Features of the Trading and Closing Prices on Board of Trade.

CHICAGO, May is.—Assertions by a leading expert that there had been no sufficient evidence to warrant belief in a general crop disaster had a good deal to do with bringing about a decided set back today in the price of wheat. The market closed nerveus at Fig. to Sec under last night. Other speculative articles also finished at net declines—corn, ic to 14/4/13/ec; oats. \$4/5/4c to %c, and provisions, ic to 10c.

Although high authority admitted that the government report June 1 would

sions, be to be.

Although high authority admitted that the government report June I would doubtless show a less favorable condition of the wheat crop than on May I, the opinion was expressed that in order to figure a loss already of 100,000,000 bushels, a reduction of 30 per cent in the last two weeks would have to be assumed for Ohio, Indiana, Illinois, Missouri, Kansas and Oklahoma. A majority of traders seemed disposed to agree that such an inference was difficult to accept in view of the experience heretofores that Hessian fly damage has always been more or less local.

Raths in Kansas and elsewhere, promising material improvement in the field outlook, gave the bears further advantage as to wheat. Pessimistic rumors about Germany's answer to the American nots tended also to pull down prices. In fact, the only display of strength was a brief upturn early, the result of an advance at Liverpool.

Corn weakened with wheat. There was no activity in shipping demand. Besides, cables and the weather both were bearish. Oats displayed relatively more firm mess than other grain. The reason was commission house buying on resting orders that came into play at moderate declines. Lower, quotations for cereals and hogs carried down provisions. Some support from packers checked the break.

HOGS—Receipts were very liberal again today, 29 cars, or in the neighborhood of 20,000 head, being received. The total for the two days is 31,87 head, being about twice as large as both last week and a year ago. The supply for the week to date is the largest since the third week of March, when nearly 40,000 showed upon Monday and Tuesday.

Buyers were very bearish and some of the early killer bids were 1520c lower than yesterday's average. No bogs were cashed at this time, however, and by the time sellers started to cut loose prices were logisc lower. At the best time values were a little better than this, but the average is a good big dime and pretty close to 16215c lower Early rounds were very dull, but after a trading basis was established things moved along fairly rapidly, and a good clearance was made before 11 o'clock. Considering the size of the receipts shippers did not get in very leavily.

Bulk of the offerings moved at \$1,250.

before It o'clock. Considering the size of the roceipts shippers did not get in very heavily.

Bulk of the offerings moved at \$7.55 are cent: ninety 1.50, with the big long etring at the former figure. Tops reached \$7.55, being a fiat quarter under the high mark at the close of last week, and a dime brlow the high price paid yeaterday by packers.

For the week the general trade shows a 200220 decline, with shipptay grades on the long end of this break. The packing demand has held up very wall considering the size of the receipts and the lack of shipping orders.
