Daniels Moves to Develop Submarine Arm of the U. S. Navy

WASHINGTON, May 29.—In line with his announced determination to develop the submarine arm of the navy, and eliminate its present faults, Secretary Daniels today designated Captain A. W. Grant, one of the highest ranking officers of his grade, to command the Atlantic submarine flotilla and exercise general supervision over that branch of the service.

Captain Grant, who now commands the battleship Texas, will assume his new duties next month, with headquarters aboard the flotilla flagship. He will have as his assistant commander, Yate Sterling, now commanding the flotilla and an expert on underwater craft, whose testimony before the congressional committee during the last session gave the public some interesting details about the weaknesses of the boats in his charge.

It is expected that Captain Grant will spend much of his time in Washington and at the various shore stations, conferring with officials and construction officers.

STEAMER ON FIRE OFF COAST OF CALIFORNIA

SAN FRANCISCO, May 29.—A radio report received here tonight said the steamer Mackinaw was on fire off Point Reyes, thirty miles north of San Francisco. No passengers are aboard the Mackinaw. Its crew consists of forty men. The vessel is not carrying a cargo. Later reports say that the Mackinaw was being towed into the harbor at Point Reyes.

More Letters Reach Governor of Georgia Asking Life for Frank

ATLANTA, Ga., May 29.—Many additional letters urging executive clemency for Leo M. Frank, were received today at the offices of Governor Slaton. Among them was one from Governor Brewer of Mississippi expressing belief in Frank's innocence, and advising Governor Slaton to "take the safe course and the one dictated by humanity."

John A. Boykin, a prominent Atlanta lawyer, wrote the prison commission that the late Judge Roan, who presided at Frank's trial, had expressed to him grave doubt as to Frank's guilt.

"I know Judge Roan received threatening letters during Frank's trial, and while his motion for a new trial was pending," Mr. Boykin wrote, "and from conversations I had with the judge I believe these letters intimidated him."

Other letters in Frank's behalf were received from Senators Williams, Mississippi; McLean, Connecticut; Lewis, Illinois; and Broussard, Louisiana; Congressman Hill, Connecticut; Coleman, Pennsylvania; Elston, California; and Cline, Indiana; Harry Pratt Judson, president of University of Chicago; Mayor James H. Preston, Baltimore; David R. Forgan, Chicago banker; and United States Senator John W. Kern of Indiana.

Frank and James Conley, a negro, who is serving twelve months' imprisonment as an accessory to the crime Frank is charged with, were subpoenaed today as witnesses in the \$10,000 damage suit of the Phagan girl's mother, Mrs. J. W. Coleman, against the National Pencil factory. They were cited to appear before a commission next Wednesday and counsel for the plaintiff will seek to establish by them that the girl was killed in the factory.

Ohio Officers Ask That Penna Be Held

A telegram urgently requesting that Fidelia Penna, alleged Italian Blackhand kid, be held until the arrival of Ohio officers, has been received by the Omaha police, verifying in part the story told by 22-year-old Mary Ghilotti, who on Thursday afternoon gave an almost unbelievable story of criminal operations around Youngstown, O.

The girl repeated her story again yesterday without contradiction, while Penna, in repeating his, took back several statements and made new explanations.

The Omaha police are now seeking the two Italians who escaped when Officer Steve Thrasher arrested Penna at the lodging house on South Fourteenth street.

A score of telegrams have been exchanged by the Omaha police with the federal and local authorities in Ohio to further investigate the girl's story of blackhand work.

The position, in the opinion of many, appears to lie between E. A. Walrath of Orosco and W. H. McGaffin of David City. Mr. McGaffin called on the governor this morning in company with a delegation of citizens, among the number being Representative Meyersburg of David City, Representative Fuller of Seward, C. E. Clark of the David City School, Judge Soule, Judge Skiles, T. J. Hines, the new postmaster at David City, and several others.

FIRST PEACHES HERE SOLD FOR A HIGH PRICE

A. J. Anderson, commission merchant, received the first crate of new peaches to come to the Omaha market Saturday morning. It was of the famous Mayflower variety and came from Arkansas.

The buyer was Gus Tereso, 811 South Sixteenth street. He paid \$3 for the crate of twenty pounds. The retail price will be 15 cents each or two for 25 cents.

EFFECT OF THE WAR IS FELT

Kitchen and Henderson Return from Canada, Reporting Business Conditions Far from Good.

Contrasting the different effects of the European war upon the farmers and city folks of Canada, Richard Kitchen of the Paxton and Charles A. Henderson of Newport, Neb., both reached Omaha yesterday, after extensive trips in the western part of the dominion.

"Hardship, sorrow, suffering and distress are everywhere in evidence in the cities," asserted Mr. Kitchen. "I was told in Vancouver of the attempts to burn the big bridge, supposedly by German sympathizers, and of the wrecking of a hotel by Britishers, because a picture of the Lusitania was draped in German flags, instead of English. Also of the wrecking of a German-owned brewery and the dumping of all the beer in the streets. These events took place just as we neared Vancouver. There was intense feeling, great excitement and unrest."

"In Winnipeg I saw men and boys going off to war, many of them without uniforms, guns or other equipment, and it was one of the saddest sights I have ever witnessed. The police picked up many wives, mothers, sweethearts and sisters who had fainted in the distress of last good byes, and a spirit of deep sorrow prevailed everywhere. I hope the United States never has to go to war, and I'm mighty glad to get back again to Omaha, where optimism and prosperity is so apparent."

Outlining the different conditions among the farmers of Saskatchewan, Mr. Henderson says they are more conservative over the war, avoid discussions and clashes that would naturally result from the varied opinions represented, and for the most part are staying on their farms and cultivating extra big areas of grain to help feed the fighters.

Crop Prospects Good. "I found prices good, lands holding steady, crop prospects splendid because of plenty of rain in Saskatchewan lately, and the people on the farms are generally optimistic, on account of the big areas under cultivation and the high prices sure to be paid for the grain," he said.

"The great trouble in Canada is that the cities have been over-built. They have been built up and boomed five years ahead of the surrounding farm country and now that the war has stopped all improvements and municipal works, thousands of city workers are out of employment and dissatisfied."

"With war talk to excite and antagonize them in their idle condition, mob riots and frequent clashes between men of different nationalities have resulted in the cities. Those of the city men who have not gone to war are facing the hardships of idleness, and many have come to the United States."

DISTRESSING RASH COVERED FACE

Head and Ears of Child, Kept Getting Worse, Very Irritating, Face Quite Disfigured. Used Cuticura Soap and Cuticura Ointment. Trouble Entirely Healed.

Clay Center, Neb.—"I want to tell what Cuticura Soap and Ointment has done for my little girl. Her face, head and ears were just completely covered with a sore eruption. It made its appearance in the form of a rash and kept getting worse and spread until her face and ears were almost a solid mass, very irritating and causing great itching and distress. It made her restless at night and her face was quite disfigured, but nothing we did brought any relief. Finally I decided to give Cuticura Soap and Ointment a trial. I washed her face with Cuticura Soap, dried it lightly and applied Cuticura Ointment. I could notice an improvement with the first application and in two weeks' time the trouble was entirely healed." (Signed) Mrs. G. O. Slick, July 31, 1914.

Remember that to dry the hair in the sun is disastrous, for the hair when wet will fade and change color just as the skin becomes tanned or burned. Sunshine and fresh air are both fine hair tonics, but not hot sunshine on wet or damp hair. Not until you have thoroughly dried your tresses after a shampoo are you ready to give them their sunbath. And, too, it is imperative that you be very careful in choosing your cleansing preparation, and never use cleansers made for all purposes, but instead get some good mixture made expressly for shampooing the hair and stimulating its growth. You can enjoy the best that is known by getting a package of Canthox from your druggist; dissolve a teaspoonful in a cup of hot water and your shampoo is ready. After its use the hair dries rapidly with uniform color. Dandruff, excess oil and dirt are dissolved and entirely disappear. Your hair will be so fluffy that it will look much heavier than it is. Its luster and softness will also delight you, while the stimulated scalp gains the health which insures hair growth.—Advertisement.
