## RUSSIANS RAID EAST PRUSSIA

Czar's Army Makes New Dash Along Baltic Sea and Captures City of Nemel.

#### GERMANS ADVANCE IN POLAND

PETROGRAD, March 19 .- (Via London) -The campaign in the east has assumed a new aspect with the penetration of the northernmost point of east Prussia by Russian forces. This invasion in the north in many ways parallels the advance into east Prussia of two months ago, when the Russian Tenth army, which it was thought might flank the German positions near the Mazurian lakes, was defeated and driven out. On this occasion, however, Russian military authorities say unanimously that the invasion does not possess a like strategic significance. The Russian force his penetrated east Prussia to within twelve miles of the important seaport of Memel.

(The official report from Berlin today, evidently based on later information, says that the Russians have entered Memel.)

German Attack Shifts, Of equal importance is the general shifting of directions of the German attack in Poland, accompanied by new concentration of forces which has now become apparent. Although fighting is still in progress to the north of Przasnysz the Germans apparently have abandoned their effort to break through the fortified line in the north and approach Warsaw from that direction. They are transferring troops to the southern bank of the Vistula, presumably in preparation for a resumption of the attack along the front to the west of Warsaw, near the Baura river, where for two months they vainly hammered the strong line of Russian defenses which separates them from the Polish capital. Heavy and continued artillery fire is now under way, marking the beginning of this fresh German move-

Turkish Port Captured. Occupation by the Russians of Archawa, a Turkish port on the Black Sea near the Russian border through which the Turks have been receiving supplies and reinforcements, has caused an important movement in the Caucasian campaign. The Russian victory, together with the continual pounding in the valley of the Toorok river, has caused the Turks to beat a disorderly retreat toward Erzerum, according to telegraphic reports from the Caucasus. The road between Archawa and Choppo to the eastward was defended strongly and the Turks were defeated only after a series of stubborn battles. The Russian advance created a panic throughout the Tchoruk valley and the inhabitants fled to the mountains, abandoning their villages.

Partial Victory in Armenia. In recent fighting in Russian Armenia partial victory over the Turks is claimed here, although mountain heights in the district of Ardanuch are strongly fortified and are still holding out. The Russians are bembarding Turkish positions at Ardanuch. The fortifications were built and the defense is being conducted, it is

reported, by a German officer.

A telegram from Urumiah, Northwesters Persia, says that prior to the evacuation of towns between Juffa and Tabriz the Turks and Kurds who were retreating before the Russian advance, pillaged and burned the villages and put to death some of the inhabitants. At Salmaz, Pagcollected and, according to this message, the Mohammedan faith, were driven into parties and sent to various interior day.

# MARTIAL LAW IS NEEDED IN INDIA

Member of Viceroy's Council Tells Commons Military Authorities Should Be Given Powers.

#### HOLY WAR SHOWING ITS EFFECT

DELHI, India, March 19 .- (Via London.) - Sir Reginald Henry Craddock, member of the viceroy's council, has made declaration that it was necessary to arm the military authoritles with special powers to act in emergencies and ntp in the bud any and all manifestations of lawlessness. This statement was made in connection with the introduction of the defense of India's bill to the governor general's counsel.

Continuing Sir Reginald alluded to the campaign engineered on the Pacific coast of America, whence some deluded men had returned during the last few menths with their minds poisoned and had committed acts of violence in Ben-

Seditions activity was breaking out afresh, the speaker said, but the looting in the western punjab he declared to be largely due to economic causes and racial conflicts between Hindus and Mohammedans. The danger, he said, was only serious if not checked promptly.

Dispatches from Constantinople in Deember said the proclamation of the Mohammedan holy war was beginning to show its effect in India. Revolutionary proclamations were being circulated among native troops, and in Bornbay there had been fatal rioting.

Last year a group of Hindu emigrants were refused permission to land in Canada. Upon landing at Calcutta they indulged in rioting and sixteen of the Hindus were killed.

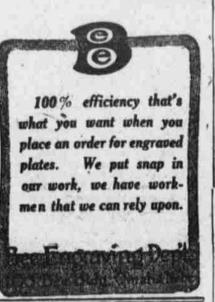

Last month an Indian regiment recolted at Singapore on its way to Egypt. Four hundred of the rebels were killed before order was restored.
