MEXICAN TENANT'S LOT BAD

Such Farmers in Texas Are Worse Off Than in Their Own Country.

LABOR AGENCIES ARE BLAMED

DALLAS, Tex., March 20.—The plight of Mexican tenant farmers in Texas and taxation reforms which might decrease tenantry were discussed today at the land hearing held here by the federal commission on industrial relations.

Mr. Flores blamed employment agencies for part of the Mexican troubles. He said he had known of a few instances when Mexicans were forced to remain on a place by guards armed with shotguns.

Mr. Flores suggested, said Chairman Frank P. Walsh, that store keepers charge 10 per cent in addition to this discount.

CHARLES FRANCIS ADAMS IS DEAD

which planned the metropolitan park system in and about Boston.

Made Few Visits to Omaha. Although president of the Union Pacific from early in 1884 until late in 1900, Charles Francis Adams never spent much of his time along the line.

Maintaining the office of president of the Union Pacific in Boston, Mr. Adams made occasional visits to Omaha and during his incumbency he made trips over the system about once each year.

Mr. Adams' first visit to Omaha after he became president of the road was early in 1884, at which time he was a guest at the Omaha club, where a banquet was given in his honor.

During the incumbency of Charles Francis Adams the operating affairs of the Union Pacific were in the hands of general managers.

While General Manager Potter was in charge of the Union Pacific, President Adams sent out a trainload of college graduates from Boston and New England with instructions that they be given places in the various departments.

Passengers Watch Fight Between a Torpedo Boat and Submarine

NEW YORK, March 20.—Passengers aboard the British steamer Lapland, which reached here today from Liverpool, witnessed a battle in the Irish channel between a British torpedo boat and a submarine.

The Lapland picked up its naval escort outside the entrance to Liverpool harbor. Steamer and convoy were not far from Liverpool when the torpedo boat opened fire.

The raider fired a torpedo at another vessel. Passengers aboard the Lapland watched the progress of the missile through the water and saw that it went wide of its target.

Meantime the torpedo boat's guns had quickened their fire due to a fusillade of shots. The Lapland's captain ordered full speed ahead and the steamer shot forward.

To dodge torpedoes and to afford the submarine a poor target, the Lapland was steered at intervals abruptly to port and to starboard in a zig-zag course.

Going at its highest speed, the steamer left the combatants behind and made the safety of the open ocean. The Lapland carried 113 passengers.
