WAR BOOSTS ALL PRICES

Comparison of Cost of Foodstuffs in Germany Now and Before the War and Here.

GREAT INCREASE IS SHOWN

Old Mars, god of war, is the wellknown pal of High Cost of Living, who has been visiting in our midst here in the IZ. S. A. for some little time now. While High Cost of Living has not yet departed, it is evident from the war prices of foodstuffs in Germany that his big brother is visiting there. Inquiry at Hayden Brothers reveals the fact that on the staples of life the prices in Germany today are from 50 per cent to 600 per cent higher than on the same things

Here is a list of articles as published in The Bee recently, showing prices in Germany before the war and at the present time, and the prices in Omaha at the present time:

Kenyon Would Keep Feeder Stock Out of Yards in Chicago

FORT DODGE, Is., May 21,-(Special.) -No definite cause has been found for the recent epidemic of foot and mouth disease in cattle, according to Senator W. S. Kenyon, who returned home today from Chicago, where he and Senator Gore conducted examination. He said the senate committee did not decide whether the germs came in on South American hides or whether they may have been carried on the colthing of stock men from that continent.

Senator Kenyon declared the committee probably will make some recommendayards in Chicago to be a clearing house for diseases of animals. He suggested that some way be found to get "feeders", from the ranges to the farms without shipping them through the Chicago to be a clearing house for diseases of animals. He suggested that some way be found to get "feeders", with their daughter, Mrs. Frank Curley of Blair.

Michigan, in their investigations. Niles is the place where the epidemic undoubtedly began. The committee did not get any totals of the amount of money lost by stock raisers from the disease.

Senator Kenyon said that while some complaint was heard of the way in which the Agricultural department handled the dituation, that he thought the federal government handled it well, considering that the disease made its appearance in the last few months for the first time in the last few months for the first time in her southern home. complaint was heard of the way in which this country. But one case of the disease has been reported in a month, he said, and this indicates that the foot and mouth disease has been stamped out.

Italy Places Large Orders for Stores in the United States

NEW YORK, May 21.-Large orders for military stores and foodstuffs for Italy were reported to be in the market here today, despite the fact that for months the Italian government has been drawing supplies from the United States in anticipation of hostilities.

Shipments of coal and wheat from this country to Italy in the last few weeks have been extensive, it is said. Many ship loads of horses for use in the Italian army were reported to have been made, and an order for 50,000 more horses is understood to be awaiting acceptance Many of the Italian reservists in this ity returned to Italy in the early stages of the European war and a rush by New York Italians to return and enlist for the war is not anticipated among leading Italians.

Finding "The One Person" in a Whole Cityfull!

ONE person will buy your property; ONE person will rent your house or apartment; ONE person will give you employment.

How long would it require to find that "one person" without help? Could it be accomplished at all?

The classified advertisements in The Bee help you to find the ONE PERSON you seek-because that one person, in most instances, expects to get in touch with you through the classified advertising columns of The Bee. Self-interest makes your classified advertisement IMPORTANT to this one person.

Your "ad" will be read by the wrong people, of course-by many of them. But, with a little persistence on your part, it will come to the notice, unfailingly, of the one person to whom and for whom it was written.

That's the SERVICE The Bee classified columns offer to you.
