France and Italy-A Greek Lady in London-Off the Benten Trucks of the Restaurateur.

"Jints, you understand," said my father, "none of your hagmage and skewer bita." In these words, put into the mouth of Mr. Burton the elder, Henry Kingsley summed up the typical English attitude towards food. Sea Gulls and Boves Are Chief Sufferers from Aerial Disturbances.

Wireless telegraphy has done much for us, and probably-or rather, surely willdo a great deal more for the benefit of humanity at large. But, if they could speak, many birds would probably tell you that they don't approve of this new invention in the least. For in the parts of the world where there are a large number of wireless stations observations have been made which seem to indicate that birds are disturbed in a very curious way by the wireless waves. The unoffending seagulf is one of the chief sufferers, as slao is the harmless dove. This strange state of things is attributed in some way to an effect of the ether waves, though how it is brought about is not yet understood.-London Answers.
