#### CORN SENTIMENT IS BEARISH

OMAHA, Feb. C. 1915. Wheat prices have reached a point at which careful speculators are taking profits and country holders are showing more anxiety to cash the grain. Prices are so high that many of the big commission houses are advising caution in buying all grains. They say it is well to remember that this is a war market and sharp fluctuations over a wide range are in order at all times.

Sentiment in corn has become more bearish, and even some of the staunchest buils have stepped aside in the last few days and let the market take its course.

CHICAGO GRAIN AND PROVISIONS

Prices on Board of Trade.

CHICAGO, Feb. 6.—Decided failing off in export call from Great Britain and france resulted here today in fishered eliting of wheat. The market, although eliting of wheat. The market, although eliting of wheat in the though was the collection of the under last night. Other leading stapies, too, all finished at a net decime corn, the the to be at the corn, the the to be at the corn, the the to the corn, the the to the corn, where traders, uneasy in regard to the market effect of a threatened submarine shockade of British ports, were rendered at the carried and the corn and the corn dispatches from

bring about comparative firmness in the last hour.

Corn fell with wheat and suffered throughout the day as a result of the alowness of cash inquiry, domestic as well as foreign. Numerous reports from Illinois points said feading of corn at present was unprofitable. Idquidating sales by miscellaneous holders formed the rule in eats. Weakness was held comewhat in check by assertions that export business had not entirely ceased. Large receipts of hours accord as a weight on provisions; besides, the market was flundicapped by the break in grain. Grain prices furnished by Logan & Bryan, office all South Sixteosith street.
