

Smoke makes the air impure—do you also realize that smoke is caused by impurities—in your fuel? It goes up the chimney—is wasted. You needn't continue to accept smoke, clinkers, foul gases and slate along with your fuel—even though you have been accustomed to doing so. Try Vulcan Coke and be emancipated. It's 90% carbon—that is why it leaves so little ashes—you could not save a dollar in 5 years by sifting them.

The satisfaction and comfort that Vulcan gives you is worth more than the money you save, yet if Vulcan was no better than coal a 20% cut in your fuel bill would interest you, would it not?

A SURE WAY TO SAVE TEETH

"Never pull a tooth." is the slogan of the American dentist and the world accepts that slogan as the motto of the tooth. You will find him in the courts of Europe and in the places of China, Japan, India. The best authorities affirm the mouth is the breeding place of disease germs—these little microbes eat away the outer white enamel under the teeth, discover and subject to swift decay. It is a well known fact that many teeth now lost or loosened out of the mouth, could have been saved to their owners had prevention been taken in time. One tooth begets another lost tooth. When you smile people should see your teeth. You owe it to yourself socially or in business to have such teeth; otherwise people will say "He's too bad; his teeth are in such a shocking condition."

Pyorrhoea is one of the baffling disorders in dentistry. You will notice it in the loosening of the teeth, swollen gums, tender teeth, bleeding, ulcerated and aching gums, receding gums. Now these conditions will disappear, never to return again. If you will go to your druggist and get four ounces of fluid which no more will be needed, put a teaspoonful in your mouth, night, noon and morning. Keep it in the mouth about five minutes, rocking it to and fro and then throw it out—use no water for five minutes. It stops the wearing away of the enamel. It also dissolves the collection of microbes and infestations of the mouth that link in and about the cracks or crevices. Healing of the gums begins right away and a rich, red, rosy hue will be shown—the teeth get firm and strong in the gums and all the old disease conditions, with the pyorrhoea, pass away overnight. Microbes dissolved from the teeth and loosened will be thrown out—disappear. The enamel of the teeth will be saved. The receding gums will take on a normal condition and all the danger of the gum being fritted from the enamel will pass away. You will save your loosening teeth. Your mouth clean and free from microbes. The bleeding stopped, the bacteria loosened and thrown out from the shelters and nooks and crannies of the teeth, give the mouth a clean bill of health.—Advertisement.

Yankees in London Fear German Bombs More Than English

"Stranded Americans in London stand in the streets and look up to the sky in fear and trembling, expecting German dirigibles to drop bombs," said Judge Ben S. Baker, city corporation counsel of Omaha, returned after having been detained in England for two months because of war and the consequent shortage of ships.

"Judging from the attitude of the English, one would never know that war was being prosecuted on the continent. They go about their business and are not excited, but the Americans are up in the air. They are very much up in the air."

"There was C. N. Dietz, for example. If you publish this story I'll kill you, but Dietz got scared stiff. I met him with Vic White. He was looking up toward the sky and declaring a bomb was likely to fall any time. It's only 100 miles, I tell you," he said. "Why can't the Germans send one of their airships over and drop bombs on us? Don't tell me they can't."

"The next thing we knew Dietz was bundling his wife's fine clothes into gunny sacks and getting ready to send her away out into the suburbs, where he said it would be safe."

"Dr. Jones was the least concerned of any man I saw. He said if he couldn't get home he would arrange to live in London, and took the whole thing as a matter of course."

COMMITTEE DECIDES A NEW JAIL NOT NECESSARY

A committee of six from as many organizations, appointed to investigate the need of \$100,000 bonds to build a new city jail, reported to the city council that while the jail was in a filthy and "disgraceful" condition, "wholly unwarranted," repairs could be made and a new jail is not necessary.

Following are the names of the committee which investigated the condition of the jail and reported to the council: Henry F. Wyman, Commercial club; George H. Arnold, Central Labor union; F. H. Myers, Real Estate exchange; John J. Toms, Builders' exchange; Willis J. Hoopes, United Improvement club; W. H. Green, Federated Improvement club. The committee recommended that the jail could be repaired for \$10,000.

REDUCED APPROPRIATION WILL HAVE LOCAL EFFECT

The effect in Omaha of the defeat of the rivers and harbors appropriation bill by congress Monday, will probably not be known for some time. Omaha had hoped for about \$20,000 help each year from the fund, for protecting the intake of the metropolitan water district on the Missouri river at Florence. As the matter now stands, the money is to be spent at the discretion of the secretary of war and the board of army engineers, who will be called on to decide whether Omaha's needs are urgent enough to merit any part of the greatly reduced appropriation.

PEDERSON GETS VERSES AFTER COWS ARE KILLED

That the Illinois Central railroad after having killed two cows alleged worth \$300 sent Robert Pederson a card bearing Walt Mason's verses on "Going to Law," together with an offer to settle for 50 per cent of the damages, is alleged by Pederson in a petition in district court. In the verses the hero is represented as "going to law" over a cow and later going to the rear house while his lawyer occupies his former home.

CHANGING THE CHIMNEY INVALIDATED INSURANCE

Whether the changing of the location of a stove pipe in a farm house invalidated a fire insurance policy in the State Farmers Mutual of South Omaha, is the issue in a suit on trial in Judge Estelle's district court. Gleason Zueher, who resides near Gilmore, Sappy county, is the plaintiff and is suing for \$1,200.

What Would You Do? There are many times when one man questions another's actions and motives. Men act differently under different circumstances. The question is, what would you do right now if you had a severe cold? Could you do better than to take Chamberlain's Cough Remedy? It is highly recommended by people who have used it for years and know its value. Mrs. O. E. Sargent, Peru, Ind., says: "Chamberlain's Cough Remedy is worth its weight in gold and I take pleasure in recommending it." For sale by all dealers.—Advertisement.

AFFAIRS AT SOUTH OMAHA

City Treasurer Martin Hits at Delinquent Pool and Movie Men.

MANY IRREGULARITIES EXIST Numerous Peddlers and Draymen in City Operating Under Permits from City Officials Instead of Licenses.

City Treasurer P. J. Martin and Chief of Police John Briggs have started a crusade against the delinquent pool hall and moving picture men who have not paid their licenses this year. Martin has complained for some time that the license money was not coming in. Recently he began a little quiet investigation on his own hook. Here are some of the things he found:

A majority of the peddlers and draymen were not paying licenses. Some operated under "permits" from different city officials.

Pool halls were found who had not paid for licenses for a long time. Pawnshops were discovered that failed to pay for licenses until all the other pawnshop keepers had been compelled to pay the licenses.

Moving picture men were found who had not paid all of their license money and some who had paid none at all.

Martin said the law required the license money to be paid all at once. The other night he ordered the chief of police to close a moving picture show which had refused to pay a license.

Martin said: "It is an outrage to permit some of these people to operate without license while others have to pay hard money for the same. The other day a peddler from Omaha was picked up operating under a permit. He had been in the town for a half hour and had to be arrested."

Ordinance Delayed. According to reports about the city hall a number of public improvement ordinances are being held up by the judiciary committee without ostensible cause. At the meeting last night the council reported twenty-two special ordinances to second reading. Partial estimates on paving and grading were allowed to the extent of \$2,300. D street from Twenty-third to Twenty-fourth was ordered paved with Buffalo brick block. A new controversy over Egyptian brick block broke the surface of good fellowship around the council board. The question was whether Egyptian or Purlington brick should be designated as the material for paving Twenty-seventh street from I to L street.

Dr. Barber, one of the originals of Owen Wister's "Virginian," passed through South Omaha yesterday via the northwestern en route to Douglas, Wyo., from Cheyenne. With him were Percy Hoyt, Jack Elliott, Charles and Fred Herak and Eddy Morgan, all expert riders and doers of wonderful feats of horsemanship. The men are going to attend fairs at Douglas and Caspar. They came from Cheyenne and had to come as far as Fremont to reach the Northwestern line which is to take them to their destinations. They came the rest of the way to Omaha just to see the sights.

The men are not professional riders, but are, nevertheless, most expert as horsemen. They carried along two special cars besides their own coaches and sleepers. One car contained their mounts and another carried their equipment.

ONLY FULL ADDRESS WILL INSURE CARD DELIVERIES

Word to the local postoffice heads has been received from Hon. Daniel C. Roper, first assistant postmaster general, to the effect that there is a growing tendency on the part of advertisers, publicity bureaus and utility corporations as well as other patrons to omit street and house numbers from the address on postal cards with the evident expectation of having the postoffice complete the address the cards should be given. It is announced that henceforth directory service will not be given these cards and they will be consigned to the general delivery.

Druggists Blame Higher Prices on German Importers

Criticism of the German drug market conditions resulting from the war, were voiced at the Home hotel by the Douglas County Retail Druggists' association. The druggists complained that German importing firms in New York have boosted drug prices 100 to 200 per cent to druggists, but have made no advance in price to doctors buying direct, both being supplied with old stocks, on hand before the war started.

Further criticism was directed at the United States patent laws, which permit sales of patent German chemicals in this country at four times the price the same goods bring in Canada, yet prohibit the sale of such drugs in this country except when bought direct from authorized German importers.

President J. H. Schmidt of the organization presided. John Freytag is secretary. No formal action in the matter can be taken successfully, they say. See Want Ads Produce Results.
