

CRIPPLED SHIPS IN HARBOR

Two Warships Enter Hong Kong, Carrying Many Wounded.

GERMAN SQUADRON IN CORNER

Battle in the Far East, but Identity is Not Disclosed—Shipping There is Gradually Being Resumed.

SHANGHAI, Aug. 14.—The identity of the two warships, each having four funnels badly damaged and carrying many wounded, which entered the harbor at Hong Kong yesterday, is still undisclosed.

However, it is believed they are either the British armored cruisers Minotaur and Hampshire or the French armored cruisers Dupetit and Montcalm. They are reported to have had an engagement with the German cruisers of the same type, Scharnhorst and Gneisenau.

A dispatch from Hong Kong, received by the Exchange company London last night, said it was reported in Hong Kong that the British fleet in the far east had cornered the German far eastern squadron. The correspondent added that weight was given to the report by the fact that shipping along the coast was being resumed on a normal basis.

The British cruiser Minotaur has a displacement of 14,000 tons and was completed in 1905. It carries four 8.2-inch guns and smaller armament. The Hampshire's tonnage is 13,500 and its four largest guns are 4.5 each. The Dupetit and Montcalm are 7,735 and 8,257 tons, respectively. Each carries eight 8.4-inch guns and smaller ones. The German cruisers Scharnhorst and Gneisenau are sister ships, displacing 11,420 tons. They were launched in 1906 and each carries eight 8.2-inch guns and the cruiser equipment of smaller guns.

Employer of Non-Union Labor Roasts Papers and Courts

SEATTLE, Wash., Aug. 14.—Regulation of "yellow journals," election of business men to legislatures and removal of judges from politics were the steps suggested to the Federal Industrial Relations commission today by J. Bruce Gibson of Everett, Wash., as means for checking social unrest. Mr. Gibson is president of the Federation of Employers' Associations of the Pacific Coast.

To illustrate the kind of articles which he would have barred from publication Mr. Gibson read a contribution to a Washington socialist publication. It advised readers that a revolution impended and told where high power rifles could be obtained. Mr. Gibson also declared that cartoonists who stir up strife should be castrated.

"The great trouble with police magistrates and other judges," Mr. Gibson said, "is that they constantly are playing to the galleries. So long as judges are in politics just so long will they fail to administer laws properly."

Mr. Gibson does not employ union labor in his foundry. He said that a few years ago he signed an agreement for a year with a union and its provisions were broken within three months by the labor leaders. Since then he has conducted an "open" shop.

J. V. Patterson, a Seattle shipbuilder, told the commission he thought the American Federation of Labor should have a "house cleaning" and repudiate Samuel Gompers.

Frank P. Walsh arrived here from Kansas City today and resumed his duties as chairman.

The commission has decided to continue in session here until Tuesday and then go to Portland.

BEAUTIFUL EMPRESS MARKET OPEN FOR BUSINESS TODAY

Rosoff Opens New Empress Market on Sixteenth Street

To be known more for cleanliness than size and for quality rather than quantity, is the aim of Jacob Rosoff, who has opened a model meat shop and grocery at 113 South Sixteenth street, which operates at "The Empress Market." Mr. Rosoff also operates the "Public Market" on Harney street and will divide his attention between the two places. The "Empress Market" is a store of glass and marble. third of it is devoted to a great glass refrigerator. An aquarium for live fish is to be built into one of the display windows. Half a dozen auto trucks will compose the delivery department. "Cleanliness and quality" will be the watchword at the "Empress Market," says Mr. Rosoff. "I think that is what the public wants, and you know we must give the people what they wish." C. W. Ortmann's New England bakery will supply the "Empress Market" with bread, pies, etc. "The Uria Cheese company's products will be found on the shelves of the new pure foods emporium. All the delicacies will be made in auto trucks bought from the Bullock Machine and Supply company. The coal sold will be the celebrated "Certified Brand" of the Sunderland Bros. Co.
