ARMOUR'S MILLIONS SAVE

Seventy-Five Entangled Firms and Individuals Given Aid. Enabled Through Help of Concern to Maintain Record of Never Having Closed.

CHICAGO, Aug. 1.—Armour's million yesterday rescued the wheat pit from panic. Instead of chaos resulting from a settlement day in the midst of a war market, with possible scores of firms embarrassed and a virtual certainty that bankruptcies, few or many, would ensue, the Chicago Board of Trade was enabled to maintain the record of never having closed, no matter how dire the emergency, and tonight not a failure, big or little, had taken place.

The chief reason was that seventy-five entangled firms and individuals on the exchange were freed by Armour & Co., whatever aid the necessities of the situation required.

President George E. Marcy of the Armour grain company was the man who arose to the occasion. He quietly circulated word on the floor of the board, partly in person and partly through his lieutenants, that any member in trouble today need only come to him. Before midnight Armour & Co. had taken over 8,000,000 bushels of open trades, which if not transferred were critically in danger of being lost.

The Armour sales of wheat were supplemented by simultaneous disposal of 1,000,000 bushels of corn and an equal quantity of oats. These sales were equivalent to purchases covered by numerous gradual purchases whenever pit conditions would allow without disturbing the course of prices.

OMAHA, Aug. 1, 1914. There were many men to be seen in the wheat trade yesterday who give the traders of the Chicago Board of Trade little attention. These men are selfish and they are anxious to force prices up with an attempt to secure a profit. They were headed off by the Armour brothers in a manner that caused loss to some of them. The moment they saw that they remained out of the market and refused to take a hand in the market, the traders of the remainder of the day instead of a runaway affair and sensational advances there were no more.
