunting sharpshooters on the political firing line are expected to use any missile within reach, but in all fairness to former Representative Edward Simon, the public is entitled to know that the assault to discredit his sponsorship of the mothers' pension law is contradicted by the official record.

While no member of the legislature of two years ago had any monopoly on the introduction of mothers' pension measures any more than on any other subject, Mr. Simon's bill, House Roll No. 96, was the first to be presented, and in substance the one to be enacted. Everyone familiar with legislative procedure knows that where bills on the same subject are introduced simultaneously in both houses the speedy achievement of the desired result is expedited by acceptance by one house of the framework of the measure passed by the other, and this is what happened with the mothers' pension bill. The senate file coming across before the house had acted upon the house bills, was amended by incorporating the additional features of the bills introduced by Representatives Simon and Jeary, and by an extraordinary action recognition was given to the two mothers' pension champions in the house by specifically adding their names as joint in-

The record is found on page 797 of the House Journal for 1913 in the report of the committee of the whole, which was unanimously adopted, and reads in part as follows:

Amend that part showing the introducer by adding after the words, "Introduced by Senator J. A. Robert-son of Holt," the words, "and Representatives Edward Simon of Douglas and Edwin Jeary of Lancaster."

If the record is the best evidence this should be conclusive aside from the fact that those trying to disparage Mr. Simon's work have waited two years to discover that he had no part in procuring the passage of a law for which his colleagues in the legislature themselves at the time gave him his full share of credit.

The World-Herald:

In Fairness to Simon, Although this newspaper is not supporting the candidacy of Edward Simon, for city commissioner, it is compelled by a sense of justice to condemn the misguided accusations of his opponents against the sincerity of his statement of his own legis-

lative record. Mr. Simon has claimed credit for the enactment of the mothers' pension law and the anti-loan shark law. His opponents read from the official record to prove that the mothers' pension law was introduced by Senator Robertson of Holt county, and that Mr. Simon did not vote for it on final passage. They further charge that Mr. Simon at one time wished to drop his anti-loan shark bill, but was pressed on by fear of public censure if he

Mr. Simon is not entitled to sole credit for the mothers' pension law, no more than is any single legislator ordinarily a just claimant to entire credit for any measure. Senator Robertson, Representative Jeary, other legislators and a number of social settlement workers had a part in obtaining its passage. But Mr. Simon's part was as important, if not more so, than that of any of these and was recognized as such by his fellow legislators, whose word on the subject is probably the best evidence of what occurred.

At least three mothers' pension bills were introduced in the 1913 legislature. Senator Robertson's passed the senate before the house acted on either the bill introduced by Representative Simon or that introduced by Representative Jeary. The house committee thereupon held a public hearing at which all three bills were considered, and at which Mr. Simon presented his views. The committee eventually rec-ommended that the Robertson bill be somewhat amended, to meet the ideas of others interested in mothers' pensions, and be passed, a procedure acceptable to Mr. Simon and in accordance with legislative

custom. The house adopted this report, which included an amendment to add to the section naming the introducers of the bill the

names of "Representatives Edward Simon of Douglas and Edwin Jeary of Lan-caster." That action is recorded on page 797 of the House Journal of the 1913 legislature and it constitutes the deliberate opinion of the legislators themselves as to who was entitled to credit for the enactment of this statute.

The house record further shows that Mr. Simon was excused by the speaker from attending the session of Thursday, March 27, in order to attend to private business. That day the mothers' pension bill came up for final passage. Had there been a fight upon it the customary house courtesy would have caused a vote to be postponed until Representative Simon's return. There was no such opposition, however, and no particular need of Mr. Simon's attendance. It, therefore, passed in his absence, by a vote of 92 to 0.

The motive for Mr. Simon's support of the anti-loan shark bill is something on which he alone can be an authority. The fact known to the public, as borne out by the testimony of men attending the legislature, is that Mr. Simon made one of the most vigorous single fights of the legislative session for the anti-loan shark bill. It was bitterly opposed by an active minerity, but the record vote on third reading showed 69 in its favor to 21 If Mr. Simon at any time wished the defeat of his own bill, his work on the floor of the house was not in accordance with that desire.

It should not be necessary in any campaign to exaggerate the merits or faults of any candidate, but no campaign outside of Utopia will probably ever be conducted on that plane. Mr. Simon erred somewhat in not confining his claim to the honor of being "one of the introducers," instead of being "the author.". But his opponents have erred more in attempting, by inuendo if not directly, to cheat him out of all credit for his good work. Edward Simon knew in childhood what it means to fight the kard battle with poverty, and sold newspapers on the streets of Omaha. This fact affords ample explanation of his earnest support of the measures menThe World-Herald: Omaha, Saturday May 1, 1915.

In Defense of Edward Simon, Candidate. South Side Bohemian Club Says He Is Author of the Mothers' Pension Law.

At a meeting of the South Side Citizens' Bohemian club Thursday night the follow-ing preamble and resolution were adopted: "Whereas, Certain statements have been publicly made by some of the candidates for city commissioner and their supporters and have appeared in our public press to the effect that Edward Simon, one of the

candidates for the office of city commis-

sioner, was not the author and introducer

of the mothers' pension law as passed by

the state legislature of 1913, and that he

was not influential in securing the passage of this bill; and, "Whereas, The official records of the proceedings of the 1912 legislature show that Edward Simon, as a house member of that legislature, introduced House Roll No. 96, his own bill, which was the first mothers' pension bill to be presented during that session, in in substance the one

to be enacted into law; and, "Whereas, The Bohemian citizens and business men of Omaha are personally acquainted with Edward Simon and have known him from the time he lived in the Bohemian district to be a man of unques-

tionable honesty and integrity; and, "Whereas, These charges against Edward Simon were called to the attention of the Bohemian citizens of Omaha in political meeting assembled at the Bohemian Turner hall Thursday evening, April 29;
