(From a Staff Correspondent.)
LINCOLN, Sept. 12.—(Special.)—On Monday the republicans will start the campaign of 1914 in an active way. Headquarters will be permanently opened in the Lindell hotel and all departments will be put to work.

On that day also the automobile campaign will be inaugurated starting with a trip through the First district. R. B. Howell, candidate for governor, will be the principal speaker, but will be assisted by other state candidates and the congressional candidates in the districts through which they pass.

Lights on State House.
The pleasing effect produced by the lights covering the dome of the state house during fair week has caused a request to be made for them to be continued indefinitely. The lights are owned by the Lincoln Commercial club, but the price is furnished by the plant at the penitentiary, so that the Commercial club will allow the lights to remain in it likely that the state board may conclude to furnish the power to keep them going.

Twins in Taylor Family.
Railway Commissioner H. G. Taylor and Mrs. Taylor are the parents of fine twin boys.

Dining Car Attractive.
No attraction at the state fair drew more attention than the Brighton dining car which had been set on the grounds near the auditorium as a part of the pure food exhibit. Meals were served the same as on the road and tipping the waiters was one of the privileges if one so desired. That the innovation was a popular one was evidenced by the fact that about 250 meals were served each day. According to Food Commissioner Harman it served two purposes of giving people who desired a better meal than that served at the dining hall a chance to get it without going down town and also had a tendency to make the dining halls serve better stuff.

"We are more than pleased with the reception given the dining car," said Mr. Harman this morning.

Anniversary Observed.
Today was the 100th anniversary of the writing of the song "The Star Spangled Banner," and as a consequence Secretary of State Watt ordered up all flags on the state house, in memory of the author, Francis Scott Key.

SOUTHEASTERN NEBRASKA
RAISING BLUE GRASS SEED
STELLA, Neb., Sept. 12.—(Special.)—The threshing season is practically finished and a resume of the wheat and oats yields is timely.

Brook, in Nemaha county, estimates 25,000 bushels of wheat remain in that locality to be marketed after 100,000 bushels have been delivered to the grain buyers at that place. This yield comes from a territory not more than six or seven miles square. Wheat around Brook this year made from twenty-five to fifty bushels to the acre, where the Heslar fly did not work, and the average yield is close to thirty bushels. The Heslar fly did not do a great deal of damage.

Big tractor plows have been brought to Falls City to use for fall plowing. A new industry about Falls City this season was the harvesting and export of blue grass seed for the first time.

The canning factory at Auburn has been in operation for the first time in two years, dry weather last year preventing.

Had Bright's Disease
Doctor Said He Would Die.

Bright's Disease excites fear in most people. While Bright's Disease follows neglect of kidneys, it can be checked in its incipient. For more than 27 years Warner's Safe Kidney and Liver Remedy has been recognized by many physicians as a dependable remedy.

"I was taken with Bright's Disease of the kidneys and went to a doctor. He analyzed my urine and said I could not live. I began taking Warner's Safe Kidney and Liver Remedy and in four months I was cured."—H. B. Sparks, Hydeville, Cal.

AFTER THE WEEK OF RAIN FAIR BOARD COUNTS UP

(From a Staff Correspondent.)
LINCOLN, Neb., Sept. 12.—(Special.)—According to President Roberts, the state fair has been more of a success than it promised in the middle of the week. No fair has ever been held under more discouraging conditions than the one this week. With a grand display of everything and a good race program people in attendance would have been highly entertained. But with rain nearly every night, keeping the roads impassable for automobiles, the attendance was cut down considerably.

"I believe if we had had good weather such as prevailed Friday," said Secretary Mellor this morning, "there would have been 50,000 people at the fair. However, with the weather we had it was remarkable how many people came, but it is a great disappointment."

The game of croquet has also been very popular this summer and electric lights have been installed at two different private grounds.

The Tahiti and Willochre were on the run from San Francisco to Australasia.

Governor Schultz and 100 other government officials and functionaries were taken prisoners of war and taken to the Fiji islands. Frederick Heinz, operator of the newly installed wireless station, refused an offer of \$10,000 to tell where he had hidden the powerful apparatus of which the station had been stripped after it was learned that war had been declared. All government and private funds had been carried to safety at Pago Pago, American Samoa.

Bill of Lading Tax Scaring Democrats, Who Reef Their Sails

(From a Staff Correspondent.)
WASHINGTON, D. C., Sept. 12.—(Special Telegram.)—Chairman Underwood of the ways and means committee, frankly stated today that he was up a stump in relation to a tax on bills of lading. Notice was sent out this morning from the office of the ways and means committee asking all members to attend a meeting on Monday morning, but so insistent were democrats that to levy a tax on freight bills would mean the loss of at least fifty democratic seats that Chairman Underwood pulled back his request for a full committee meeting of the ways and means committee and decided that the subject of a tax on freight bills of lading should once more be presented to the president and if the latter should decide that this tax be levied another call would be issued for a meeting of the full committee.

Congressman Sloan and other republican members of the committee look upon the contemplated tax on freight receipts as one of the most invidious that was ever proposed by a political party. If ever a market basket was taxed, this tax would be its completer representative and the states of Nebraska and Kansas would be the hardest hit.

The democrats, appreciating the seriousness of the situation, have called a halt, until the president indicates directly his desires.
