in New York for the last year with her cle, Mr. Vance Lane, arrived Tuesday of last week and will be the guest of Miss Engenia Patterson and Miss Ann Gifford Mrs. Robert Lee Hamilton of Lincoln, is

Few Folks Have Gray Hair Now

Well-known local druggist says everybody is using old-time recipe of Sage Tea and Sulphur,

Hair that loses its color and luster, or when it fades, turns gray, dull and lifethe hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.

Newadays we get this famous mixture by asking at any drug store for a 50cent bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. Besides, it takes off dandruff, stops scalp itching and falling hair. You just dampen a sponge or soft brush with it Complimentary to Mrs. George Sunder- and draw this through your hair, taking ing the gray hair disappears; but what delights the ladies with Wyeth's Sage and Suiphur is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and luster and gives it an appearance of

speaker.

SEE the way the Woods rear springs are mounted-an exclusive, patented, important feature of the car These rear springs don't rest on the axle They are mounted on 'I-beam' radius rods a foot forward of the axle.

These radius rods are attached close to the hubs of the wheels and thus relieve the axle of the weight of the car. They also relieve the springs of the braking and driving strain, preventing pitching of the car when starting or stopping suddenly.

What these radius rods do to increase riding comfort is remarkable. Their leverage reduces road shocks 30% before the shocks reach the springs. Then the eight leaf full-elliptic springs take up what's left so the car rides

with unequaled smoothness over any road. This feature of spring suspension is only one of many vitally important details which make the 1915 Woods electric the most comfortable, economical, enduring car you can buy Call or write for catalog which explains them all and illustrates the new bodies.
