Belgrade, Former Servian Capital, Which Fell Under Austrian Bombardment

With the fall of Belgrade under the assault of the Austrian guns, the Servian capital was transferred to Nish, a fortified city far back in the wild Servian mountain regions.

WAR EVENTS MOVE RAPIDLY

Kaiser's Hot Speeches Forecast Declaration of Hostilities.

BRITISH POSITION IS DEFINED

Attitude of Turkey Important Factor, as It Is Believed Porte Has Understanding with Germany.

LONDON, Aug. 2.—Events in the European crisis developed yesterday with startling rapidity.

At 7:30 o'clock the German ambassador at St. Petersburg, Count von Pourtales, delivered a declaration of war in the name of his government to the Russian government.

Although, after the war-like speeches delivered by the German emperor and the imperial chancellor at Berlin on Friday, no other result could be expected, hopes that the dread event might be averted had been raised by the intervention of King George in St. Petersburg.

Die Is Cast.
New the die is cast and Europe is to be plunged into a general war.

Late last night placards were posted in Paris calling for general mobilization and the German ambassador, although he had not been handed his passports, was preparing to leave the French capital.

First Shots Fired.
The first shots in the Russo-German war, were exchanged between patrols this afternoon near Prostken.

The only redeeming feature of the darkest prospect with which Europe has been faced for half a century is that Italy has declared its neutrality.

Another fact, which as yet has not been given much consideration, is the attitude of Turkey, which, if she has sufficiently recovered from the effects of her late war with Italy, may be able to throw considerable weight into the scale.

There was no cessation of diplomatic activity in London throughout the day. This evening Premier Asquith gave a small dinner party at his residence in Downing street.

The cabinet will meet again tomorrow to consider Great Britain's attitude in the crisis. The government will have to make its momentous decision between the two schools of thought which prevail.

When they received no return fire the Austrians placed their bridge in position and crossed without further resistance. The fortress of Belgrade was destroyed by the bombardment, but the remainder of the capital was but little damaged.

Events of Day.
A dispatch received by the Reuter Telegraph agency from Berlin says that a general mobilization of the German army was ordered this evening.

Baron von Schoen, German ambassador to France, called on the French premier, Rene Viviani, at 7 o'clock yesterday evening and formally notified him Germany had addressed an ultimatum to Russia.

The German government fixed "before 1 p. m. today" as the period in which France must answer.

The German reply, whatever it was, was submitted to the French cabinet council, which, within a few minutes afterwards, ordered a general mobilization of the French army.

The date of the mobilization was set for tomorrow, but that only means the men must reach their regiments by tomorrow, so the mobilization begins immediately.

The marching of the soldiers in the streets with the English, Russian and French flags flying, the singing of patriotic songs and the shouting of "On to Berlin!" were being remarkable than the general demeanor and cold resolution of most of the people.

The response to the order of mobilization was instant and the stations of all the railways, particularly those leading to the eastward, were crowded with departing reservists.

The troop trains departed at regular intervals and the Paris streets were quiet and nearly empty tonight.

These scenes were never before witnessed in the west end of London, where ordinarily the notes of any country of the world are changed without demur.

Prominent American residents met here today and organized a mission to assist their compatriots who may be stranded on the continent through the paralysis of the ordinary banking facilities.

Walter H. Page, the American ambassador, and Irwin B. Laughlin, secretary of the embassy, have gone to the country for the week-end and cannot be reached by telephone tonight.

WASHINGTON, Aug. 1.—Active measures for the relief of many thousands of Americans in distress in Europe for lack of money or means to return home have begun by President Wilson and Secretary Bryan.

The president and Secretary Bryan conferred tonight on getting money to citizens abroad.

WASHINGTON, Aug. 1.—Active measures for the relief of many thousands of Americans in distress in Europe for lack of money or means to return home have begun by President Wilson and Secretary Bryan.

The president and Secretary Bryan conferred tonight on getting money to citizens abroad.

The administration has under consideration sending army and navy transports to carry American refugees and a special request to congress for an appropriation is expected.

Mr. Bryan discussed several plans, but will not make final decision until tomorrow, when they will confer again and get the opinion of the bankers who usually serve the State department abroad in normal times.

If necessary the Washington government proposes to send American vessels abroad with gold for the relief of Americans.

With the cancellation by several steamship lines of their sailings many Americans find themselves unable to get passage on the overcrowded boats of American register.

By special arrangement, officials believe the American government could obtain the use of foreign ships securing exemption from seizure if used only for transportation of Americans.

A special appropriation will be required to charter steamships to bring home Americans.

Many applications were received at the State department today from persons in the United States desirous of having American consuls investigate and report upon the safety of their friends and relatives in Europe.
