Successful Fontenelle

Last week, Thursday, the new hotel opened its doors. Mechanics and artisans were scarcely out of the way when the vanguard of the evening guests were arriving. Practically a week has past and the hotel is an assured success. It has passed the expectations of its most sanguine promoters. It has demonstrated the wisdom of those who invested their time and money and have given to Omaha that which it so conspicuously lacked. There are many who have already been entertained herein who state they know of no better hotel anywhere. There have been reasons for its success—not only the success that comes from supplying a public need in a manner that merits public approval. Money has been liberally expended in furnishing this house as attractively as any hotel between New York and San Francisco. And to these liberal expenditures of money and thought the people of Omaha have responded loyally and liberally. Fair prices, courtesy and hospitality have received a generous recognition. A service has been maintained even in these early days that is seldom found outside the Metropolis. A cuisine unusual has set a new standard in the northwest. Dinner de Luxe tonight at one-fifty the person permits you to know the delights found here alone. Christman's Orchestra of eight pieces will fulfill your best expectations in a rare music treat from six to nine. Better cooking, better service and better music than ever before in town.

"Built for You to Enjoy."
