FRENCH ROB TEUTON CORPSES

Official Statement at Berlin Says British Cruiser Sunk Not by Mine, but by Submarine.

BERLIN, Sept. 24.—(By wireless to Seyville, L. I.)—The official announcement issued yesterday by the headquarters of the German army...

The Wolf bureau, the semi-official news agency has published a statement giving details of an alleged outrage committed by French military bicyclists in charge of an officer on wounded German soldiers in two Red Cross motor cars near Bethencourt.

Loan Over-subscribed. The war loan has been over-subscribed and is a huge success. Official figures just published give the final results of the subscription as follows:

The German submarine U-9, in charge of Lieutenant-Commander Weddigen, escaped unhurt after the sinking of the British cruiser Pathfinder was sunk, not by a mine, but by the German submarine U-21.

Sunk by Submarine. An official statement says that the British cruiser Pathfinder was sunk, not by a mine, but by the German submarine U-21.

Eye-witnesses to the bombardment of the Rheims cathedral say that the building was only slightly damaged. The German press calls attention to the fact that the English, when they attacked Delhi in 1857, did not spare the glorious monuments of India, and it recalls, also, that Nino Bixio, leader of the Garibaldians, threatened to bombard the vatican when he was besieging Rome.

ZAPATA WILL JOIN -VILLA MOVEMENT

Secretary of state to learn details of the Carranza-Villa break. The report which reached the embassies and legations here was that Carranza had not been manifesting a pacific spirit.

Gonzales Appeals to Villa. MEXICO CITY, Sept. 24.—Efforts are being made here to patch up the break between Carranza and Villa, it was announced today.

Efforts were made to conceal the break, but news of it leaked out in certain circles, causing a sensation among military men. It was regarded as most serious.

General Pablo Gonzales, chief of the army of the east, has telegraphed Villa an appeal which gives eight reasons why Villa should reconsider his action and remain friendly to Carranza.

These reasons summarized are: "First—A breach now would bring on the common enemy who is a foreigner." "Second—The ideals of the revolution are accomplished."

Third—To retard the peace movement because of personal questions would nullify the good already accomplished. "Fourth—Your prestige would suffer in public opinion at home and abroad and your acts be compared with those of Pascual Orozco, whose treason obstructed the labor of rehabilitation during previous revolutions."

Fifth—You would bring sorrow to the nation. "Sixth—Gonzales requests Villa not to constitute himself a judge." "Seventh—Gonzales suggests that if Villa's action is inspired by elevation to power of persons whom Villa opposes, a settlement probably can be arranged if Villa will present the grounds of his objection."

TURKISH ENVOY TO QUIT WASHINGTON

(Continued from Page One.) strations, reminding the American people of those incidents.

The ambassador after explained personally and then wrote at length. The president directed Mr. Bryan to say in answer that the statements made by the ambassador were objectionable to the American government and but for the fact that a tense situation existed in Turkey, which he did not desire to aggravate, the diplomatic impropriety committed by the ambassador might otherwise be a subject for discussion with the Ottoman government.

Von Schoen Denies Interview. NEW YORK, Sept. 24.—Count von Bernstorff, the German ambassador, said today he had received a letter from Baron Wilhelm von Schoen, an attaché of the German embassy in which the latter emphatically denied that he had stated in an interview that he believed war between the United States and Japan was inevitable.

KAISER PLANS TO CAPTURE ANTWERP

(Continued from Page One.)

The Germans should the Germans be compelled to retreat from France.

The correspondent with the Belgian army, under date of Tuesday, says: "The Belgian army emerged from the ramparts of Antwerp today in a sortie against the German army based on Brussels. The advance guard exchanged shots with the German outposts on the road thirteen miles from the capital."

A correspondent of the London Chronicle, who is with the Belgian army in the field, wires that the Belgian army is pushing on toward Brussels and is confident of regaining control of the city.

Another Ghent dispatch to the Chronicle quotes a local newspaper as saying that 450 inhabitants of the small Belgian town of Tamines, in the Namur district, have been killed, presumably on account of some act against the Germans occupying the district.

Russ Force Eagle Back Into Silesia and Threaten Movement on Breslau

(Copyright, 1914, Press Publishing Co.) PETROGRAD, Sept. 24.—(Special Cablegram to the New York World and the Omaha Bee.)—The Germans are assembling their greatest forces between Kalish and Wielun, on the frontier of Russian Poland east of Breslau, and southward to a point nearly west of Cracow.

The Russian general staff's statements, however, says today of this part of the campaign: "Upon the German front the Russian troops are in close contact with the enemy, but no battle has yet taken place."

The czar's congratulatory message to General Ivanoff, commander in chief of the order of St. Alexander Nevsky, ex-priest, high gratification that Russia's southern army is now advancing westward on Cracow.

Evidently, the Austro-German forces hope only to make a slow defensive campaign during the rains, but the same conditions are likewise delaying the Germans' attempted aggressive operations from the southernmost corner of east Prussia, through Souwalk province.

A request has been received from the Gorbogodatski mining district in the Urals, which is under government control, for 10,000 prisoners to be employed in the mines.

ITCHED AND BURNED WITH IVY POISON

Arms Swelled, Very Painful, Couldn't Do Any Work and Lost Much Sleep. Cuticura Soap and Ointment Healed in a Week.

346 Chapin St., Toledo, Ohio.—"My trouble started one day when I got poked by ivy. My arms swelled up and were very painful. They broke out with a sort of rash, itched and burned and I had to keep my arms all tied up to keep from scratching them. I had to keep something soft on them so as not to irritate them. I couldn't do any work and I lost much sleep. I had treatments and they seemed to make it worse, so I dropped them and used Cuticura Soap and Ointment. Every morning I washed my arms with Cuticura Soap and then applied the Cuticura Ointment. At the end of a week I was cured." (Signed) Mrs. C. Schroeder, Apr. 7, 1914.
