From the manner in which the larger millers have been purchasing wheat in the Chicago market several days they are the Chicago market several days they are becoming uneasy as to immediate supplies of that grain. According to reports received yesterday Minneapolis miliers have begun to take apring wheat out of store and already have received most of the winter wheat purchased in the southwest. The sales at Buffalt of cash wheat were two round lots from carsoos afloat there which were held for winter storage. The seaboard reported a good business late in the day on foreign account.

CHICAGO, Jan 7.—Wheat advanced excitedly in the last hour today. European buying that had again become rampant, was the force under the market. There was a strong close at 1% 22 c above last Coffee Market.

NEW YORK, Jan. 7.—The coffee market showed continued firmness today on Wall Street and trade buying, part of which was believed to be for foreign account through houses with cotton exchange connections. Festerday's bullish visible supply statement, and the continued steadiness in Brazil seemed the factors on the advance, in connection with talk of an improved demand from domestic reasters after the recent period of inactivity. Futures opened at an advance of a to 3 points and closed at a net advance of 5 to 11 points. Sales, 31,750 bags. Spot coffee steady; Rie No. 7, 75c; Santos No. 4, 85c. Coffee Market. was the force under the market. There was a strong close at 1%224c above last night. Corn rose, %64c to 4c net and outs %24c to 1614c. In provisions the finish varied from 5c decline to an upturn of 2465c.

Unconfirmed rumors of an expected spread of the war zone accompanied the swift ascent of wheat. Attention, however, chiefly centered on the fact that export sales had suddenly expanded, reaching a total of nearly 2,00,000 bushels since yesterday. This circumstance alone was said to justify the flurry which before being checked tossed quotations to \$1.336 for May, figures surpassing by a full cent a bushel the crest attained on the astonishing upward whiri.

Italy and Roumania were the countries mentioned as likely soon to be included in the war and it could not be denied that much of the wheat bought today was scheduled for shipment to Italy. Duluth reported a sale of durum wheat to Italy at \$1.994, delivered across the sea. Domestic miliers were said to be eagerly after cash wheat in all directions. Export demand lifted corn and oats as well as wheat. Foreign sales here included 500,000 bushels of corn and 1,500,000 bushels of cats. The European buying, however, did not manifest itself until corn had been depressed as a result of the hig stocks and liberal receipts here and until oats had dropped in sympathy.

Provisions averaged lower undeer pressure of selling, led by a Milwaukee packer, His efforts were interfered with by the grafin bulge.

BETHLEHEM STEEL GCES UP

lays stock market was mainly in the special class of securities. This embraced Bethlehem Steel, which rose to a new high price to the accompaniment of dividend rumors; American Can, whose carnings are said to be very large; Westinghouse Electric, International Harvester (atthough there was an abrupt deciling to its minimum by the atock of the foreign corporation) and several of the newly listed automobile shares.

Favorite railway stocks were under pressure for the greater part of the session, likewise United States Steel, which was again offered for foreign interests according to board room gossip. In the final hour, however, and to the accompaniment of more activity than has recently been shown, the whole list broadened and advanced, with numerous net gains of to over 3 points. The short interest is some of the more speculative issues hur riedly covered their commitments, is many limitances a considerable loss.

By far the most interesting development of the day was another decline in exchange on London, bringing the quotation down to \$4.83%, the lowest price sinc. October, 1807, at which time a stock market panic was prevailing and New York banks had decided to issue loan certificates. Despite this abnormal situation, bankers today expressed doubt that any of the gold recently shipped to Ottower and the decline lay in the wast inprovement shown by this country's foreign trade.

Small dealings continued in the Immediate future. Apart from technical consideration, it was agreed that the chief cause of the decline lay in the wast improvement shown by this country's foreign trade.

Small dealings continued in the London market, but high grade issues were steady. Payment of a large installment of the new war loan was made without monetary strain. The Bank of England lost slightly more than \$2,00,000 grid during the week and its Hability reserves aboved some reduction.

This local market for bonds was irregular, with wide fluctuations in misny issues. Total sales, par value, were shown of a leasure flucture and st

Washington Affairs

A \$110,000,000 balance of trade in favor of the United States on December's foreign business was the preliminary estimate of the Department of Commerce.

No action was taken by the senate foreign relations committee on the pending treaty to pay Colombia \$25,000,000 for the Panama canal sone and seme members declared the convention probably would not be considered at this session.

Until the northern states have cleaned up their barrooms, vice dens and Sunday theaters they have no right to complain that children under 15 years are permitted to work in the cotton mills of the south. This view was set forth by David Clark, a Charlotte, N. C., editor, before the eleventh annual conference on child labor.

Determined efforts whi be made today by administration leaders of the senate to get the government ship purchase bill actually before the senate for general debate. That every parliamentary expedient to delay consideration of the measure will be used was demonstrated yesterday by republican opposents of the measure.

OPENHAGEN, Jan. T.—(Via London.)

—A special dispatch to the National Tidende from Constantinople says the former German cruiser Goeben, which now files the Turkish flag, struck two Russian mines in the neighborhood of the Bosphorus and was seriously damaged. It has two big holes on its water line and it will take two or three months to repair it.

This fact, the dispatch adds, has been kept secret from the people of Constantinople.
