PUSH SUPREME COURT WORK

Judiciary Committee of House Considering Bills Relating to This Matter.

LAWYERS WILL SOON MEET

(From a Staff Correspondent.) LINCOLN, Jan. 18.—(Special.)—Bills to expedite business before the supreme court are being taken up by Chairman Parrott of the judiciary committee of the house, in which he is being assisted by Representative Richmond of Douglas county.

Richmond says that the idea is to call a meeting of some of the best legal talent in the state with the judiciary committee to see if legislation cannot be agreed on which will simplify the methods of legal procedure.

Bills already have been introduced covering the matter to some extent, a bill empowering the supreme court judge to call in district judges to assist the court in disposing of cases being the most important.

NEW YORK, Jan. 18.—Samuel Untermyer, the first witness questioned by Chairman Walsh at the opening of the federal industrial relations commission's hearing here today, discussed socialism and socialist charity at some length.

The latter, he asserted, was necessary if the people were to receive relief. The large charitable foundations, Mr. Untermyer thought, were badly managed and did much good, but should operate under federal rather than state charters.

Speaking of the concentration of money, Mr. Untermyer said he knew of a banking interest which, through the reorganization of insolvent railroads, had come into the control of 100,000 miles of railroads in the United States.

When such a situation exists, the witness said, the shareholders have no power at all in the management of the roads; the directors and trustees were controlled entirely by the banks.

"The concentration of power and capital of any kind is grossly unfair to labor," Mr. Walsh questioned Mr. Untermyer about the Colorado Fuel and Iron company.

"It has been testified," the commissioner said, "that a certain large financial interest did not control the company because it only held 40 per cent of the stock."

"That is preposterous," replied the witness. "The stock is listed on the exchange and many shares are in the hands of brokers. It would be necessary for a large financial interest to have but 10 per cent of the stock. When it wants to do anything with the corporation it just sends around to the brokers and gets the proxies."

Snow Causes Fire Burning Oil Rig

BASIN, Wyo., Jan. 18.—(Special Telegram.)—A rig belonging to the Big Horn Drilling company, operating for the Greybull Oil company on its Jackson holdings, east of Basin, was burned to the ground at a loss of \$5,000.

This rig was busy cleaning a well which was shot with nitro-glycerine. When shot the well did not make an exceptional flow, but the next morning it flowed at two different times, the oil gushing higher than the first flow. This oil had accumulated in a lake near the well where 300 barrels of oil took fire and was also destroyed.

PANAMA CANAL WORKERS WILL HAVE TO PAY RENT

WASHINGTON, Jan. 18.—Under a presidential order made public today, employees of the Panama canal and the Panama Railroad company on the isthmus of Panama will have to pay rent and buy their fuel and electric current from the Panama Canal zone.

Heretofore these things have been supplied by the government free of cost.

Negro Lynched

HUNTSVILLE, Ala., Jan. 18.—(Herald Dispatch.)—A negro, said to have shot Arthur Craft, a white man, was lynched at Taylorville, Ala., near here, late today.

BANKS CONTROL BIG CORPORATIONS

Samuel Untermyer Discusses High Finance in Inquiry Into Methods of Foundations.

VICTIMS LIVE FOR FIVE DAYS UNDER DEBRIS OF RUINS

(Continued from Page One.)

corner of the room in which she was sleeping.

Women Dig Out Girl. Another rescue of the kind, made by women, also is reported. The mother it seems had escaped and believed that her daughter must be alive under the fragments of their house. She organized a party of women and herself stimulated them to continue what seemed a hopeless excavation in nothing but a heap of irregular pieces of limestone.

The mother on Sunday heard a voice just beneath where the women were working, and they finally reached the young woman, who was roofed in and protected by two parts of walls forming an angle. One foot was held under a

block of stone, but otherwise the young woman was unhurt. She had been without food or drink for four days and had been nearly suffocated by the dust of the pulverized mortar, which sifted down through crevices while the women were trying to reach her.
