OBJECT TO FAKE REPORTS

County Commissioners Resent Alleged False Statements.

MANY GOOD MEN ON JURIES

Jury Panel Now Serving Composed of First-Class Men, Representatives of Omaha's Best Type of Citizenship.

Charges of intentional unfairness on the part of the Joe Polcar-Robert Smith combine have been aroused at the court house by publication of statements attacking the personal of the full jury panel. Members of the Board of County Commissioners, asserting that they knowingly incurred the enmity of the newspaper organ by starting suit to recover thousands of dollars of fees from Smith, say they are not surprised by public attacks, but object to what they call false statements.

"Their jury commissioner issue is a good one for a man who is not in office but wants to be," said Commissioner McDonald. "Wild statements regarding juries are easily made and contradictions go unnoticed and as a matter of fact there is no reason why there should not be a jury commissioner, except the added expense."

Says Statement Not True.

"Of the 50 men drawn by lot for the fall panel it is charged that one-third are not listed in the city directory. In the first place, on its face the statement is a flat untruth. But when you take into consideration that a number of jurors are from out in the county, the fact that many have moved, left the city or died since the big list was selected nearly a year ago and the further fact that typographical errors are responsible for failure to find other names in the directory, this charge is without merit."

"There has been one jury scandal in several years in Omaha, and I have knowledge that detectives in the pay of W. J. Burns and hired by a man prominent in politics handled the evidence which brought about this scandal. 'As a matter of fact, the jury panel now serving is composed of first-class men, representatives of Omaha's best type of citizenship, and fair-minded persons should come to the court rooms and see them if they desire information,' concluded Commissioner McDonald. 'As drawn, the juries contain names of many men of money and many working men. Because most of the former get accused, the latter are left to do most of the jury work.'"
