GRAIN AND PRODUCE MARKET

Flour Millers Report Advances as Result of the Higher Quotations on Wheat.

CORN UNCHANGED, OATS HIGHER

OMAHA, Jan. 6. 1915.

There was considerable in the wheat news and circumstances on this side of the water that might be called bullish. Miliers at Chicago and Minneapolis, as well as many other markets reported advances of 256,00c for flour over night. Millers around Chicago showed more or less uneasiness yeaterday regarding wheat supplies and purchased 175,000 bu. The purchases here on export 4ccount were reported small at 30,000 bu. Corn closed with no change to speak of. Considerable strength was shown early, but when it was known that the country was a heavy seller of cash there were quent sharp break. largely increased offerings and a consequent sharp break.

Oats were 'aff'sc higher. The trade was bearish and the market experienced considerable trouble in reacting from the lower prices. Argentine curb markets were 31sc higher because of the recent heavy rains.

Provisions were active with a great many small orders for ribs and the market was of considerable breadth.

Hard winter wheat was inchanged.

Corn was unchanged to 'sc higher.

Oats were unchanged to 'sc higher.

Clearances were: Wheat and flour, equal to 562,000 bu; corn, none; oats, none.

none.

Liverpool closed nominal: wheat, not quoted; corn. 14 filled higher.

Frimary wheat receipts were 969,600 bu, and shipments 879,000 bu; against receipts of 908,000 bu. and shipments of 308,000 bu. of 608,000 bu. and shipments of 308,000 bu. last year.

Primary corn receipts were 1,714,000 bu. and shipments 1,289,000 bu., against receipts of 1,101,000 bu. and shipments of 356,000 bu. last year.

Primary onts receipts were 648,000 bu. and shipments 1,133,000 bu., against receipts of 781,000 bu. and shipments of 700,000 bu. last year.

CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Features of the Trading and Closing Prices on Board of Trade:

CHICAGO, Jan. 6.—Belief prevailed today with a majority of wheat traders that at least a temporary reaction was due after the sudden big advance during the last few Cays. Accordingly the market averaged decidedly lower than for the preceding session and although unsettled at the finish closed like to 156214c under last night. Other leading staples, too, all showed a setback—corn \$425c to 5cc oats \$5c and provisions 75c to 15075c.

Desire to realize on holdings rather than to undertake fresh commitments at present was evident from the outset in the wheat pit. Even exporters were said

present was evident from the outset in the wheat pit. Even exporters were said to be reselling in a limited way where a good profit was to be had at once, and there was difficulty in obtaining immediate ocean freight room.

Numerous railles took place in the wheat market, but quotations here at no time succeeded in equalling yesterday's top level. As a rule, country dealers and farmors remained steadfast in demanding higher prices, and millers were active buyers, but the aggregate amount taken by foreigners anywhere in the United, States today was said not to exceed 500,-000 hushels.

Corn acted heavy in sympathy with wheat Shipping sales were not of encouraging volume and there were larger rural offerings.

Oats merely reflected the course of other cereals. The bulk of the trade was local, there were active by grain

local,
Provisions sagged, influenced by grain
and hogs and packers led the selling.

Sunday.

CATTLE—Receipts this morning numbered 182 cars. The average quality of the receipts was far from good, there being a big surplus of trash. The total receipts for the three days this week foot up 18.711 head, being the largest of any similar period since inree weeks ago, and larger than a year ago by 1,000 head.

Considering the total number of cattle in the yards, the offerings of beef steers were really very moderate, while strictly good beeves were very soarce. There was a very fair buying demand, so that while the market opened slow, the desirable cattle changed hands in very fair season at prices not materially different from those paid yesterday. Common and inferior grades were slow and weak to possibly a little lower in some apots.

Cows and helfers did not show much hange as compared with yesterday, prices as a rule being quosan about steady. While the market was not exactly what might be quoted active there was a reasonable movement so that pretty much everything was disposed or by miuday.

Good, fleshy feeders were sought after

might be quoted active there was a set lb.

so generous, the trade opened out to fatt shape, and a number of sales were made on the early rounds that looked to be strong to in some cases a nickel higher than yesterday's average. This did nuc last very long, however, and before any great number of hogs had been sold bids had weakened until they were no more than steady. From this time on the trade was very duil, as seliers were trying to get back to early prices, but the market moved along slowif until most of the hogs were sold at prices that were about steady. Toward the close values weakened again, and some of the last sales were hardly as good as Tuesday's general market, there being a number of loads still unsold at the time of closing this report.

The average market was little better than steady. Bulk of the supply again sold at 7,0027.05, with a top of \$7.15, the bighest price that has been paid so far this week. For the three days prices show a net decline of close to like.

SHEEP—it was a good, active market on sheep and lambs, with prices steady to strong all around, notwithstanding the arrival of a liberal run for a Wednesday amounting to 18,300 head, compared with 10,448 a week ago and 2,533 on they corresponding day a year ago. Chicago was reported as having \$5,000 head, with trade slow and weak. Aged sheep, which consisted largely of fed western sweak, were scarce compared with yesterday, consequently moved first with a range of prices at \$6,002,55. The quality and condition of the offerings were not as good, some of them being a little wet because of the rain. As lambs were more plentiful, the demand was not as urgent. A spread of 18,602,60 caught the bulk of the fed western lambs, with a shipment of fed Mexican offerings making a top of \$2,60.

It was a fairly satisfactory market from a seller's viewpoint, as the feeling to the trade has improved since the close of last week in spite of the fact that some 46,02 heads of sheep, which consisted to a feeder buyer on today's market at \$1,160,160, yearlings, fair to good. \$7,002,160, yearlings

Bank Clearings.

OMAHA. Jan. 8.—Bank clearings for Omaha tony were \$2,606,146.28, and for the corresponding day last year \$3,866,026.76.

NEW YORK, Jan. 6.—The local stock market again proved its independence today by making further though uneven progress iowards betterment, regardless of the London market, where the American list evinced greater heaviness. Canadian Pacific, Southern Pacific and St. Paul were the mest backward features of the foreign market, but Pennsylvania and New York Central also manifested selling pressure.

firmness after a further irregular deciline.

Light was thrown on the recent transfer of \$2,000,000 gold from the assay office by the announcement that the metal had been deposited at one of the leading National banks to the credit of the Bank of France. Other news bearing upon the foreign situation included reduced discounts by the national banks of Denmark and Sweden. London's own markets were steady, with some broadening of operations.

Bonds were irregular, with wide decilines in some vulnerable issues.

United States government bonds were unchanged on call.

Number of saies and leading quotations on stocks today were:

Sales, High, Lew, Close.
