Towns of Caporetto, Cormons, Cervignano and Terzo, Near Head of Gulf of Trieste.

### PORT OF BUSO IS BOMBARDED

ROME, May 25.—(Via Paris)—Official announcement was made by the War office today that Italian forces had penetrated Austria, occupying Caporetto, the heights between the Judno and Isonzo, and the towns of Cormons, Cervignano and Terzo.

The statement says these operations took place yesterday in the Austrian crownland of Carniole and in the Friuli district. It reads:

"On the Carniola front Austrian artillery opened fire against our positions without result. During the day of May 24 our artillery fired on positions occupied by artillery of the enemy.

"On the Friuli front our troops advanced everywhere and encountered only feeble resistance. We have occupied Caporetto, the heights between the Idris and Isonzo rivers, Cormons, Cervignano and Terzo. The towns of Caporetto, Cormons, Cervignano and Terzo are in Austrian territory, two or three miles from the Italian border line. They stretch along the frontier on a line running north from the head of the gulf of Trieste. The Austrian town of Cors is five miles to the east of Cormons and Trieste itself is twenty-five miles from the border line. The railroads running east and west pass through Cormons and Terzo.

Port of Buso is bombed. ROME, May 24.—(Via Paris, May 25)—The following official statement was issued tonight by the Italian general staff: "An Italian destroyer entered the port of Buso, near the Austrian frontier and destroyed the landing stages, the railroad station and barracks as well as all motor boats in the harbor. The destroyer was not damaged and none of the crew was wounded. Two of the enemy were killed and we took forty-seven prisoners including an officer and fifteen non-commissioned officers, who were brought to Venice.

"According to supplementary information received the two enemy aeroplanes which appeared over Venice this morning dropped seven bombs without causing serious damage. The fire from our defenses put them to flight. The damage to the railroad caused by the attacks of warships and aeroplanes in the early hours of the morning was important and already has been repaired.

"The Austrian cannonade sank a German steamer in the harbor at Ancona. Several wounded in Venice. WASHINGTON, May 25.—American Consul Carroll at Venice cabled the State department today that German and Austrian aeroplanes, which flew over the city yesterday dropping bombs, injured several persons, but no Americans. The Italians returned the fire with machine guns and shrapnel.

The State department issued this statement: "The American consul at Venice has telegraphed that on May 23 German and Austrian aeroplanes made a scouting attack on Venice at dawn. Several bombs were thrown and several persons wounded, one bomb falling near the arsenal and another at San Nicolao, in Lodi, in the water. One aeroplane flew directly over the consulate amid a hail of machine guns, shrapnel and shell fire. The consul reports that there was no sign of panic among the citizens, who watched the fight through glasses."

best fighting elements of the country, has been engaged.

In Constantinople there is a shortage of petroleum, wool and coal. Bread is also lacking and at the bakeries the people must take their turn.

When American Ambassador Morgenthau protested to the Turkish authorities against the sending of fifty British and French subjects to be placed on the fortifications of the Dardanelles, a measure destined to stop the bombardment of the allies, Enver Bey replied he must do something, as the arrival of Turkish wounded from the straits was creating a deep impression. The ambassador's energetic efforts, coupled with the British threats to hold Enver Bey personally responsible, resulted in the return of these men to Constantinople within a week. They were accompanied by Gallipoli by Hoffman Philip, secretary of the American embassy.

The collier Vulcan, which has been recalled from the American cruiser Tennessee, is expected shortly at Dedeagach from Beirut, bringing the unit of the American Red Cross society, which is proceeding to Constantinople.

### Italy Tells World Vienna Broke Treaty By Defy to Serbia

WASHINGTON, May 25.—Italy has addressed to the neutral governments of the world a lengthy communication explaining its reasons for declaring war on Austria. Count di Celleri, the Italian ambassador, presented the document to Secretary Bryan today in the form of a note to the United States government.

It reviews negotiations between Italy and Austria, revealing that they began immediately upon the dispatch of Austria's ultimatum to Serbia. Italy claimed that the action of Austria disturbed the equilibrium of the Balkans and the peace of Europe in a way that vitally affected Italian interests. As a ally of Austria, Italy asserts the right to have been consulted before sending of the ultimatum, the first news of which was received through the newspapers.

Failing to obtain through diplomacy the satisfaction of its territorial and national aspirations, Italy announces that a declaration of war was the only means of safeguarding its position in Europe.

A wireless dispatch from Berlin yesterday reported that a Russian warship, probably the battleship, Pantelimon, had been sunk in the Black Sea with the loss of 1,400 men. The dispatch gave no information that the vessel had been sunk by a submarine.

### ANSWER OF KAISER DELAYED

THE HAGUE, May 25.—(Via London.)—The government of the Netherlands has sent a note to Germany protesting against the sinking on May 7 of the Cunard line steamer Lusitania by a German submarine. The contents of this note are substantially the same as that in the American communication on the same subject.

The lives of several Dutch subjects were lost when the Lusitania was torpedoed.

Answer of Kaiser Delayed. WASHINGTON, May 25.—President Wilson told callers today he did not know causes for the delay of the German reply to the American note on the Lusitania, but he presumed the German government was for the moment absorbed in the new circumstances arising out of Italy's entrance into the war. The German embassy here has made suggestions to the German foreign office for the reply and in German quarters it is said the note will be of a character to satisfy American public opinion.

While declining to throw any light on the shipping situation as between Great Britain and the United States, the president referred to it as a chronic case. It was learned that he believed any formal note now to Great Britain might weaken the American government's position in its delicate relations with Germany, but as soon as the reply is received some action may be expected.

Just to be with the man was to be decent."

Twenty-six pallbearers escorted the body. They included, in addition to Mr. Thomas, George Ade, Edward Sheldon, Richard Harding Davis, E. H. Sothern, William Gillette, Otis Skinner, William Faversham and David Belasco.

### Try This If You Have Dandruff

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring, use enough to moisten the scalp and rub it in gently with the finger tips. By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have. You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail. —Advertisement.
