

QUARANTINE UPON EAST RIVER STOCK

Nebraska Live Stock Sanitary Board Takes Measures to Guard Against Hoof and Mouth Disease.

IN EFFECT FOR ONE MONTH

Vigorous measures to protect Nebraska cattle against the hoof and mouth disease were adopted Monday night by the Nebraska Live Stock Sanitary board, which, at a meeting held in the Paxton hotel, decided that from February 10 until March 10 at a state of quarantine will be in effect against all states east of the Missouri river.

No further restriction was placed on any of the states west of the Missouri than that now in effect except for Kansas and South Dakota.

Only fat stock for immediate butchering is to be excepted from the embargo.

The board, composed of President J. H. Bulla, F. C. Crocker, H. J. Pritchard, Alex Burr, State Veterinarian J. S. Anderson and L. C. Kigin, outgoing state veterinarian, adopted the measure following the suggestion made in the form of a resolution by members of the Nebraska Stock Growers' association.

Statement at Stinson.

The following is the resolution presented to the board:

Whereas, We, representing live stock and business interests of the state of Nebraska, consider there is grave danger that the foot and mouth disease will spread into the state of Nebraska and obtain a still stronger foothold in other states west of the Missouri river, unless prompt and drastic measures are adopted by state authorities to protect their respective states and interests;

Whereas, The spread of this disease to the west would spell ruin to the live stock interests and greatly impair the credit of the entire west; and

Whereas, We consider the permanent welfare of the state far above any temporary advantage to be gained by trafficking in live stock from east of the Missouri river; therefore

We hereby earnestly petition your honorable body to establish a quarantine against all cattle, sheep and hogs coming into the state of Nebraska from all territory east of the Missouri river, except for immediate slaughter, and make said quarantine effective as soon as possible.

And further to exert the full measure of your authority toward requiring the stock yards companies within the state to maintain separate divisions for said stock, thereby preserving its identity, and to take such protective measures as in the judgment of said Sanitary board may be necessary to insure against the spread of the plague, co-operating with the Federal authorities at all times.

And we further petition your honorable body to put into immediate effect a similar quarantine against the states of Kansas and South Dakota.

Those Behind Move.

The resolution as presented to the board was signed by W. T. Auld, L. Drake, E. J. Burke and F. H. Davis of Omaha; Platte Valley Cattle company, Gothenburg; Hord & Shonay Cattle company and J. S. Campbell, Clark; L. C. Munser, Rushville; Lynch & Rock, Hyannis; J. A. Olla, Ord; J. M. Kilpatrick, Beatrice; E. D. Gould, Kearney; J. P. Campbell, T. B. Ford Land and Cattle company, Lake-side Ranch company, Heber Ford, George E. Locke, Central City; Kent & Burke company, Genoa; R. A. Templeton, Tekamah.

Tremendous Snow Drifts Tunneled; Lines Just Opened

GRAND ISLAND, Neb., Feb. 9.—(Special.)—Traffic on the Ord branch of the Union Pacific was restored this morning after an interruption of service of most a week. Snow difficulties occasioned by the first storm of January 21 were doubled and tripled on Friday and Saturday by what is termed a "whiteline" or "local" blizzard. Traffic on the St. Paul-Loup City line is not yet open. Superintendent Cahill is himself on the job with several hundred men and a snowplow. "I have never seen anything like it," reports the superintendent.

On Thursday dense, black clouds, representing those yielding cloudbursts and tornadoes in summer, appeared, and soon the air was filled with falling snow. One could not see fifty feet ahead. All day long and all of Friday it continued snowing briskly. On Saturday the fall diminished and ceased, and the work of clearing the way was begun. A remarkable feature of the storm was that, excepting on Thursday, when there was light snow here, but thirty miles away, during all of the time, the skies were clear at Grand Island.

Between St. Paul and Ord one drift of several hundred feet in length measured eighteen feet in depth, and near Dannebrog, which village was reached at 3 o'clock this morning, from St. Paul, a drift of twenty-five feet in depth was tunneled. Moreover the drifts were sufficiently packed by the heavy snow as to throw the snow plow and engine off the track. The thermometer at no time was below twenty-five degrees.

SENATE ACTION MEANS NO UNDERTHICK LUMBER

(From a Staff Correspondent.)

LINCOLN, Feb. 9.—(Special Telegram.)—Senator Buhman's bill, S. F. 92 providing for the standardization of lumber and placing the same under the jurisdiction of the state food commissioner was recommended for passage.

After Measles Whooping Cough or Scarlet Fever

the extreme weakness often results in impaired hearing, weakened eyesight, bronchitis and other troubles. But if Scott's Emulsion is given promptly, it carries strength to the organs and creates rich blood to build up the depleted forces.

Children thrive on Scott's Emulsion. It is Free from Alcohol.

PROJECTILES SET FIRE TO SOISSONS GREAT BATTLES ON TWO EAST WINGS

French Official Report Tells of Artillery Battles at Many Points in France and Belgium.

YPRES AND FURNES BOMBARDED

PARIS, Feb. 9.—The report on the progress of the war, given out this afternoon by the French war office, follows:

"In Belgium yesterday there were intermittent artillery exchanges and Ypres and Furnes were bombarded. The Belgian artillery destroyed a farm, the defenders of which fled.

"On the road near Le Bassee we occupied a mill where the enemy had succeeded in installing himself.

"Soissons was bombarded with projectiles, the purpose of which was to set the city on fire. On all the Aisne front and in Champagne our artillery effectively engaged the batteries of the enemy.

"In the Argonne the fight which has developed around Eslette continued yesterday in one of the most dense parts of the forest and consequently became quite confused. Each side, generally speaking, was successful in maintaining its lines. The men engaged in this fight February 7 did not exceed three or four battalions on each side. During yesterday only one French battalion was engaged.

"In Loraine and in the Vosges yesterday saw artillery engagements."

Watertown Meets Defeat in Effort To Get Hospital

PIERRE, S. D., Feb. 9.—(Special Telegram.)—Again Watertown has met defeat in the effort to get an appropriation to start improvements on a new hospital for the insane at that place under the act of 1906, which located such an institution at the Lake City of the state. Ever since that date the first appropriation has been asked for at the seasons as they go along. While the boosters for Watertown have been able to get a majority each season, they have never been able to get up to the required two-thirds to pass an appropriation, and for the third time they have failed to get the cash to start work.

The effort on the part of Green of Bonhomme to allow Sunday base ball in the state by a new Sunday observance act failed.

The bill giving to women of the state the right of municipal suffrage was placed on the calendar, and when called just before adjournment was put over to Tuesday of next week as a special order. Every effort will be made by the supporters to get a two-thirds vote for the measure to prevent the referendum being applied to it.

The senate this afternoon finally disposed of the house bill to abolish the State Highway commission, and while there is yet a senate bill in existence to accomplish the same purpose, the chances are that the commission will remain without further serious effort to push the senate measure.

Turkish Invaders of Egypt Are in Retreat

LONDON, Feb. 9.—The official press bureau has made public an official dispatch from Cairo, which states that the Turkish army is in full retreat eastward. There are no enemy forces within twenty miles of the Suez canal, the dispatch says, except small retiring rear guards.

How Mrs. Harrod Got Rid of Her Stomach Trouble.

"I suffered with stomach trouble for years and tried everything I heard of, but the only relief I got was temporary until last spring I saw Chamberlain's Tablets advertised and procured a bottle of them at our drug store. I got immediate relief from that dreadful heaviness after eating food from pain in the stomach," writes Mrs. Linda Harrod, Fort Wayne, Ind. Obtainable everywhere.—Advertisement.

HALE HOLDEN SEES BRIGHTER FUTURE

President of Burlington Lines Most Optimistic After Trip Over Western Lines.

WEST IS THE BRIGHT SPOT

Completing a swing through a large portion of the country tributary to the lines of the northern part of the system, President Hale Holden and Vice President Byram of the Burlington were in Omaha a greater portion of the day, enroute home to Chicago. They came in from Sioux City, and while here called on a number of the railroad men of the city. Said President Holden:

"Business in the west is showing signs of improvement, especially that portion west of the Missouri river. When I speak of improvement, I mean in comparison with the corresponding period of one year ago. There has been a heavy movement of grain, no doubt caused to some extent by the high prices and the foreign demand for American breadstuffs. This movement has brought large sums of money into the agricultural districts, where it is distributed among a large number of people.

See Large Increase.

"While it is too early to predict a crop for the coming season, right now everything points to a large acreage and a good yield. There has been an abundance of snow through the wheat belt and when it melts it ought to leave the ground in perfect condition for the growing crop.

"While I don't look for much railroad building next season, owing to inability to secure funds, there will probably be something done in the way of going on with work that has been under consideration. Right now the Burlington has a large force of men working on the Guernsey cut-off and construction will be pushed as rapidly as possible. This cut-off ought to prove of great benefit to Omaha and Nebraska, generally. It means a short line to Wyoming and the northwest. It will enable the jobbing interests of this section to get into a new field and it will give the Wyoming business men and live stock raisers an opportunity to reach the Missouri river markets.

"As to the building of the line from Kearney, up the Platte river to the northwest, it is not likely that anything will be done during the coming season. However, we hope to go on and finish the Chalco cut-off, thus enabling Omaha to secure another close connection with the northern part of Nebraska.

"Throughout the east there has been no pronounced general betterment in business conditions, but there is a better feeling and the people are feeling much more optimistic than they did a few months ago.

"As I have remarked many times, the central west is the bright spot on the map and the roads are looking to it for the business in the near future."

Teacher Must Love Profession, Asserts Princeton Educator

"The prerequisites of a teacher are a natural gift and a training. No one should be a teacher who does not love the act of teaching," declared Dean Andrew F. West of the graduate school of Princeton university, speaking yesterday afternoon to the public school teachers at the auditorium of Central High school.

The speaker emphasized the importance of teaching the young how to speak English so it will not sound like a dialect and also to teach them to speak so they may express their thought clearly and concisely.

"It is to the interest of the country to have as many well educated and trained men and women as possible. There should be many educational opportunities for those who can go beyond the primary education. Our high schools should not be conducted merely with the thought that the educational careers of the attendants are closed when they leave these schools," said the Princeton man.

He said that the per cent of college men in commercial and professional circles is increasing every year. Only 1 per cent of graduates, he said, go to colleges.

All Members of the Arizona Legislature Must Be Vaccinated

PHOENIX, Ariz., Feb. 9.—Wholesale vaccination of members of the Arizona legislature here is prescribed by the city health authorities as protection against an epidemic of smallpox among the legislators.

Samuel Briscoe, member of the house from Cochise county, was taken to the county pesthouse outside the city today. Nearly all members of the house have called on him during his illness, which was not diagnosed as smallpox until today. Briscoe's roommate, W. D. Claypool of Gila county is still attending sessions of the house.

W. D. Sims, president of the senate, had himself vaccinated today and he announced from the chair that unless all members of the legislature took the same precaution a quarantine of the legislature probably would be established.

CALLED TO SIOUX CITY BY DEATH OF HIS SISTER

Frank Wirthafter has been called to Sioux City by the death of his only sister, Mrs. Max Hill. She had been seriously ill for some time with a nervous breakdown, which was supposed to have resulted from the excitement of the war. Mrs. Hill was in Austria-Hungary with her husband when the war broke out, and they had difficulty in getting out of the country and also underwent hardships on the return voyage, as well as suffering from the nervous strain.

Why "No Coffee" For Children?

Many parents who drink coffee would not allow their children to touch it.

The 3/4 grains of the drug, caffeine, in the average cup of coffee, is far more injurious to the susceptible nature of a child than to an adult, but, just as constant dripping will wear away stone, so will the repeated doses of caffeine undermine the strongest constitution.

Parents who would protect their own health as they do that of their children, will see the reason for quitting coffee and using

POSTUM

This pure food-drink contains nothing that is harmful or injurious, but is, on the contrary, healthful and invigorating.

Postum is easy to make; has a delightful snappy flavor, very much like Old Gov't Java; and is good for both children and adults.

Postum is sold in two forms—Regular Postum, which requires boiling, 15c and 35c packages; Instant Postum, which is soluble in hot water—made instantly in the cup, 30c and 50c tins.

Both kinds are equally delicious, and the cost per cup about the same.

"There's a Reason" for POSTUM

—sold by Grocers everywhere.

Catarrh of Kidneys Cured By Peruna

"I had Catarrh of the Kidneys and Bladder. I Am Very Thankful For Peruna. I Feel Well, My tongue is clear, I have no bitter taste in my mouth. I am glad to say I do not need Peruna any longer, I am perfectly well. I have Peruna in the house all the time. When I have a cold or when I do not feel well I take Peruna. We were all sick with the grip last winter. We took Peruna and it helped us. Peruna is the best medicine for grip or colds."

Mrs. Gus. H. Carlson, Box 201, Ortonville, Minn.

HOW SHE ENDED TEN YEARS OF SKIN-TROUBLE

Oct. 23, 1914—"I had eczema on my face for ten years. Little red pimples formed in a small spot on my chin and then spread all over my face. They itched and burned me awfully. It was certainly embarrassing to me, and I would not go amongst people. I tried almost every remedy and treatment that could be used for this trouble, but nothing did me any good. I used Resinol Ointment and Resinol Soap, and was relieved in a day or two. In one month I was cured. This was six months ago and the trouble has never returned."—(Signed) Mrs. C. C. Roberts, Weatherford, Okla.

Save Time Trouble and Tramping

Most of modern apartment hunting is done from the depths of an easy chair.

There's really no need for the tire-some search—the tramping of stairs and streets—the hours of discouragement.

The easy way is the better way—the way of The Bee Want Ad.

This means simply turning to the Want Ad. section and glancing at the columns headed "Apartments and Flats" and "Houses and Cottages."

There you are very likely to find offered exactly what you want.

If it isn't there today, it will be tomorrow—or the day following. For this is the market place where modern apartment house owners and agents display their wares.

Or, if you haven't time to follow these offerings, there's a ready alternative.

Just say what you're looking for in a little want ad of your own and leave it at The Bee office, or
