

SUFFRAGWORKERS QUIT THE CHURCH

Mrs. E. M. Fairfield, President of Society, Gives Up Her Pew at All Saints.

MRS. POLCAR ALSO LEAVES

Mrs. Sumney Says that She Never Was a Regular Attendee There, but Only Went Occasionally.

Mrs. E. M. Fairfield, president of the Equal Franchise society, is one who has given up all social duties and gives every cent of her personal income for suffrage.

At the beginning of the summer Mrs. Fairfield resigned her pew at All Saints' church because there were no sermons during the summer and she wished to apply the money (\$15) to suffrage work.

During the summer the anti-suffrage society issued a pamphlet on "Feminism," to which Rev. T. J. Mackay's name was signed.

Mrs. Fairfield is a daughter of the late J. M. Woodworth, who was one of the founders of All Saints' church.

Mrs. Joseph Polcar has also given up her pew in All Saints' church. It is understood that several of the suffrage workers have taken their ministers to task for expressing anti-suffrage views.

Mrs. H. C. Sumney said that she did not leave the church, because she never was a regular attendant there, simply going on special occasions.

Makes Escape From Jail. FAIRBURY, Neb., Oct. 14.—(Special.)—A clever escape was made from the county jail at this point last night when J. C. Smith, a negro, gained his freedom. Sheriff Hughes says that Smith attempted a jail break some time ago and to make sure that he did not get away he had him locked in a steel cell. He unlocked the cell, also the big lock on the main jail door, as well as the Yale lock on the outside, without damaging any of them, and made good his escape. He had an accomplice, as it was beyond his power to reach the outside lock.

Smith robbed the Smith second-hand store and stole ten watches and several guns last July. He is on parole from the district court of Lancaster county on the charge of intent to kill.

Secretary Bryan signed peace commission treaties with Gonzalo Cordova, minister from Ecuador, and A. Schlenker, minister of Greece.

A movement to build a memorial to Mrs. Woodrow Wilson, in the form of a model block of sanitary houses in the slum district of Washington, has been started by Mrs. Archibald Hopkins, who interested Mrs. Wilson in a sum work.

Mrs. Ernest Hicknell, wife of the director of the American Red Cross, and other women. The plan is to build a block of the block by subscriptions from the women of the country and to call it the Ellen Wilson Memorial block.

Fall campaign plans were discussed again at a meeting of President Wilson and his cabinet. Secretary Bryan and other members of the cabinet reported that the outlook from a democratic standpoint is bright. The president has completed his letter to Majority Leader Underwood of the house, praising the democrats in congress for their record, and it will be made public tomorrow or Thursday.

Secretary Bryan called to the belligerent nations of Europe the following peace resolution adopted last week by the governing board of the Pan-American union, which comprises the United States and the other twenty American republics: "In view of the awful strife now devastating continental Europe, the governing board of the Pan-American union hereby resolves to convey to the governments of the belligerent countries an earnest expression of its desire for peace as a tribute to the sentiments of fraternity which have inspired the meeting of the Pan-American conference."

Efforts of southern members of congress to procure legislative relief for the cotton states aroused considerable doubt as to the time of adjournment. Representative Underwood, the house leader, said the attitude of legislators from the cotton states practically had made impossible adjournment by Saturday night.

Grade of Grain May Be Raised When it is Given Cleaning

KANSAS CITY, Oct. 14.—That it is legitimate to raise the grade of grain by cleaning it after it has been consigned to an elevator on an inferior grading was the decision given the Grain Dealers National association in convention here today by Dr. J. W. T. Duval, crop technologist of the United States Department of Agriculture.

Dr. Duval said there can be no ground for charging fraud against those dealers who buy dirty grain, which, for that reason had been given a grade below that it would otherwise receive, and who, by properly cleaning it make it eligible for a higher grade.

This practice has been followed extensively by dealers and has been subject to much criticism. A. C. Jones, a banker of Kansas City, advocated national legislation to obtain uniformity in the issuance of bills of lading and shippers' grain receipts. He recommended the acceptance of this form of paper as bank collateral only when it was clearly shown that the goods had been received by the railroad.
