NEW BUILDING FOR PERU

State Normal Board Decides to Spend Funds on Hand for It.

LEGISLATURE THEN TO PROVIDE

Balance on Hand to Normal's Account is Just About What Will Be Needed to Erect Walls and Put in Heating.

(From a Staff Correspondent.)

LINCOLN, Oct. 2.—(Special.)—Notwithstanding the building fund for normal schools is running low, the State Normal board has let the contract for the erection of a new building at the Peru Normal, which will be christened the "Majors" building in honor of the junior member of the board, Thomas J. Majors. The contract for the erection of the building was let for \$268,800, which does not include anything but the building itself and there is no money for the furnishings and only about enough for the heating and plumbing. It is expected that the next legislature will not allow the building to stand idle and will appropriate funds to get it in shape. It will cost in the aggregate about \$300,000.

State Treasurer George, who is a member of the board, asked the board how they expected to erect the building without creating a deficit, and the answer was shown in the action above.

How It Will Be Done.

He called the attention of the board to the fact that the legislature appropriated 90 per cent of the state levy for state normal school purposes, which meant that a total of \$708,900 was available until the next legislature makes another appropriation. Of the amount the normal board set aside \$400,000 for maintenance and \$218,900 for the general or building fund. Of this amount the board had expended all but \$78,915, but this will be increased by \$15,000 from the normal endowment, which will make available \$93,915.

Mr. Majors says he does not know whether his name is to be emblazoned upon the tablets of the building in accordance with custom such as is used in Carnegie structures and says he does not care so much about that as to have his name up high. The reporter followed the direction of Mr. Majors's finger and noticed a hole in the ceiling, which may not indicate, however, that the members of the normal board expect to be in a hole before the building is completed.

Money from Government.

The governor's office was in receipt of a draft for \$10,643 today, being 10 per cent of the amount received by the government for the sale of government lands in Nebraska. This fund is to be credited to the agricultural fund of the state.

Requisition for Freeling.

Extradition papers will be asked by the governor of Illinois for the return of Max Freeling, wanted in Omaha for grand larceny and who is now in the hands of the Chicago police. Freeling is accused of appropriating \$650 in money and \$300 in furs from Jake Schwartz, an Omaha dealer in furs.

Bryan is Concerned.

Secretary of State William Jennings Bryan has written a letter to the governor, which was received today, calling upon all loyal democrats to rally to the support of the entire democratic ticket in order to save the national administration from criticism which, he appears to feel, would be the result if the democratic party should meet defeat in the state. Following is the letter:

I am greatly interested in your re-election and in the success of our entire state, congressional, legislative and county tickets. Aside from my personal desire to see our party's candidates elected, I feel that it is highly important from a political standpoint that the splendid administration of President Wilson shall receive an emphatic endorsement in Nebraska, as it doubtless will in other states. I shall spend several days in the campaign in Nebraska, but cannot fit the dates. I desire to be at home to vote, it is probable that I shall come to the state during the latter days of the campaign.

Jewelry Store Robbed.

GRAND ISLAND, Neb., Oct. 2.—(Special Telegram.)—The jewelry store of August Myer & Son was robbed and about \$150 in goods was taken. The trail left by the robbers quite clearly shows that they were attracted by a display of diamonds in the show window during the day, which had, however, been deposited in the safe during the night. Watches contained most of the booty. There is no clue to the burglars.

TELLS ITALY TO TAKE SLICE OF AUSTRIA

Rome Newspaper, in Open Letter, Says Time Has Come to Complete Work of Cavour.

TRIPLE ALLIANCE IS ENDED

Trente, Trieste and Dalmatia Should Be Seized and Annexed to Italy—Country Should Not Remain Isolated.

ROME, Oct. 2.—The Idea Nationale has published an open letter to Premier Salandra setting forth that nobody believes the triple alliance will be in existence after the war. It has been proved, the writer of the letter says, that Italy is not qualified to be an ally of Austria; therefore to remain isolated would be a crime against the country, as it would mean supreme danger in the future.

The paper expresses the hope that if Signor Salandra remains as premier he will free Trent, Trieste and Dalmatia and join them to Italy, thus crowning the labors of the makers of Italy and completing the work of Cavour.
