MILLIONS PAY FOR SPORTS ANNUALLY

Estimate of Twenty-Five Million Attendance at Various Games During the Last Year.

BASE BALL LEADS THE LIST

Nine Million Paying Speciators Watch League Contests, While Racing Draws Out at Least a Million.

NEW YORK, Jan. 2.-That 25,000,000 spectators witnessed amateur and profesional sports in this country during the last twelve months is sufficient founda-1814 was a repord year in American athletic competitions. These astonishing attendance figures, equal to approximately one-quarter of the total population of the United States, are not the result of one field goal. haphazard guessing. The attendance at all forms of sports contests was recently the subject of discussion among a group of writers and experts in this city and after much comparison and conference the foregoing figures were fixed upon as being comparatively accurate and con-

Only the Paid Attendance. In the main these 25,000,000 represent paid admissions, but not entirely since in certain sports the paid attendance forms but a small percentage of the total assemblage of spectators. In some cases the figures are official or semi-official while in others they are the result of careful tabulations gathered from club secretaries, newspaper reports and estimates made by those qualified to gauge the size and number of large crowds.

Base ball leads, as is natural, and while senting as it does forty-three leagues the Pierce bunch this month. and almost 300 clubs. Foot bail comes next with 6,292,000. Parke Davis, member of the rules committee and expert foot ball statistician, is authority for this estimate, together with the additional in formation that 152,000 clayers participated in 34,000 games during the season of ten weeks.

Horse Racing Popular. It was the consensus of opinion that

approximately 1,000,000 persons witnessed racing, trotting and pacing throughout the country last year. Tennis and golf proved hard problems since few accurate records are kept. The official figures showed that close to 150,000 spectators paid admissions for the twelve days of Davis cup tennis play and the eight days of championship play at Newport. Another 150,000 was fixed upon as the probable attendance at all other sectional, state and city tennis title tournaments. Golf galleries, being without admission feature, were not separately considered.

Automobile, motorcycle and bicycle field sports a similar attendance. These figures refer principally to paid admissions, and, if they err, they minimize rather than exaggerate. The two international polo matches between the United States and English teams drew 75,000 spectators to Meadowbrook last spring. Probably 50,000 more followed the play in other tournaments about the country, giving a total of 125,000. The two big college reguttas at Poughkeepsie and New London attracted 100,000 persons of whom 30,000 paid for observation train or boat seats. Other dual and triangular varsity races, together with the national and sectional regattas of the National Association of American Oarsmen, raised

the total to 425,000. Paying for Pugiliam. Boxing also found a prominent place in the tabulations. Using the reports of the New York and Wisconsin State Athletic commissions it was estimated that fully 1.500,000 spectators attended professional and amateur exhibitions and championship bouts during 1914. In New York state alone the gate receipts as reported to the commission, was in round figures

\$640,000, and the attendance 400,000, No attempt was made to estimate the attendance at golf and trap shooting tournaments, where admission fees are either nominal or entirely dispensed with Cricket, hockey, Lacrosse and yachting were placed in the same category. No

place was allotted to college, school or semi-professional base ball, but these sports or classifications of sports, were used to bring the total up to 25,000,000. It was agreed that 50 cents per person would be a most reasonable admission estimate, but even this gave the startling total of \$12,500,000 in gate receipts in the last twelve months. Count Tirza Says **Teuton Empires Are** Standing Together

BERLIN, Jan. 3 (by Wireless to Sayville, L. I.).-Among the news items given out by the official press bureau today were the following:

"A dispatch from Constantinople re ports that Field Marshal Baron von Der Goltz, the German army officer who organized the Turkish army, has left Constantinople for the Caucasian field of operations.

'The' newspaper bund of Berne, switzerland, states that of all the .elligerents, Germany and Great Britain are the only countries able to raise reserves and that the German reserves, of course, are better organized and better trained.

"Count Stephan Tirza, the Hungarian prime minister, in a New Year's speech affirmed that mutual confidence, mutual love and respect existed between Austria-Hungary and Germany. Austro-Hungarian troops fight, he said, under German command and Germans go into battle under Austro-Hungarian command. "Count Tirza's recent visit to the terman headquarters was not for the solution of any difficulties whatsoever, but was for a discussion of present measures as well as of future political problems arising from the war."
