

### Nebraska FIREMEN'S BILL STILL LIVES Attempt to Postpone and to Strike Out Provision for Property Fails of Passage.

**VOLUNTEERS DEMANDING BILL**  
(From a Staff Correspondent.)  
LINCOLN, Jan. 25.—(Special.)—An attempt of Trumble to have indefinitely postponed H. R. 2252 was unsuccessful in the lower house today. The bill limits membership of engine, hose and fire companies to twenty-five and requires companies to have a certain amount of property. The discussion was brought on by an amendment of Dafoe which was adopted.  
This was done over the strenuous protest of the bill's introducers, Messrs. Foster and Harris, and also by Messrs. Nichols and Broome. The vote on adoption of the amendment was 40 to 25, afterward a proposal to require ten years' service in a volunteer fire department, instead of five years, to secure benefit of exemptions from military and jury service and payment of poll tax was rejected, 33 to 25.

Mr. Trumble, after complaining that the bill was unfair to the farmers, attempted to have it indefinitely postponed, but only thirteen votes were cast in favor of this motion. The committee of the whole arose and reported progress without taking final action on the bill; its supporters will try to obtain a reconsideration on the Dafoe amendments.  
During the discussion Mr. Broome asserted that 75,000 volunteer firemen of Nebraska are demanding the passage of the bill in the form it was introduced. This Mr. Dafoe retorted that the president of the fire department in Mr. Broome's home town, Alliance, had agreed to its statements, and that fire commissioner Hedges, who is also from Alliance, was satisfied with them.  
A little later Mr. Trumble spoke against the bill because the exemption from poll tax takes money out of the road fund. He estimated that exemptions for 75,000 firemen in twenty-six years, the average period of service, would mean a total loss of \$4,500,000 to the road funds of the various counties.  
"Let the cities and towns pay for their fire protection," was his plea, "and let us stick it into the farmers every time we get a chance."

Mrs. Loyal had received several hundred dollars earlier in the day from the sale of some property and the thief evidently was acquainted with this fact. The money happened to be in the form of a check, it was found on the floor by Mrs. Loyal, where it had been dropped by the intruder, upon discovering that it was valueless to him. Nothing was taken from the house.  
Mrs. Loyal immediately called Marshal Lindquist, who telephoned to Beatrice for bloodhounds. The dogs arrived Sunday night about 9 o'clock and were immediately put on the trail and picked up the scent at once following it to a house about three blocks distant. The dogs were then taken back to the Loyal home, where they were again put on the trail. They proceeded over exactly the same course.

### Nebraska Scott's Bluff-Sugar Factory Turns Out Half Million Bags

SCOTT'S BLUFF, Neb., Jan. 25.—(Special.)—The sugar factory closed up the job of slicing beets at 2 o'clock Monday, finishing the biggest crop of the beet beet ever grown in the North Platte valley of Nebraska. As is usual on such occasions the factory whistle is blown for a half hour. Manager Simmons says that in many ways this has been the most satisfactory year since the factory was established.  
One million, four hundred thousand dollars was paid to the beet growers of the Scott's Bluff country. Two hundred and ten thousand tons were sliced at the Scott's Bluff factory, and about 40,000 taken to other factories. The campaign has lasted 117 days of twenty-four hours each, and 700 men have been employed in the mill. After a short rest the greater part of these will go to the beet fields for the summer.  
The crop grown in this vicinity for 1914 is the largest grown under any one supervision in the United States the last season, and there was less waste acreage; the beets were better taken care of, the tonnage per acre was larger and the sugar content better than any previous year. The total output, which exceeds 500,000 bags, will fill 1,000 freight cars.

### FEELING AFFECTS MARKET Psychology Has Direct Bearing on Prices of Grain, Says James A. Patten.

**PROBLEM, DEMAND AND SUPPLY**  
CHICAGO, Jan. 25.—Optimism and pessimism have a direct bearing on the price of grain, according to James A. Patten, veteran grain dealer and Board of Trade leader, testifying today in the government suit for the dissolution of the "call committee" of the Board of Trade.  
The government's contention in the suit was that the committee arbitrarily fixed grain prices.  
The chief feature in fixing prices, Patten testified, was the problem of supply and demand.  
"There are other causes beside supply and demand," said Mr. Patten. "Take for instance in the years 1913 to 1916, the entire country was in pessimistic state of mind. If the people feel well and sleep well at night they will be in an optimistic state of mind. They will be more willing to look at things in an optimistic way. Consequently prices will be good. In 1913 to 1916 the prices all over the country were in a very poor state."  
"Give us your best judgment as to the amount of speculative buying on the Board of Trade here as compared with the actual transactions?" asked the assistant attorney general.  
"That would be almost impossible," replied the witness. "For instance the corn market at present is moving very freely. The merchants in Duluth are collecting a large supply from all over the country. They are storing it there and will put it on the Chicago Board of Trade next spring. Not a single car, I venture to say, will be shipped to Chicago. They are buying the corn now at a price 7 cents beneath what the price will be in May. These prices must come together. They always do. They will either sell the corn through the Board of Trade for eastern consumption or for export. They are not greatly concerned as to whether the price rises beyond the 7 cents or not. Seven cents will cover the interest and storage charges until May. Their chief aim is to avoid a decline."  
"I do not call that speculation," continued Mr. Patten. "That is legitimate business."
