KIGIN BACK FROM PLAINVIEW

State Veterinarian Inspects Herd Thought to Have Tuberculosis.

FINDS IT FORAGE POISONING

So Far This Year Very Few Cases of This Disease Have Developed Over the State—Hall Files His Expense Account.

(From a Staff Correspondent.) LINCOLN, Aug. 14.—(Special)—State Veterinarian Kigin returned last night from an inspection of conditions surrounding the death of several cattle in the vicinity of Plainview recently. It was at first thought that the cattle had died from tuberculosis, but after looking into the matter Dr. Kigin came to the conclusion that it was due to forage poisoning. However, a close watch will be kept on the herds where the losses were sustained and if new cases are reported another investigation will be made. So far this season cattle have not been affected very much with forage poisoning and it had been hoped by the state veterinarian that there would be little of it.

Sioux Indians Paying Visit to Captain Cook

HEMINGFORD, Neb., Aug. 14.—(Special)—Captain J. H. Cook of Ageton, in Sioux county, is enjoying a visit from a band of Sioux Indians from Pine Ridge agency in South Dakota. Captain Cook was a scout in the early days in the west and succeeded, in those dangerous days, in making friends with all the tribes of the west. Red Cloud visited him every summer as long as he lived and his son, the younger Red Cloud, continues the custom. In Captain Cook's study on the ranch there is a valuable painting of Red Cloud painted by a noted New York City artist who visited at the ranch one summer. Captain Cook has the ceremonial dress of both Red Cloud and his squaw.

When valuable fossil beds were discovered, Captain Cook reported it to the scientists of the east, who came out to excavate in the hills, but Red Cloud, who controlled the country at that time, refused permission to go to work, saying: "No white dig for bones. White man takes away his hunting ground from Indians and drive off Indians. White man must let hill alone." It was necessary that Captain Cook be sent for down near the Texas line, where he was doing some valuable work for the government, and it was some time before even he, whom the Indians implicitly trusted, could prevail on the council of the chiefs to let the work proceed.

Hall County Ballots Have No Rotation

GRAND ISLAND, Neb., Aug. 14.—(Special Telegram)—It was discovered late today that no rotation had been on any of the ballots for the primary election, printed for this county. An inspection of the ballots for the democratic primary for seventeen out of the twenty-one precincts found no rotation for the same state offices.

The ballots were printed by a democratic newspaper house, but the error appearing through all party ballots, and there is no ground for any other belief than that it was a mere oversight. The manager of the concern at first declared the ballots were rotated as the order had been given.

The ballots will immediately be reprinted as it is believed by some that there might otherwise be ground for a contest.

Don't Eat Much Meat in Summer

You should eat meat very sparingly during hot weather, because meat heats the system and, when the mercury is high, you need cooling foods. There are foods just as nutritious and some more nutritious than meat. Take, for example,

FAUST SPAGHETTI

One single 10c package of this wholesome food is four times more nutritious than a pound of the finest steak. Faust Spaghetti is rich in gluten, the food element that makes bone and muscle. It is a cooling food, also, and can be prepared in many ways. Makes rich, savory, appetizing dishes that can be very easily prepared. A 10c package will make a Faust Spaghetti dinner for a family of seven. Surely, that's economical. Send for free recipe book.
