Pencil Ruthlessly Cuts Out Every Line that Would Give Information of War Moves

LONDON PAPERS CUT IN SIZE

Big Dailies Are Reduced to Half Size, but Are Having Immense Circulation Due to Demand for News.

(Copyright, 1914, Press Publishing Co.) LONDON, Aug. 7 .- (Special Cablegram to the New York World and Omaha Bee.) -Military operations or preparations through Europe are being carried on behind an impenetrable veil of censorship There has becarno telegraphic communication between England and Germany for the last week. Only news from Berlin was received until then. It came via Washington or was brought by refugees. The cutting of the German-American cable destroyed the former source of information.

Dispatches have been brought to the Dutch or Danish frontlers and filed there, but the censors will allow nething of vital interest to go through. Telegrams from France to Britain are liable to indefinite delay. They must be written in French and are sever ly consored even when in plain language. Telegrams the meaning of which are not quite clear to the censor are being stopped. There is occasional communication with

Italy from here under the same conditions, but telegrams take from twelve to forty-eight hours to get through. With regard to Switzerland, the same conditions prevail as with Italy, the censorship in both cases being doubled, because dispatches have to run the gauntlet of the French censor in addition to the censor of the country of origin.

Cables to Russia are still open, but St. Petersburg, which was slow in putting the censorship in motion, now has established it, and it is almost impossible to get through press dispatches, except those filed by Russia's official agency.

The London papers all have reduced in size. The Daily Mail, instead of running from twelve to sixteen pages dally, is pirinting six pages. The Times has reduced to twelve of its small six-column

The Telegraph, which recently was printing up to twenty-two pages, now also is twelve pages. Advertising has almost disappeared from their pages. The quality of print paper used seems also to have changed. The evening papers contain practically nothing but war news and rumors and their war specials are sent out on single six-column sheets.

Owing to the difficulty, if not complete impossibility of getting war photographs, the illustrated papers will be severely hit, for the circulation of the daily papers will be increased beyond all

### French Say Posters Prove that Kaiser

PARIS, Aug. 8 .- An official statement, issued today, say that German mobilization posters placed on all towns of Vic and Moyenvic, in Alsace-Lorraine, prove the French contention that the war was premeditated on the part of Germany. The towns were occupied by the French yesterday and, according to the statement, the posters which they found afforded them valuable information concerning Germany's mobilization, besides revealing that Germany had decided upon war at the time the triple entente was redoubling its efforts for peace.

BERLIN, Aug. 8 .- (Via Amsterdam and London.)-The German newspapers compiain about the diplomatic meaneuvers carried out to make Germany appear the disturber of the pence. They maintain that it was Russia that pushed Germany

It is reported here that the Germans in France who were unable to leave within the time limit are being sent to western France and compelled to help with the harvest. They add that German women in Russia are being expelled, while the men have been thrown into prison.

Matthias Ersberger, leader of the clerical party in the Imperial Parliament and chairman of the arms committee, states that the German army and navy are both splendidly equipped, while the German rifles and cannon are superior to those of the adversaries. He declares Germany can absolutely rely on its defensive

### British Optimistic About Food Supply

LONDON, Aug. 7 .- J. D. Broadbank. representative of the Board of Trade in port affairs, is optimistic regarding the food supply. nI an interview he said:
