Wyoming Raises

The railroad freight offices in Omaha have received official notice that Satur day the governor of Wyoming and the state board lifted the quarantine on all cattle shipments from points west of the Mississippi river

Several months ago when the foot and mouth disease was prevalent among the herds of some of the states of the central Wyoming placed a quarantine against all cattle east of the west line of Nebraska. Now, with the embarge raised, railroad freight men are anticipating the shipment of a large number of young animals to the Wyoming range. Cattle shipped, however, must be accompanied by health certificates and tubercular tests.

MRS."BLANCHE" KENNEDY DIES IN SEATTLE HOSPITAL

Word was received in Omaha last night that Mrs. Kennedy, wife of "Blanche" Kennedy, died of cancer in a Seaatle hospital Sunday morning. She had been ill for several months and recently had returned from Honolulu, where she and her husband had been for Mrs. Kennedy's health. The Kennedy's were early residents of Omaha and left here twenty years ago. going to Seattle. Mrs. Kennedy was Francis de Lackso of New York dropped about 60 years of age. She was a literary into Omaha yesterday, handouffed to his woman of more than local prominence He is riding from New York and had written a large number of to San Francisco with handcuffs on his poems. Valve-in-Head Motor Construction

In twelve seasons of successful use the Buick Valve-in-Head motor has demonstrated its superiority beyond all shadow of doubt. First of all, it is correct in principle. It is standard in practically all European cars, and it is rapidly being adopted by American manufacturers. No stronger proof could be offered that IT IS RIGHT.

PIONEER BUILDERS

The Buick Motor Co. is the pioneer user of this type of motor. Since the first Buick car was built Buick engineers have been developing this motor, not in principle, but in refinement of detail. Today the Buick valve-in-head motor is not only the best type of motor; it also is the best motor of its type. Powerful, Efficient, Dependable and Economical

In all the qualities that go to make a motor best, the valve-in-head represents the best, in theory and practice, that the world's best automobile engineers have thus far been able to produce.
