NEBRASKA ENTERS BIG INDOOR MEET

Seven Members of the University Track Squad Will Compete in Events Here.

WESLEYAN ENTERS RELAY TEAM

Our Reed, manager of athletics at the University of Nebraska, has notified the Omaha Young Men's Christian association that Nebraska will enter Bates, Zumwinkle, Scott, Erwin and Gerinx in the sprints, Anderson in the half-mile run and Clark in the 40-yard dash at the fourth annual indoor athletic meet which will be held at the Auditorium, March 12.

In addition a relay team from the university will battle with a team from Nebraska Wesleyan for the half-mile relay intercollegiate championship of the state. This should be a corking race as Wesleyan and the university have become bitter rivals, especially since Wesleyan has topped the basket ball championship from the Cornhuskers and the latter athletes want revenge.

Gilmore Testifies in Franchise Suit

NEW YORK, March 4.—James Gilmore, president of the Federal League, named in the injunction suit of the Kansas City club, testified today that he felt sure a month ago that the owners of the Kansas City club could not raise the money to keep the franchise from going to Newark or elsewhere.

Omaha Nationals Outplay Secretaries

One of the hardest contested basket ball games played in the Commercial league this season was won by the Omaha National Bank five from the Young Men's Christian association Secretaries in the latter's gymnasium yesterday afternoon, 15 to 14. At the end of the first period the score was 7 to 7. Both teams were a trifle over zealous in their desire for victory which resulted in rather rough playing. The line up:

Willard Says Match is Not Yet Made

EL PASO, Tex., March 10.—Jess Willard arrived today from Los Angeles and declared that as far as he was concerned his match with Jack Johnson at Havana had not been arranged definitely. The matter of finances, he said, has not been adjusted to his satisfaction. It was learned.

Townsend to Play New York Nationals at University Place

The Townsend basket ball squad, which will battle the New York Nationals at the Young Men's Christian association, will also take on the New Yorkers at University Place, Thursday night. The Nationals defeated Nebraska Wesleyan the other night, and as the Townsends also boast a defeat over the collegians by approximately the same score, two hot games may be expected between the two teams.

Fought in the War and That's About All He Knows of It

(Correspondence of the Associated Press.) PARIS, Feb. 17.—How little some soldiers know of the operations in which they take part is shown by the case of Private Morin of Melun, who recently returned home with several wounds. "Where were you fighting?" he was asked. "I don't know." "You don't know in what part of the country you were when you were wounded?" "No. At the time of mobilization I was sent to Bourges. We were loaded into a train. We rode for two days, then marched a day. Then the cannon began to thunder around us. The first day I received a bullet in the thigh, the second day another went through my calf; neither did me any harm, but the third day they caught me on the head. After lying a few hours I was picked up, my wounds dressed, then loaded into a train. "Enroute a surgeon asked me where I came from. 'From Melun,' says I. 'Really,' says he, 'well, here we are precisely at Melun. You may get out here; they'll look after you better than anywhere else,' and here I am. "When I get well I suppose I'll go back where I came from, but where that is I do not know."

Belgians Grateful for American Gifts

(Correspondence of the Associated Press.) LONDON, March 4.—"Everywhere I went there was a cry of 'More, more,'" said James M. Bennett of Roanoke, Va., who has just arrived in London after a honor tour through Belgium to see for himself the manner in which the American relief was being rendered. "Don't think the poor Belgians are ungrateful," he said. "We flew a little Stars and Stripes on our motor and hundreds of women came up and kissed it. Little children fingered it lovingly. In Brussels they are talking of putting up a monument to mark the gratitude of Belgium to America. They are already at work on the design. "I saw a box after a box containing thousands of little letters waiting to go to American children. All of them were quaintly pathetic expressions of thanks from Belgian girls and boys for the Christmas presents sent in the Jason. The children in Antwerp have printed an artistic card, which reads: 'With the cordial thanks of the poor children of Antwerp to their kind-hearted comrades of the United States for their nice Christmas presents.' Undoubtedly are the scrawling little signatures of welps who have seen war. "The Germans are not taking a crumb of the food which the commission is sending in. So far as I could see, the Germans are honestly helping. The work of the commission is wonderful. It's simply clockwork. I didn't dream that anything like it could be set going in so short a time."

CHURCH OF COVENANT TAKES PLACE IN THE LIMELIGHT

The Church of the Covenant five sprang into local prominence last evening when they took the First Methodist Baracas into camp at the University of Omaha gymnasium, 7 to 11. The victory marks the second win for the Covenanters in the Church league this season. The Orr brothers were the luminaries for the Covenanters with Comfort and Price the chief attractions for the Baracas. Lineup:

YORK AFTER THOUSAND TO STAY IN THE LEAGUE

YORK, Neb., March 10.—(Special Telegram.)—The base ball fans of this city met this evening to decide whether York shall remain in the State league. It was a unanimous vote "that we remain in the league if the \$1,000 still lacking to finance the team for the season was raised. "A committee was appointed to raise the money and report the same in a few days.

DELEGATED POWER TO SELL K. C. CLUB

Federal League Gave Executive Committee Right to Dispose of Franchise.

JIM GILMORE IS A WITNESS

CHICAGO, March 10.—Power to dispose of the Kansas Federal league franchise was especially delegated an executive committee by the league at a meeting in New York on January 21, 1914, James A. Gilmore, president of the league, testified today in the injunction proceedings brought by the Kansas City club to restrain the league from selling its franchise to Newark.

Nations Must Learn To Not Go to War, but To Law, Moscheles

(Correspondence of the Associated Press.) LONDON, Feb. 28.—Felix Moscheles, pioneer pacifist, president of the International Arbitration association and senior member of the International Peace bureau, has just celebrated his eighty-second birthday. In an interview with the press on this occasion, he expressed his views on the future of the peace movement as follows: "I still meet people who think the piling up of huge armaments is the only way of keeping peace, although one would imagine that six months of war would have killed that superstition. "Nations must learn to do as individuals, business firms and even large

Cheap Alcohol for Fuel to Run Motors

(Correspondence of the Associated Press.) CHRISTIANIA, Feb. 28.—Seeking independence from the United States in the matter of gasoline supply, Norwegian chemists are trying to produce a cheap alcohol for motor fuel. Already a method has been discovered by a young chemist for utilizing the sulphite lye in the waste from wood pulp and cellulose, which heretofore has run off in sewers, polluting the rivers and poisoning fish. This waste lye, it is found, can be made to produce alcohol at a cost of 35 cents a gallon, as against the price of 55 cents for gasoline. It is said if this process were fully developed Norway could produce 5,000,000 or 6,000,000 gallons of motor alcohol a year, and thus become practically independent of gasoline.

Many Snipers Shot by Sharpshooters

(Correspondence of the Associated Press.) LONDON, March 4.—The annoyance of snipers, to which the British troops have been subject ever since they began operations in France, has now been practically stopped, according to eye-witness accounts from British general headquarters. "The activities of the enemy's snipers," he writes, "have diminished of late owing to the marksmanship of our sharpshooters. These snipers frequently cover themselves with ferns or straw so as to render themselves less easily distinguished when crawling on grass or stubble. At one place on this day (February 3) out of five German snipers who had crawled out in front of their trenches and were trying to annoy us, three were promptly shot dead. At another point one of our marksmen recently accounted for six single-handed. Similar rounding up of snipers by our patrols is taking place on other parts of the front and is an encouraging indication that this nuisance is being effectively dealt with. "He adds two other interesting paragraphs: "A party of our officers had an extraordinary escape on this day. They were on the point of sitting down to dinner in a dug-out when a bomb from a German trench mortar landed in their midst. When the smoke and dust of the explosion cleared away the dinner had completely disappeared, but not a single man was hurt."

Culls from the Wire

grounds in the Gulf of St. Lawrence. The annual meeting of the Mississippi Valley Suffrage conference adjourned after a three days' session at Indianapolis. A "peace meeting" was the feature of the program. Invitations for next year's meeting have been extended by Minneapolis and Dayton and Columbus, O. The program committee will meet at some future date and accept one of these invitations.

Found in the Country, Automobile Traffic Also Has Increased Enormously. Motors are now used for the delivery of even rural mail.

in order, he claimed, to show the condition of unemployment was released from Blackwell's Island today.

Four vessels of the sealing fleet, the steamers Terra Nova, Viking, Erik and Diana, were threatened with damage by the ice pack off St. Johns, but a change of wind tonight enabled them to run the ice blockade. They slipped through lanes between the floes without injury and now are again on their way to the sealing
