PLANS FOR NEW HOSPITAL

Architects Appear Before the Board of Control with Specifications for Building.

NEW BILLS INTRODUCED

(From a Staff Correspondent.) LINCOLN, Jan. 25.—(Special.)—Architects were before the State Board of Control today with plans for the new hospital building to be erected at Kearney as a part of the plant of the state tuberculosis hospital.

The cost of the building is estimated at \$40,000, although it may run \$50,000 higher. The contract is to be let at once and work started as soon as possible.

Against "Gump" Guns. Proposed legislation against the use of automatic and pump shotguns in the hunting of game has aroused the arms and ammunition companies.

Other lobbyists who filed today were W. A. Jones of Falls City, representing the American Federation of Labor, and Thomas Boston of Lincoln, representing the Fullman company.

To Change Obsolete Law. The repeal of an old law that has been on the statute books apparently since the time the state offices were administered in tents, requiring the state auditor to furnish the state treasurer with all supplies, is aimed at in a bill that Auditor Smith desires to have introduced in the house.

The state treasurer is now furnished with all his office supplies by the State Board of Educational Lands and Buildings, under whose jurisdiction the state house is.

Reduces Fine of Books. The towering piles of the reports of state officers that now fill the state house basement and in due time feed the hungry maws of the furnace in the state's heating plant, at the same time eating up the public funds in the cost of their printing, will be greatly reduced if Auditor Smith has his way.

A bill that the latter is sponsoring and which will probably become a part of the legislative grid from the house and within a day or two, proposes that the number of the reports of the auditor required printed be reduced from 1,000 to 600 and that the reports of all other state officers be reduced to 500. The auditor is given an extra 100 copies on the strength of information furnished by the state librarian to the effect that that report is the most in demand.

The reform is part of the program along that line proposed by the governor in his message.

Father Rees was tendered a farewell reception at the opera house previous to his departure.

Mrs. Frank Dvorak, who lived south of here many years, died at the Beatrice hospital, where she had been taken for treatment. She was 41 years of age and leaves a family of grown children.

Man Buried in Sand Pit. BEATRICE, Neb., Jan. 25.—(Special.)—Shelton C. Clark of South Beatrice was buried in a sand pit northeast of the city Saturday evening for nearly an hour before being rescued. He was found by his son Fred, who returned from town, where he had delivered a load of sand, and after being removed from the pit was hurried to the Lutheran hospital, where it was found that his left hip had been fractured. He suffered considerably as a result of the exposure.

Bennett Is Manager. HASTINGS, Neb., Jan. 25.—(Special Telegram.)—Leonard Bennett today accepted terms offered him to serve the third season as manager of the Hastings state league baseball team. He will begin at once the reorganization of the team. First of all, he faces the task of getting practically an entirely new pitching staff.

Wouldn't it bring home to you very forcibly, the fact that coffee is not a food but a drug?

Caffeine is a cause of indigestion, heart trouble, nervousness, constipation and kindred ills. Some persons are strong enough to drink coffee without immediate harm, but many others are not.

Anyone can avoid risking health by a change to
