In spite of the heavy run the market was in spienoid condition at the beginning of the week, the demand being good and the trade as a whole in a very healthy condition. Later on in the week, as eastern markets began breaking and as receipts here continued heavy the market eased off and some kinds of cattle closed sharply lower.

market eased off and some kinds of cattle closed sharply lower.

The best beef steers, both cornfeds and good to choice rangers, have been steady all the week, cornfeds seiling up to \$10.25, and rangers at \$9.00. The medium grades of beeves, in fact, those ranging all the way from common to good, have eased off during the last day or two until they are 250940c lower than last week.

Cows and helfers were stendy and even stronger during the early part of the week. Canners were in good demand and remained fully steady until the close. Other grades of cow stuff eased off and are now 15030c lower than the close of last week.

While the choicest fleshy feed-ers did not show very much change, the medium to common kinds broke rapidly the latter half of the week and are 3000 to love than one week and Some kinds 50c lower than one week ago. Some kinds of cattle may have shown more loss even than that. At a late hour there were still a good many cattle left in the hands of speculators, with the possibility that some of them might be carried over until next week.

st. Louis Live Stock Market.

St. Lo the forenoon were as much as isc higher, and the general market on shipping kinds was quoted as 16g15c up. With shippers and speculators picking up everything they could use, packers were forced to pay better money to fill their orders and the killer trade, after opening fully a nickel up, soon settled down on a 5g10c higher basis. Owing to the sharp advance on shipping grades, and the fact that a large share of the total receipts went to shipper buyers the average of all the sales shows a gain of close to 10c. Movement was lively during the earlier hours but on the extreme close, with competition less keen, good dema

trade became dull, and what looked like an early finish to the market was turned into a slow, draggy affair.

Bulk of the killer sales was made at \$5.20g8.46, with a sprinkling of shippers on up to \$5.60, and a couple of leads of good hogs on the light and butcher order reached \$75, top for the day and equaling the week a best price paid Thursday.

This week has been one of sharp declines and advances, but today's prices are just a shade under those paid at the close of last week. On days when shipping orders were light packers had things their own way and pounded prices about

for August of this year were abnormally large as compared with the same time a year ago.

In many ways the market on all kinds of fat stuff has been very similar to last week in that the supply was not equal to the demand and prices made substantial advances on most days. During the first four days of the week the packers were keen competitors, resulting in prices advancing 505500 on fat lambs and 405500 on multion, principally ewes, as there has been a scarcity of yearings and wethers all the week. On Friday, under the influence of liberal receipts and degressing news from outside points, sellers were compelled to accept a 155750 decline on the bulk of the lambs, which reduced the improvement for the week to a basis 305760 higher than the close of last week. Fat ewes, due to light supply, remained fully steady on Friday, so they the still 40550c better than a week ago. The present schedule of prices on both sheep and lambs is still about on a par with the high time in August, but as compared with September of last year lambs and yearlings are 754550 higher and mutton around 305740c up. Present indications point to only moderate receipts for the fore part of next week, but it might be well to remember that current prices are still dangerously high for this time of the year.

Both feeder lambs and sheep are generally 107150 dearer than a week ago. At the close of last week the bulk of the

the year.

Both feeder lambs and sheep are generally 105715c dearer than a week ago. At the close of last week the bulk of the feeder lambs went to the country at \$6.50 \$67.20, whereas feeder lambs are now going to the country slowly, chiefly at \$6.6097.30. Feeder ewes continue scarce and are quotable at \$3.7504.25. Few feeder wethers or yearlings have shown up. Some two or three cars of feeder yearlings sold yesterday at \$6.75.

Quotations on range sheep and lambs: Lambs, good to choice, \$8.258.45; lambs, fair to good, \$7.4008.25; lambs, feeders, \$6.0007.30; yearlings, good to choice, \$8.15 \$66.00; yearlings, fair to good, \$5.7676.55; yearlings, feeders, \$5.5066.00; wethers, good to choice, \$5.506.55; wethers, fair to good, \$5.3005.50; wethers, feeders, \$3.500 \$4.85; ewes, good to choice, \$6.2566.60; ewes, fair to good, \$5.3005.50; wethers, feeders, \$3.5006.425.
