CEMENT RATES TAKEN UP

Superior Plant Wants Railroads to Enable it to Meet Competition.

HEARING BEFORE STATE BOARD

Kansas Companies, Under Existing Schedule, Are Able to Ship Into Nebraska at Less Cost Than Nebraska Corporation.

(From a Staff Correspondent.) LINCOLN, Neb., Sept. 28.—(Special.)—Hearing on the application of the Portland Cement company of Superior for a better rate for cement to all points in this state was before the State Railway commission today. Assistant Rate Clerk Munson of the Kansas commission appeared in behalf of the Superior company and said that the Sunflower state had nineteen producing plants and that the Kansas rate on cement was lower than the rate in Nebraska.

Nebraska has but one producing plant, superior and the company at that place is very anxious to get a rate in Nebraska, which will enable it to compete with Kansas and other states which are enabled on account of the lower rates in those states to ship to this state in competition with the Nebraska company. As it is at present cement is shipped under class C, which is higher than the company thinks it can afford.

Two Requisitions. Governor Morehead today issued papers for the return of Donovan H. Carpenter, charged with forgery committed in Wisner, having forged a check for \$5 on the Wimer State Bank, signing the name of George Miller to the same. Governor Morehead also granted extradition papers for the return to Des Moines of John E. Williams, wanted for obtaining money under false pretenses. A check was forged for \$15. Williams is being held in Omaha.

The department of weights and measures connected with the Pure Food commission will begin this week testing scales and weights at the state institutions. The law requires that this test shall be made once a year and for that purpose the work will begin immediately.

La. Gripe and Colds

La. Gripe and Colds. Anti-kamnia (A-K) tablets are unequalled, as they stop the pains, soothe the nerves, and bring the system back to health. Physicians have used them for over twenty years, in the treatment of colds, fevers and La. Gripe, and have found no other remedy more useful in these conditions. Anti-kamnia Tablets are so inexpensive, so pleasant to take, so satisfactory in their results, and so useful in all conditions where there is pain, that A-K tablets should always be kept in the house for the time of need. Many of our ablest physicians obtain perfect results in La. Gripe and colds by cleansing the system with Epson salts or "A-K" tablets. A very good cathartic, putting the patient on a limited diet, and administering one A-K tablet every two or three hours. This treatment will usually break up the worst case in a day or two, while in milder cases, ease and comfort follow almost immediately. These tablets are also unequalled for Neuritis, Rheumatic Pains, The Pains of Women, Indigestion and Insomnia. All druggists have them. Genuine A-K Tablets bear the K mark.

Hubka Loses Contest for Place on Gage Democratic Ticket

BEATRICE, Neb., Sept. 30.—(Special.)—James C. Hubka, of Virginia, lost his appeal in the contest of the primary election for the democratic nomination of sheriff, which was decided in the district court Tuesday afternoon by Judge Pemberton. At the primary election R. N. Fulton received the nomination for sheriff by three votes, and Hubka filed a contest in the county court alleging that republicans had been allowed to vote the democratic ticket in the Third ward in Beatrice. He also held that there were irregularities in a number of county precincts and filed a petition to the effect that Fulton received votes that should have been counted for him. He asked for a recount of the ballots. Judge Walden dismissed the case in the county court and Hubka filed an appeal to the district court. Judge Pemberton Tuesday in giving his decision stated that there was no evidence to show errors had occurred in the count in any precinct, and owing to the lack of specific evidence ordered the action dismissed.

Mr. Thompson, who knows by experience, says a directory is of great value to the community. It is the work of all the people. It is used by every one as a work of reference now, and after a while becomes permanent history of the city, the people and their institutions. Mr. Thompson is surrounded with some able assistants. He has a large force of men engaged in the canvass for the new directory, which is just begun, and he intends to deliver the directory early in January instead of in the middle of summer as heretofore. Look out for the best directory ever made in Omaha. It will not only be used here, but will be distributed throughout the principal libraries and hotels in the state and in all the directory libraries in the United States and Canada. There will be no city on the North American continent of any size where the Omaha Directory will not be accessible to the public. Mr. Thompson is making a larger and better collection for the directory library which is maintained at the directory office, 35 Flammeg building, and the free use of this directory library is extended to every citizen of Omaha and to every person who comes here to buy goods or for social or other purposes. The directories of the world are at your disposal through the offices of the Omaha Directory Co. This circulating library is a great thing for Omaha. It gives people here the benefit of all the directories in the United States and then sending the Omaha Directory out in exchange for them advertises Omaha everywhere.

Jones Case Must Wait.

The supreme court will appoint a commissioner to take testimony in the case of Earl Jones of Corning, seeking release on writ of habeas corpus and relief from serving time for abduction of a young woman as an elopement. The attorneys in the case have failed to reach an agreement to stipulate as to the facts in the case, and this will cause delay until the supreme court meets again with full bench in December. The disagreement is as to the testimony that would be given by the county attorney and the district judge as to events happening at the time Jones is out on bond to await the determination of his case by the courts.

Aviator Describes View of Big Battle from Height of Mile

LONDON, Sept. 30.—A letter from an officer of the royal flying corps under date of September 4, describing a view from an aeroplane of the battle eastward of Paris, says: "Yesterday I was up for a reconnaissance over this huge battle. But it will be remembered as the biggest in history. It extends from Compiègne to Belfort."

The flying corps all opened fire together. From a height of 5,000 feet I saw a sight which I hope it will never be my lot to see again. The woods and hills were literally cut to ribbons all along the south of Laon. It was marvelous watching hundreds of shells bursting below one to the right and to the left for miles and then to see the German guns replying. "I fear there will be a lot more awful fighting before this show ends, but we are certain it will end with us on top, although we all had our doubts about three weeks ago during that awful retreat."

Writing again on September 19, the officer says: "The huge battle still is going on. Our machines, after being out all day, still bring in the same news. The Germans have got into one of the strongest positions possible. Fortunately reinforcements are arriving and are coming up on the German right at Soissons."

The officer mentioned that aeroplanes are shot and shelled by friend and foe every time they ascend. They hardly ever descend without bullet holes all over the planes, but fortunately, the writer says, the flying corps has lost only one pilot and passenger up to September 4.

Comes Out Flatly for Whole Dry Program in Ohio.

URGES WOMEN BE GIVEN VOTE

Declares Brewers and Distillers Have Taken Field Against Equal Suffrage as Danger to Liquor Dominance in Politics.

TOLEDO, O., Sept. 30.—Theodore Roosevelt came out flatly for the whole temperance program of the Ohio progressives. "Condition in Ohio this year are such that if I were a citizen of Ohio I would vote against the wet amendment and for the dry amendment," he said.

Colonel Roosevelt referred to the brewers' amendment to abolish county option and prohibit prohibition and the state-wide prohibition amendment submitted by the anti-saloon league.

He charged the liquor men with bringing the issue on themselves. He said: "Take Field Against Suffrage. The brewers and distillers have taken the field again woman suffrage because they regard the entry of women into the rights of citizenship as a danger to the dominance of liquor in politics, which they have been trying more and more to establish."

"I saw this in Michigan, where every saloon was headquarters for the fight against woman suffrage. In this state I ask you to remember that the issue was forced by the liquor interests. I have not been one of those who wanted to bring up the issue, and I regret that it has been brought up, but when it is brought up I am not afraid to face it."

Dry Counter Attack. "In this state a counter attack is signified by the dry amendment. The brewers and people subservient to them made it evident that only one of two alternatives can be taken. "Do you want to let the liquor interests dominate your parties, your public life and your government?"

BODY OF MRS. CLARKE TO BE BURIED IN BEATRICE

DENVER, Colo., Sept. 29.—(Special Telegram.)—After lying nearly fifteen months in Denver awaiting burial, the body of Mrs. Rebecca Elbert Clarke, sister of the late Governor Elbert of Colorado territory and mother of W. Mrs. Clarke died July 6, 1913, of hemorrhage of the brain, at the age of 81 years. The funeral was held two days later, but both Mr. and Mrs. W. E.
