

U. P. TO CLOSE OGDEN GATE

Overland Route Will Cease Routing Tickets Over Competitive Roads COMPANIES ARE UP IN ARMS

Railroads Affected Taking Steps with Interstate Commerce Commission to Stop Movement of Union Pacific.

Again the Union Pacific is about to close the Ogdén gateway against the Burlington, Rock Island, Santa Fe, Missouri Pacific, Colorado & Southern and the Colorado Midland, together with their connections.

The representatives of the interested roads are up in arms and are preparing to take steps to prevent the proposed action. Their appeal has already been made to the Interstate Commerce Commission, the contention being that if the Ogdén gateway is closed, the roads that would be shut out would be unable to ticket passengers through Colorado and Utah to points on the Oregon Short Line.

Limits Tourists Tickets. The allegation is made that if the Ogdén gateway is closed, in the future all tourists going to the Yellowstone park will be prohibited from going through Colorado and Utah and stopping off at the scenic points enroute.

Protests of Colorado and Utah hotel keepers and business men are going forward to the commission, numerous petitions being signed and forwarded.

In its notice to the interested roads, the Union Pacific states that, effective October 1 of this year, or as soon thereafter as current tariffs can be supplemented or revised, interchange of business at Salt Lake and Ogdén, between the Oregon Short Line and the Denver & Rio Grande will cease at Colorado common points. This business, the Union Pacific states, must be routed by way of the Union Pacific between Denver on authorized points of interchange east thereof on the one hand and Granger or Ogdén on the other.

Matthews' View. Assistant General Passenger Agent Matthews of the Missouri Pacific, in the city from a tour of the Black Hills country and on his way home to Kansas City, discussing the proposed closing of the Ogdén gateway by the Union Pacific, said: "It is to be seen if the Union Pacific can close the gateway against the other roads. Whether or not it will be permitted to do so is a matter for those higher up to determine. It probably thinks it can, else it would not have made the attempt."

CITY DADS TO REGULATE TAXI DRIVER NUISANCE

Taxicab chauffeurs who gather in front of hotels and talk and "block the sidewalk with their scraping and other antics," may be made the object of special legislation by the city council, for some of the city commissioners have received several complaints against the tactics of

the gangs hanging out in front of Park street hotels. The commissioners will take the matter up with Commissioner A. C. Kugel of the police department, and if he is without authority to control "the nuisance," an ordinance will be prepared by Commissioner Dan B. Butler of the department of finances and accounts.

Bohemians Plan to Help Countrymen in Need of Assistance

Representatives of various Bohemian societies met Friday evening at Turner hall and discussed ways and means of helping their countrymen in Europe. F. J. Kutek, president and referred to the terrible conditions existing among the noncombatants in the various countries now engaged in war. He emphasized the importance of neutrality, but urged that every reasonable step be taken to aid relatives and friends.

The societies will co-operate with the Red Cross in the distribution of funds. A mass meeting will be held Sunday, September 13, at which a definite plan will be adopted. However, another assembly of the representatives will take place Monday.

OMAHA TO SEND MAN TO RESERVE BANK MEETING

Omaha bankers are to send a delegate to Washington to meet on September 4 with a conference of representative bankers from the twelve reserve cities, and other business centers. Six non-reserve cities are to be asked to send delegates. Omaha was among the six. A telegram came from the federal reserve board to the Omaha clearing house asking for a delegate from Omaha. It is likely that either J. C. French, president of the clearing house, or Luther Drake, vice president, will be selected to represent Omaha bankers at the conference.

FRUITSTAND ORDINANCE NOT BEING COMPLIED WITH

Although an ordinance was passed by the city commission at the instance of Commissioner C. H. Withnell, ordering the removal of all fruit stands from sidewalk spaces, city commissioners have received complaints that the order has in no particular been obeyed or enforced. "The trouble is," said Commissioner Dan B. Butler, "that many of these fruit vendors pay large rent for the space and in instances contracts have been made which, if broken, would result in probably unjust injury to some."

JOHN GERLOCK ADDRESSES STATIONARY ENGINEERS

John Gerlock, member of Nebraska National Association of Stationary Engineers, lectured before a meeting of engineers and technical men of Omaha and adjacent cities Friday night at Washington hall on "Hydro-Kinetics." Mr. Gerlock advanced some new theories which were contested by Nathan Bernstein, A. G. Knight and T. Willhunn of Chicago. At the end of the lecture there was a general discussion.

OMAHA WHEAT IS STRONGER

Cereal Shows New Disposition, with None Selling Less Than Dollar.

BUT LITTLE FOREIGN TRADING

Only Few of the Local Speculators Dabble in Chicago Market, Preferring to Await Movement of the July Option.

Omaha wheat prices were strong again, nothing selling below \$1 per bushel. Of the twenty-four cars offered three sold at \$1.03, four at \$1.02 and seven at \$1.01. There were forty-five cars on sale and the bulk of the offerings were taken around 77 cents per bushel, a couple of cars going 1/2 cent higher. Chicago corn prices were: September, 80 1/2; December, 78, and May, 74 1/2 cents per bushel.

Locally there was little trading on the Chicago wheat market, dealers preferring to wait for the July option, that goes into effect next Tuesday. The quotations here showed \$1.04 for September wheat and \$1.07 1/2 high. For December \$1.11 1/2 was high and \$1.06 1/2 low, while May went up to \$1.15 1/2 and \$1.16 low.

WAR MEANS DRUG SHORTAGE

Germany Is Chief Nation Exporting Chemicals, Says St. Louis Pharmacist.

With a general war throughout, and importation from that continent virtually stopped, one of the first lines of commerce to feel the effects would be the drug trade, according to Gustav J. Meyer, secretary of the Meyer Brothers' Drug company.

"In the field of drugs and chemicals," said Mr. Meyer, "Germany is supreme. In that branch of commerce that country occupies the same niche among nations as the United States does in the manufacturing of machinery."

One of the first things in which a shortage would be felt, said Mr. Meyer, would be in carbolic acid. Virtually all of this chemical, so much in demand in times of war, and so generally in use in this country, comes from Germany. There was never a ton of it manufactured in the United States.

Quinine, however, will be as plentiful, almost as ever. Only about 35 per cent of the quinine used in America comes from Germany. The bark comes from the Dutch possessions and from South America, and it is manufactured here in immense quantities.

It is in such drugs as veronal, trional and other drugs that Germany supplies the world, and there is bound to be a shortage should the war continue any great length of time, said Mr. Meyer. Mr. Meyer says that all of the coaltar preparations come from Germany, and these form the basis for thousands of preparations. One-half of the remedies in general use today, he said, are based on the coaltar preparations.—St. Louis Republic.

Her Ambition.

"I'll be leaving in the morning, mum," said Nora. "What?" cried Mrs. Topswell. "Don't I give you a home and a good bed and plenty of food?" "Yes, mum." "Doesn't I pay your wages regularly?" "Yes, mum." "And allow you an afternoon off every other week?" "Then what more do you want?" "It's like this, mum. I hired to you for to be a lady's maid. But that is something I can never be, mum, so long as I work for a woman like you. So I'll be looking for another place tomorrow."—Newark News.

BURGESS-NASH COMPANY

Store News for Monday.

Every Day Now Interesting Groups of New Fall Merchandise Are Added to Our Stocks

Expect to see interesting new merchandise at each repeated visit to our store. The freshness, novelty and beauty is daily more impressive throughout every section and we invite you to come and view it and enjoy it.

Prosperity and Peace

IT certainly is great to be an American citizen—to live in a land of peace and plenty.

To know that we can plant our crops, gather our harvest and go on building up our great industries to such a point where they will be prepared to supply the needs of the whole world.

The men and women of this country would sacrifice much to stop the terrible conflict that is now going on in the Old World—the tearing down and destroying, but they are powerless.

Meanwhile, the world's needs go on and these needs must be supplied.

It is now that the ingenuity and resourcefulness of the American manufacturers will meet these demands.

So with this store, we will continue to build up and improve our service and to give the best possible merchandise for the money.

Our representatives have visited the Eastern markets and have provided well for your requirements.

Each day now interesting new merchandise is added to our Fall stocks which within a very short period will be very complete and will afford a greater and better selection than ever before.

It's our determination to be of the "GREATEST SERVICE TO THE GREATEST NUMBER."
